## *A Bridge*

---

My role of instructional technologist is a lot like a bridge: connect faculty to students and faculty to faculty. As a bridge, I aim to span pedagogical divides through trainings, consultations, podcasts, and blogposts so that faculty can learn and share new ideas with each other. Please let me know how I can help you.

*The medium of liberal education is that portion of the past which is always present. It consists of the liberal arts, literary and mathematical, because they control thinking whenever thinking is done; and equally it consists of the great works in which meaning has been given to the ideal statement that human life is itself an art.*

## January Workshop

*PollEv and  
OAKS Grade  
Integration*

Want to learn how to integrate Poll Everywhere data as graded assignments in OAKS? During this hour, faculty will learn the steps for integrating Poll Everywhere and the OAKS gradebook, using their mobile phones as presentation remotes, setting up their classrooms, communicating with students about the Poll Everywhere app, creating extensions in PowerPoint or slides, and establishing best practices. Each participant will receive a "PollEv Kit" for creating a successful technology experience. Sign up with Eventbrite by clicking [January 3](#) or [January 4](#).
