

Tenure on Appointment Due Dates 2022-2023
College of Engineering Due Dates

As soon as you are aware of a possible tenure on appointment faculty candidate, please notify Kim Kurtis and Terri Lee via email. This is for planning and workload management.

If you have a faculty candidate for tenure on appointment that does not currently have tenure, please contact Kim Kurtis for discussion. These cases must be approved by the chancellor and will require additional time for review and evaluation.
