Calculus/Math Field Day

(now also offering grade 9 and 10 level Algebra/Geometry math challenge options!)

Thursday, April 22, 2021

1:00p.m. – 4:00p.m.

Virtually Hosted by Northeastern University

Zoom Link to follow registration

Raffles, Reception, and Award Ceremony at 3:15 p.m.

Over 100 students from across Boston Public Schools come to Northeastern University one day a year to compete in teams of three, in challenging and stimulating tests in Precalculus, regular Calculus and AP Calculus. This year we will have a "Math Challenge" section open to grades 9 and 10. Initiated in April 2009, Calculus Field Day is the major annual outreach event sponsored by the Mathematics Department at Northeastern in partnership with BPS Math Department. Typically roughly 100 students from about 14 high schools participate. Calculus Field Day advertises the math department's signature summer enrichment program "Bridge to Calculus" and attracts students who enjoy learning, especially those interested in careers in STEM. This year we host Calculus Field Day virtually, but the excitement is real! Please save the date and get those math skills honed!
