Do you need a camera? No; in fact, we don’t use the camera function. During the session, you may share your work (by uploading files), speak with others in the session (with a headset/mic, if you have one), and/or use the chatbox to type questions and responses to other participants.

Anyone requiring disability-related accommodations in order to fully participate in this event should go to <www.ada.umb.edu> and complete the request form.
