

Summer Internship in Nuclear Science and Security

The Lawrence Livermore National Laboratory (LLNL) Glenn T. Seaborg Institute (GTSI) summer internship programs have offered graduate students the opportunity to engage in practical research experience to further their educational goals for over 20 years. The 2020 Seaborg Institute Nuclear Science and Security Summer Internship Program will give graduate students (and senior undergraduates) an opportunity to come to LLNL for 8 weeks, carry out research under the supervision of a staff scientist, attend a weekly lecture series, interact with other students, present their work in poster format at the end of the program, and meet Federal Sponsors from the Department of Defense's Defense Threat Reduction Agency (DTRA). The goal of this year's program is to facilitate the training of next generation scientists to solve critical national problems in the fields of nuclear science and security.

Details regarding the mission and research supported by GTSI and mentors supporting the internship program can be found at <https://seaborg.llnl.gov>. This Internship Program is supported by DTRA which enables the Department of Defense and the U.S. Government to prepare for and combat weapons of mass destruction and improvised threats and to ensure nuclear deterrence. More information about DTRA and its mission can be found at www.dtra.mil

Dates & Location: June 15 - August 7, 2020. LLNL is located in Livermore, CA - 40 miles east of San Francisco.

Requirements: The successful applicant must be a U.S. citizen and currently enrolled in a M.S. or Ph.D. graduate program, or entering a program in the Fall of 2020. Applicants are required to submit a CV/resume and a 250 word statement of research interests. Application materials should be submitted via the link below. Students considered for the summer internship will need to provide 1 letter of recommendation, as well as their graduate/undergraduate transcripts upon request.

Financial support: LLNL offers a generous salary depending on year in school and reimbursement for travel to and from LLNL.

Application Information: Job ID: 106490 (graduate) 106522 (senior undergraduate)
