

SPRING 2018 Supplemental Instruction (SI)

These group review sessions are conducted in several courses each semester at the request of specific programs or faculty. SI is a non-remedial comprehensive academic support program that provides assistance through regularly scheduled group study sessions. Each group is led by an experienced tutor who attends all class sessions, takes notes, and reviews readings. Students become actively involved with course content and develop strategies for mastering the material and preparing for exams.

NOTE: If an SI session is cancelled for a specific date or there is a change in the day or room, it will be posted on this page. Please check regularly.
