

## List of MUSIC LIBRARIES, ARCHIVES, AND MORE... for music research classes

Notes: This list was developed from a list originating at the [Sibelius Academy](#) and shared with me by a colleague enhanced, and added to create this resource for students in music research courses at Illinois State University and should consider that some databases, especially from libraries, are commercial, require a subscription service, and are not available to the browsing public. Typically, one gets access to these resources through campus library web sites where there are librarians, faculty, or staff. Where language translation is an issue, Google translate tools are helpful and readily available.

Please send updates and additions to help keep this list as current possible. *Last updated June 2011; broken link*
