

Ali M. Hamed

hameda@union.edu | 518-388-6341 | [Google Scholar](#) | [Research Gate](#) | [Website](#)

Assistant Professor 2017 – Present
John D. MacArthur Assistant Professor 2020 – 2021
Department of Mechanical Engineering
Union College
Schenectady, NY 12308

EDUCATION

University of Illinois, Urbana, IL

Ph.D., Mechanical Engineering August 2017
M.Sc., Mechanical Engineering May 2015

Washington and Lee University, Lexington, VA

B.S., Physics-Engineering May 2013
B.A., Economics May 2013
Summa cum laude

RESEARCH INTERESTS

Wall-bounded turbulence, environmental flows, renewable energy and wind farm flow dynamics, flow control and drag reduction, roughness-induced transition to turbulence, convective heat transfer, flow measurement techniques.

TEACHING

Union College

Fluid Mechanics 1 (undergraduate), Heat Transfer Analysis and Design (undergraduate), Thermodynamics 1 (undergraduate).

University of Illinois (Teaching Assistant)

Experimental Fluid Mechanics (graduate), Statics (undergraduate).

ACADEMIC AND PROFESSIONAL ACTIVITIES

Reviewer

Journal of Fluid Mechanics, Journal of Geophysical Research – Earth Surface, Physics of Fluids, Energies, Nonlinear Dynamics, Journal of Energy Engineering, Fluids, Water, Remote Sensing, Applied Sciences, Entropy, Journal of Solar Energy Engineering

Session Chair

American Physical Society – Division of Fluid Dynamics, *Wind Turbine Interaction*, November, 2017.

Proposal Review Panelist

National Science Foundation

AWARDS AND HONORS

John D. MacArthur Assistant Professorship (Union College) 2020 – 2021
Departmental Distinguished Graduate Student Award (University of Illinois) 2017
Distinguished Student Seminar Award (American Physical Society - APS) 2016

List of Teachers Ranked as Excellent by Their Students (University of Illinois)	2014, 2015, 2016
Departmental Pre-doctoral Fellowship (University of Illinois)	2013
Williams Research Award (Washington and Lee University)	2013
Phi Beta Kappa (Washington and Lee University)	2012
Elizabeth B. Garrett Scholarship (Washington and Lee University)	2012
The Henry Ruffner Scholarship (Washington and Lee University)	2012

INTERNAL AND EXTERNAL GRANTS

External

- National Science Foundation, “MRI: Acquisition of a high-speed volumetric particle image velocimetry system for fluid mechanics research and research training in science, mathematics, and engineering,” 9/2019 – 8/2022, **\$384,725**, A. M. Hamed (PI) with Co-PIs: A. M. Anderson, B. A. Bruno, S. K. Rice, and J. Wang.

Internal

- Faculty Research Fund, “Canopy turbulent flow perturbation due to local heterogeneities,” Spring 2021, **\$3,000**.
- Faculty Research Fund, “3D flow measurements of vortical structures downstream of a wall-mounted cylindrical roughness element,” Spring 2020, **\$3,000**.
- Faculty Research Fund, “Effects of roughness geometry on transition to turbulence,” Winter 2019, **\$3,000**.
- Internal Education Foundation, “Improvements to fluid mechanics and heat transfer labs,” Winter 2019, **\$2,875**.
- Faculty Research Fund, “Experimental study of roughness-induced transition to turbulence,” Fall 2017, **\$3,000**.
- Internal Education Foundation, “Improvements to flow measurements labs in fluid mechanics courses,” Fall 2017, **\$1,928**.

DEPARTMENT AND COLLEGE SERVICE

Department

- Search committee member for two visiting assistant professor positions with R. Cortez (chair) and R. Wilk, Spring and Summer 2021.
- Search committee member for two visiting assistant professor positions with A. M. Anderson (chair) and R. Wilk, Fall 2018.

College

- Templeton Institute Planning Committee, representative from the Department of Mechanical Engineering, 2021. The institute is enabled by a \$51 million gift to strengthen existing programs in engineering and computer science, establish new programs, and promote integration of engineering and computer science with the liberal arts.
- Faculty Review Board, junior faculty representative from Center Two (Sciences, Mathematics, Engineering, and Computer Science), academic year 2019/2020.
- Organizing Theme Committee with D. Zuckerman (chair), B. Cohen, S. Lullo, and R. Samet, Fall 2018 – present.

INVITED TALKS

- Distinguished Student Seminar, American Physical Society (APS), March Meeting, 2017.
- Illinois Scholar Undergraduate Research Program, College of Engineering, University of Illinois, Urbana, IL, February 2017.
- Department of Mechanical Engineering, Union College, Schenectady, NY, February 2017.
- Department of Engineering, Harvey Mudd College, Claremont, CA, February 2017.
- Department of Mechanical and Aerospace Engineering, University of Central Florida, Orlando, FL, January 2017.

SELECTED CONFERENCE PRESENTATIONS

- A. M. Hamed and A. M. Peterlein*, "Turbulent boundary layer perturbation by two wall-mounted cylinders arranged in tandem at various spacings and height ratios," *American Physical Society – Division of Fluid Dynamics*, Seattle, WA (November, 2019).
- A. M. Hamed, A. M. Peterlein*, and L. V. Randle*, "On the perturbation of a turbulent boundary layer by two wall-mounted roughness elements: Impact of spacing and height ratio," *4th Thermal and Fluids Engineering Conference*, Las Vegas, NV (April, 2019).
- H. B. Evans, A. M. Hamed, S. Gorumlu, A. Doosttab, B. Aksak, L. P. Chamorro, and L. Castillo, "Engineered bio-inspired coating for reduction of flow separation," *American Physical Society – Division of Fluid Dynamics*, Denver, CO (November, 2017).
- S. Dharmarathne, H. B. Evans, A. M. Hamed, B. Aksak, L. P. Chamorro, M. Tutkun, and L. Castillo, "Large-scale motions in a separated turbulent boundary layer," *American Physical Society – Division of Fluid Dynamics*, Denver, CO (November, 2017).
