January 31, 2019

Dear UBMS 2018 Participant and Parent:

As you know, we are working hard to prepare for the 2019 summer program, and we are looking forward to another excellent year of hard work and fun. This year’s summer will start on Monday, June 17 and will run 6 weeks in length, ending on Thursday, July 25. Please note, that if you attend, you are expected to commit to the entire six weeks; including closing ceremony on the last day.

We hope that you will again be able to join us this summer, and would appreciate your returning the enclosed statement of intent no later than March 1st. This will allow us to save a space for you in the program when making our selection of this summer’s new participants. You can fax the completed form to (302) 831-6684, email it to bek@udel.edu or mail it to the following address:

University of Delaware – UBMS
12 West Delaware Avenue
Newark, DE 19716

Also, if you know students you think would benefit from this summer’s program, be sure to encourage them to visit with their guidance counselors or to call our office. The Upward Bound Math/Science application can be completed directly online, or a hardcopy can be downloaded and printed from our webpage - http://sites.udel.edu/ubms/. Remember, if you participated last year or the year before, you do not need to reapply.

We look forward to hearing from you soon!

Sincerely,

Beth Pfaff
