

# RIVER VIEW HIGH SCHOOL

## AN ALTERNATIVE HIGH SCHOOL

River View is an alternative high school for students whose social, emotional and learning needs require a unique approach within a traditional school setting. Students benefit from River View's individualized, strength-based approach which emphasizes technology and the arts.

Multidisciplinary curricular pathways align with New York State Common Core standards and include options leading to an Individualized Education Program Diploma/Skills and Achievement Commencement Credential, Regents Diploma and Advanced Regents Diploma.

## VOCATIONAL EDUCATION

Vocational opportunities, including job training and internships, are available to all River View students. An on-campus, work-based learning center fosters the development of life and job-readiness skills. Students may also earn industry-specific certifications along with their high school diplomas through a partnership with Rockland BOCES' Career and Technical Education Center.

## CLINICAL SUPPORTS AND COLLABORATION

River View provides intensive clinical supports to help students succeed both in and out of the classroom. Clinicians work closely with students and their families and connect them with community service partners that offer access to resources and quality support systems. Key partners include the Family Resource Center, Adult Career and Continuing Education Services-Vocational Rehabilitation (ACCES-VR) and several mental health associations.

## TRANSITIONING FOR SUCCESS

River View provides students and families with transition planning and guidance on topics that include SAT testing, college searches, financial assistance, scholarship applications, FAFSA, post-secondary and vocational programs, community employment, ACCES-VR and community resources for adults.
