

ANNOUNCING ATMCH'S & THE MCH NAVIGATOR'S NEWEST ONLINE DEVELOPMENT OPPORTUNITY!

“Achieving Real Engagement in the Virtual Classroom”

What do you do before, during & after your live session to achieve real engagement in the virtual classroom? How is virtual facilitation different from face-to-face facilitation? When setting yourself up to have virtual presence, setting the tone for active participation, planning engagement opportunities & building community, what tools are available & how do you use them?

Karin Rex, MA, COTP (Certified Online Professional Facilitator) is both a professional facilitator specializing in virtual classroom delivery as well as an instructional designer/developer focusing on elearning & virtual classroom designs.

For organizations that want to take their face-to-face training into the virtual classroom (Adobe Connect, Zoom, WebEx, GoTo Training, etc.) or have them redesigned as asynchronous e-learning (Captivate, Storyline, Rise, Lectora), Karin develops engaging, appealing, experiences that deliver learning transfer. Additionally, Karin teaches & coaches facilitators & instructional designers in best practices for teaching in & developing for the virtual classroom & e-learning. Karin works extensively with InSync Training, SAP & ATD (both as a designer & a facilitator) & is a certified synchronous facilitator, designer & producer, with a master's degree in professional writing & a deep knowledge of plain language writing for healthcare. She is also a Certified Scrum Master. Visit Karin's website at www.karinrex.com.
