## What is a Victim Advocate?

A victim advocate is a person who is trained to support victims of crime. In addition to emotional support, advocates offer information and assistance in navigating the myriad of resources available, reporting options and systems. At UD, trained volunteer advocates serve on SOS' 24/7 helpline, and professional certified advocates at Student Wellness provide in-depth, ongoing services. Calls are confidential, and as anonymous as the caller wishes. The S.O.S. training program is an NACP-approved training program through the National Organization of Victim Assistance (NOVA). S.O.S. Advocates are a diverse group of undergraduate & graduate students, UD staff, and community members.
