

Leadership interview with Mr. Posner

In fifth grade we were learning about leaders. We were learning about how a leader should be like and about the different types of leaders. In EAL we learned about leaders at Dwight. We interviewed Mr. Posner and learned what he thought a leader should be like.

Mr. Posner

When we asked Mr. Posner how long he has worked at Dwight he said 4 years. We learned that he is a busy man and sometimes he has to do work on weekends, but he always leaves some time for fun. He said that in school his favorite subject was math. The last question we asked was "What is a leader to you?" He said that it is someone who helps, is a positive person and who inspires other people.

Thank you to Mr. Posner!
