

analogous colors

MATERIALS:

- 8 Pieces of 18x14 inch plexi glasses
- 4 Pieces of 16x12 inch watercolor 140 lb paper (hotpressed)
- 16 Transparent screws
- Guache
- .1mm Micron Pens

Possible Title: LOOK,SEE.

The layout of this project helps the viewer see the details in the watercolor where it might not be obvious and at the same time gives them the opportunity to find it for themselves where there isn't any pointed out. The colors on each of the four pieces of the installation, are closely related and blend very easily making it seem like there is not a lot of detail making the point of the installation stronger when the detail is shown in specific fragments.
