Review the **Summative Assessment Rubric** to see how your responses will be graded.

You have **60 minutes** to complete this Encounter Documentation Quiz.

Question 1

3 pts

1. Patient summary. Summarize the patient's history and physical assessment (if appropriate).

Pretend you are calling a member of this patient's healthcare team for a consultation and you have to convey the most important information in a short amount of time.

Word limit: 30 words

0 words **Question 2****6 pts**

2. Three main concerns. List three main "concerns" you identified during the telesimulation.

Focus on the main concerns and questions that the standardized patient had for you during the telesimulation.

An example of a concern could be persistent breast mass or appropriate feeding volumes for 1 month old baby.

Please note, some concerns may not be urgent issues requiring intervention or follow up.

Word limit: 5 per concern
