Traffic Management Center  
Smyrna, Delaware  
November 3, 2009

University of Delaware students were given a behind the scenes tour of DeIDOT's Traffic Management Center, led by Gene Donaldson, TMC Operations Manager. With Gene's in-depth briefing, the students recognized that much more goes on at the TMC than meets the eye. Both DeIDOT and the University of Delaware believe these types of student visits are an essential element in the transition from academia to engineering practice.

For more information on the TMC and its diverse mission, go to DeIDOT's website and look at their Deltrac brochure at <http://deldot.gov/information/projects/tmt/pdfs/DelTrac%20TMP%20Brochure%20050106.pdf>.
