Accessing a draft that wasn’t completed because time ran out.

**Step 1:** The student should go back to their “Home” tab. Then click on the Draft they want to continue working on. They do this by clicking on the underlined Date of the draft they want (See below). Notice how the “Status” of the prompt below is “Essay Incomplete.” This will be the status of any draft that is not yet completed and submitted to PEG for rating.
**Step 2:** After selecting the draft they want to keep working on, students will see the screen below. They should select “Continue.” Then, they’ll be able to add to their initial draft and be able to submit it for ratings when they are finished.
