

# Low Anterior Resection

#1. **Resection** (this is what we take out)

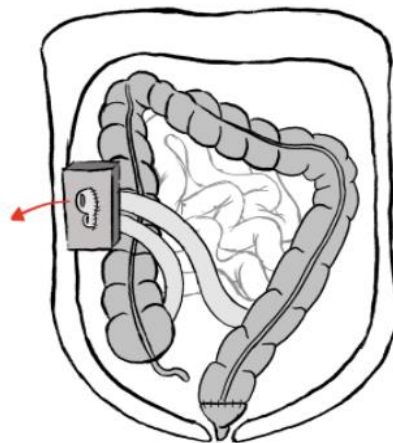

#2. **Reconstruction** (this is how we re-connect you)

## Plan A

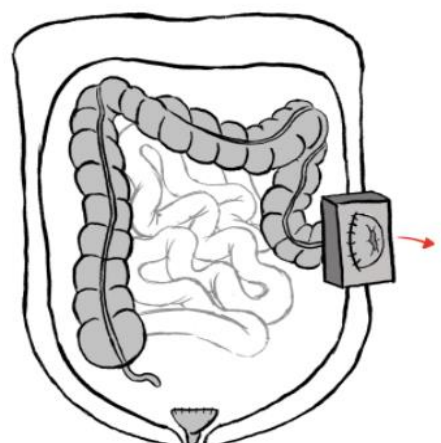

**Primary anastomosis**  
We put you together.

## Plan B

**Primary + proximal diversion**  
We put you together but  
protect the connection with  
an ileostomy.

## Plan C

**No anastomosis**  
We do not put you together  
and make a colostomy.
