Q:

Was the relationship between the section (if any) and the course effective, and how could it be improved? What are the strengths and weaknesses of your teaching assistant (discussion section leader, lab section leader, grader or other assistant) as an instructor, and how might his/her teaching be improved? (*Your anonymous response to this question may be viewed only by your instructor(s) and your teaching assistant, and by administrators responsible for evaluating their teaching.*)

LOVE LARRY. Larry is an awesome TF who makes section fun, while also teaching you the course material. He is great at isolating the important parts of the readings/lectures while still making sure you understand the details behind them.

Instructor: Larry Lee Bowman

The section was effective. Larry was a good TA who offered very clear explanations when asked questions. The only thing he might have done better was to prepare a more pointed direction for each section.

Larry was a great teaching assistant. The relationship between the course and the section was very effective and allowed for further discussion of the curriculum and applied the material to real-world cases. Larry presented the material in a fun and understandable way.

Larry was fantastic, redeemed much of this course for me. Sometimes treated us like high schoolers, but hell, we probably deserved it. Still challenged us and taught us in most ways. Extremely enthusiastic in what he does. Let Larry teach the course, please.

Section was most helpful when we did interactive things, like the debate, the IBT demonstration with ping pong balls, and the population dynamics worksheet. I would recommend more sections like those.

The section was absolutely imperative to understanding material in the main lecture. Larry was wonderful as a TF and made each section fun and informative. He always made sure we understood exactly what we were supposed to and were on top of the material we should be.

Larry was a fantastic section leader! Extremely intelligent and very approachable - he easily made up for the weaknesses of Puth and Powell.

Best TF any person could ask for. Pick him if you get the chance. Always responded to emails. Great personality. Made time and explained concepts very well!

Larry was a phenomenal section leader. Whereas the Professors for this course essentially read the textbook during lecture, Larry explained the content of this course effectively, efficiently, and interestingly. Section was the best part of the class for me, and I often didn't understand what was going on until I went to a review section lead by Larry. All said though, I didn't understand most of the scientific papers we read for section, and they seemed to be somewhat random and not always super relevant to the concepts we were learning in class.

I really enjoyed section with Larry. He was a wonderful TF: incredibly patient, understanding and intelligent.
