

## **Hippie Camel**

*Theme: Animals*

My friends and I were traveling around the Gobi Desert on a warm afternoon in May 2014. We had spent the day in awe of the incredible expanses of natural beauty around us. The only sighting we had yet to come by was camels. Lo and behold, as we made our way out of the Gobi Desert, we spotted a herd of more than 100 camels! We all jumped out of the van to snap a few pictures before the rainstorm that loomed in the background came down on us. While walking up to our new friends, I discovered that there was one camel that did not quite fit in. This particular camel was rocking out with a full afro of camel hair! This picture makes me smile every time that I see it!
