List any health problems coach needs to be aware of _____

I understand that there are risks of serious injury inherent in participation in high school sports, and I have discussed this with the student athlete, and we are both aware of the risk of injury. I understand that the school district will take every reasonable precaution to avoid the incidence of accidents, and is therefore not responsible for accidents that occur as part of athletic participation.

Extracurricular Code

Alcohol drinking, use of tobacco, the misuse of drugs, acts of violence, and other illegal behavior has no place in high school activities. The use of these substances and these behaviors may be harmful and illegal. Students who represent MTHS should refrain from being involved in any of the above actions.

A student shall be considered in violation of this code if he/she admits to violating the code, is reported by a schools staff member, their parent or guardian, or law enforcement official, or a court fine or conviction. A refusal to submit to a drug or alcohol test will be considered an admission of guilt. This applies on or off school grounds, in or out of season.

These rules apply when student graduates from grade school until student graduates from high school. The following penalties will apply for all athletic and non-athletic extra-curricular activities:

1st offense = Any student reported for use of alcohol, tobacco, controlled substance (steroids are a controlled substance), or who commits a significant act of violence, or who commits an illegal act shall be suspended from participation in all extra-curricular activities for one-fourth of each current season's activities. In the event the offense occurred at the end of a season, the total penalty or penalties would take effect at the start of the next season.

2nd offense = suspension from participation in all extra-curricular activities for one calendar year after all previous penalties have been served.

3rd offense = an additional one calendar year suspension to be served after all previous penalties have been served.

We hereby certify that the above student athlete is covered by the said insurance. We also have read the extracurricular code and we fully understand and support any penalties which may be enacted.
