

Underclassman Introduction to TC

Chase Ring
Alex Srakaew
Denay Taylor
Divine Tsasa Nzita

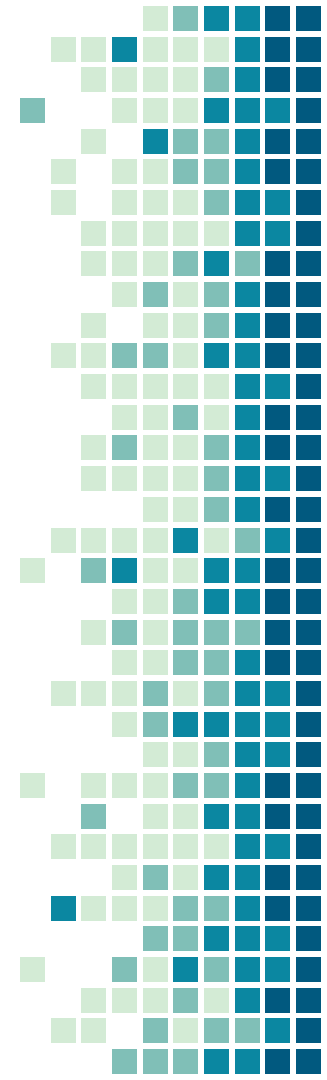

Project Summary

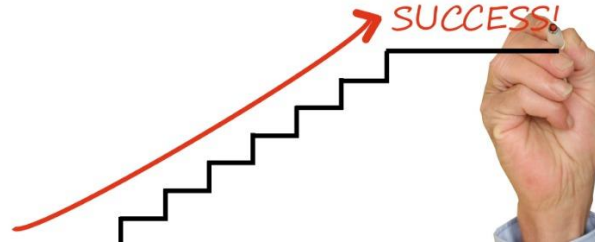

Problem: Many underclassmen have trouble adjusting to life at TC (personal experience).

Why: TC is a huge school, and the middle school environment is different than that of highschool. The Minnie Howard environment is different than that of the Main Campus.

Solution: Record upperclassmen and teachers giving advice on how to navigate highschool and on what to expect from TC, and put together a video to be shown to underclassmen the first day of school.

Process

1. Determine beneficial questions
2. Record advice from upperclassmen and teachers
3. Edit video
4. Post video online

We decided to change our video from solely an advice video to an introductory video because the answers to the questions we asked provided more of an introduction to TC.

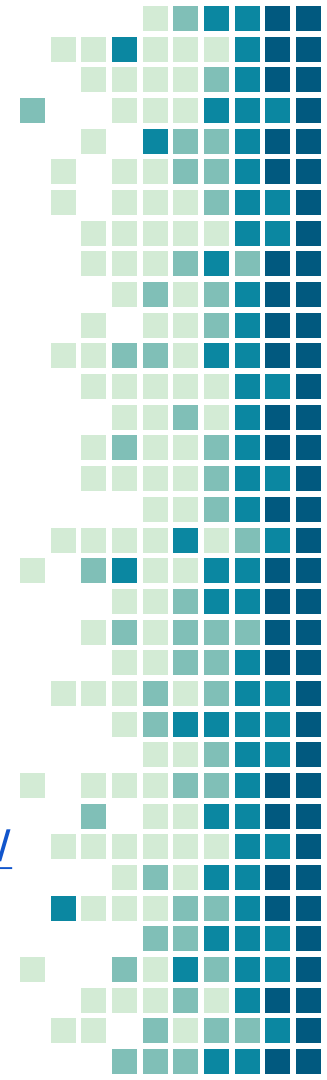

Final Product

Introduction to TC Video:

Reflection/Next Steps

Reflection

- The project went smoothly
- Could have had more girls
- Could have had more teachers

Next Steps

1. Make any changes to video if needed
2. Send video to administrators

The background is a dark blue gradient. In the upper left, there are five light blue stars of varying sizes. In the lower right, there is a single light blue star. On the far right side, there is a vertical column of a grid of squares, each a different shade of blue, creating a pixelated or mosaic effect that tapers towards the top and bottom.
