

Lower School Science Olympiad Club Application

*Please complete and return to Mrs. Whitehouse or Mr. Knox by **September 16**. We will not accept applications after this time.*

Club Guidelines

Lower School Science Olympiad Club is a club that meets every other Wednesday from 3:00-4:30. If you are accepted into the club, you **CANNOT register for any other Lower School clubs or activities, fall or spring, that meet Wednesdays after school**, including student council. Please note that the commitment to this club extends outside of club meetings; the commitment does not end at 4:30 on Wednesday afternoon! Students are expected to study for events outside of school, and parental support is strongly encouraged. Some events require the building of a model, and this **will** require home support.
