

# A Summer Research Program Will Benefit You

- ◇ Gain experience in your field of study through hands-on research with one-on-one faculty engagement;
- ◇ Increase your confidence in relating scholarship in and out of your main field of study;
- ◇ Improve your chances at getting into graduate school or employment in your chosen field;
- ◇ Make valuable and long-lasting connections by practicing teamwork, leadership, and communication skills;
- ◇ Create a well-rounded resume and be a part of a scholarly publication or report;
- ◇ Present scholarly material that you generated!

## RESS Program of Events:

### Ice Cream Social (June 5th)

Meet fellow students and faculty researchers from around the University. Practice your elevator speech and learn what types of research, scholarship, and creative works your friends are doing over the summer.

### Presenter Pizza Series (June 22nd, July 13th and July 27th)

Informal gatherings where select student participants will present their research-in-progress. Session will start off with a quick 15-30 minute presentation and then break into delightful discussion (with food!). The variety of subjects and participants will stimulate your thoughts on your field and expose you to new ones, providing exciting opportunities for interdisciplinary exchange.

### Professional Development Events (June 27th and July 18th)

There will be opportunities to grow professionally so that you can stand out in future endeavors such as applying to graduate school or your dream job. Learn what steps you can take now and practice throughout the summer to enhance your academic collaborations. A well polished resume is critical to getting that interview.

- **Resumes for Jobs and Graduate School Info**-bring your resume for professional comments and suggestions or learn about graduate schools and possible next steps;
- **Essentials of Presentations and Posters**-learn to organize and present your research with hands-on guidance.

### RESS Cookout (August 3rd)

Don't forget to have fun!! Come out to the Oak Grove and relax with fellow students and faculty. Lunch will be provided! Hike, swim, or just hang out and play games with fellow students and faculty.

### Keynote Speaker and Poster Session (August 9th)

This catered event is where you will present your summer research project and discuss all aspects of your summer adventure with fellow students. Build your academic credentials when you share the strides you made in research and listen to what other types of exciting research has been done this sum-
