

Outlook Mac ³⁶⁵ Setup on the iPhone

Download or Update the Microsoft Outlook for the iPhone

Go to the **App store** on your iPhone, and in the search menu type **Outlook**. Download the **Microsoft Outlook app**. If you have the **Outlook app** already installed on your **iPhone**, you can click on the **update button**.

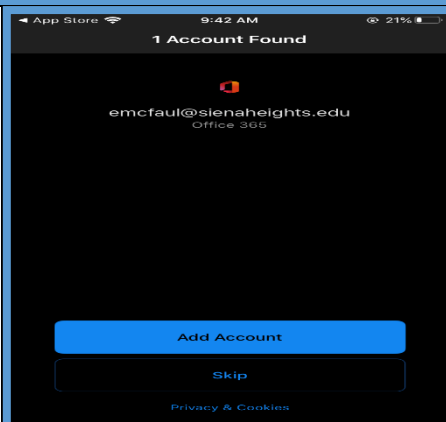

Set up your e-mail account on Microsoft Outlook

Click on the **Blue Add Account** button. If your account is setup already, tap on the skip, and finish setting up your account. Type: yourusername@sienaheights.edu Next, tap on the **blue continue button**.

Under the Enter password; type you're **my Siena password**.

Proceed to tap on the **blue sign-in the button**.

The new Outlook app has a similar interface with the **Focus/other** tabs, which matches your Outlook application app on the **Windows** or **Mac** computer
