

Elizabeth Griggs
Founder, Chairman, CEO
NextImage Medical, Inc.

Liz Griggs is Chairman, CEO and founder of NextImage Medical Inc. (NIM). In response to the waste and escalating costs that are common in the diagnostic imaging industry, she created this company that leverages cutting edge technology to offer the next generation of radiology services management.

Prior to establishing NIM, Liz was chairman, CEO and co-founder of One Call Medical, the largest radiology preferred provider organization (PPO) in the workers' compensation market. Before that, she worked in the Boston and New York City offices of the investment bank Donaldson, Lufkin & Jenerette (DLJ) where her clients included large physician management groups and healthcare investment funds. Prior to joining DLJ, she provided healthcare financing products for The Bank of Boston, including lending and recapitalization financing.

Liz received a BA in Human Resources from the University of Delaware and completed the Owner/President Management program at the Harvard Business School.
