

August 2019

**Greetings,**

Welcome to 3<sup>rd</sup> grade and a new school year. As a returning member of SIS's team of educators, I look forward to working with your child. In 3A we foster a natural curiosity of learning and a desire for success within our classroom community by encouraging critical thinking & kindness.

I earned my undergraduate degree in Elementary Education at the University of Arizona. Then, I recently obtained a Master of Science while living and teaching in Quito, Ecuador. This is my 13<sup>th</sup> year as an educator and my 3<sup>rd</sup> year teaching here in Shenzhen. I'm delighted to be living in Shekou with Alli, my wife, who works at bayside as a Visual Arts Teacher.

We have a passion for travel which allows us to build new perspectives, explore, and connect with people around the world. My passions include education, nutrition, reading, photography, strength training, running and bicycling.

As natural educators and learners we all have the capacity to add value to the world around us. Through our team of educators and classroom community I am confident we can help our students embrace their own curiosity, innovate, and add value wherever they find themselves across the globe.

Warm regards,

Charles Denson
