Thursday 9-11 AM

NETWORKING
We were so thrilled to have Dr. Leigh Greathouse talk to us about networking at our last meeting. If you have other ideas or things you’d like to learn about, send us an email!

WE’VE GOT (E)MAIL
We are excited to announce that we have an official email address. Get in touch with us at cegss@baylor.edu

UPCOMING EVENTS

FACULTY/GRADUATE STUDENT DINNER
11/10 @ 6pm
Dr. Doyle’s House
Please help with carpooling (sign up)

EFFECTIVE STEM COMMUNICATION WORKSHOP (PYPHD)
11/11 @ 1:30pm
BSB C.124
RSVP

WEBSITE BUILDING WORKSHOP
12/3 @ 1:30-3:30
BSB E.234
RSVP

RELIEVING STRESS IN GRAD SCHOOL WORKSHOP
Early-Mid February
Time and Room TBD

Who knew worms were so cool?
The Lee Lab sure does! Peter Sheesley worked his magic with the Nikon TE2000-U epifluorescence microscope for a recent conference. He investigates the role of integrin and extracellular membrane proteins in genital, excretory canal, and muscle development using several β-integrin, cytoplasmic tail, FNPF motif mutants. GFP: excretory canal, MH25 red: β-integrin, DAPI blue: nuclei, RFP: neuronal cells.

It’s a girl!
We are excited to congratulate Andrew and Emily Cox on the arrival of their beautiful baby girl, Molly, on August 22nd, at 11:15 am, 20 inches. She is sister to an older brother, Jacob. She loves ceiling fans, cracking smiles, clouds in the sky, and being held. You: fast. Thanks to her brother, Molly may hold the world record of number of times per day of life listening to the Moana soundtrack.

Looking for those good vibes?
Join CEGSS as we work with Waco Beautify on 12/6 and 12/9 from 3-6 pm to help elderly residents in District 1, areas north of Baylor and across the Brazos, move bulky trash to the curb. Volunteers will be provided with shirts and water. Sign up here. Contact Brittany Perrotta (brittney.perrotta@baylor.edu), our Volunteer and Service Coordinator, for any additional questions.

Dr. Rutherford has arrived
We welcome the arrival of Dr. Julienne Rutherford to meet with graduate students across departments and give a seminar on Tuesday November 6th, 2-3pm in the BSB E.227. She will be in Waco 11/5-6 and has opportunities to meet with students one-on-one. You can read her SAFE paper and the policy paper. Get in touch with a CEGSS representative to learn more or set up a time to meet with her!

Dr. Julianna Rutherford
Biological Anthropologist from University of Illinois at Chicago

Tuesday, November 6th at 2 pm
BSB E227

All are welcome to attend

Dr. Rutherford will be speaking on the SAFE (Survey of Academic Field Experiences) paper she and her colleagues authored on survey data gathered regarding harassment experienced during field work, as well as how aware victims were about reporting mechanisms and options. Their second paper “Signaling Safety: Characterizing Fieldwork Experiences That Impacted Their Career Trajectories” extends the findings from the SAFE paper and also addresses policies and procedures which could be implemented to improve the experiences in field work settings.

Hosted by the CMBD/EEO Graduate Student Society
