Where: Dialogue in the Dark - Kowloon, Hong Kong

Why: To support our unit of inquiry on “Communities support each other in times of need” and to develop global citizenship through empathy and understanding for people with disabilities.

What: The experience is designed and given by a visually impaired mentor and a physically disabled instructor. Trained instructors will take our students through the exhibit and simulation. They hope to cultivate students' empathy through interactive games and sharing sessions to understand the lives and capabilities of the disabled. SIS teachers will further the learning with connections to our unit of inquiries and extension activities.
