

*Congratulations to our three 2018 DRI Summer Scholars!*

*These three students will be working with faculty members in their labs for ten intensive weeks to enhance their research experience here at UD!*

*A special thank you to the faculty that will be working with these students!*

*Elizabeth deBruin, a Medical Diagnostics under graduate student will be working with Dr. Michele Lobo, Assistant Professor in the Department of Physical Therapy.*

*Gabrielle Villermaux, a Neuroscience and Applied Nutrition under graduate student will be working with Dr. Curtis Johnson, Assistant Professor in the Biomedical Engineering.*

*Mark Ellsworth, a Biomedical Engineering under graduate student will be working with Dr. Christopher Price, Assistant Professor in Biomedical Engineering.*
