

# Georgia Tech SHIP: Where We Are Now...

## Week 1

- Extended the timeline to finalize plans to present to Chancellor
- USG and GT discussing SHIP version that includes dental/vision within USG SHIP; impacts of inclusion on costs are being determined with UHCSR
- GT began exploring options to increase Institute's investment to compensate the costs of this increase

## Week 2

- Confirmation of USG pursuing and negotiating a plan that includes dental and vision
- This is a short-term fix while they move to a long-term, more sustainable, financial model for dental and vision services
- Ensure the move to the USG SHIP does not remove Georgia Tech from previously negotiated services and coverage with UHCSR

## Week 3

- Plan negotiations are ongoing and focus on dental and vision coverage
- Institute continues to internally pursue increased subsidy support.
