Join us in an active session to improve your literature reviews—whether you are writing one as a separate project or as part of a larger paper. GWC tutors will facilitate the session and provide support and resources. Bring your questions and, if possible, your in-progress literature review.

- Strategize to begin writing your review while you continue to gather research
- Make a schedule to break down the writing process into manageable parts
- Explore different options for organizing sections of your literature review
- Recognize ways to revise a literature review to respond to changes in the direction of your larger research project or paper

Join by clicking on the GWC Bb Collaborate Room link to these words.
