STREETSCAPING ELEMENTS

Help to “furnish” a street with functional and aesthetic items that provide amenities and utility to pedestrians.

**SIDEWALKS**
- foster pedestrian-friendly street systems where pedestrians can experience safety, comfort, accessibility, and efficient mobility.

**CURB EXTENSIONS**
- extend the sidewalk, provide an opportunity for social interaction, and offer a safe refuge for pedestrians crossing streets.

**LANDSCAPED BUFFERS**
- use trees and plantings to create a visual and noise buffer between pedestrians and vehicles.

**PLANTERS**
- add color, texture, and interest to a streetscape.

**SEATING**
- provides places to rest, wait for transit, and socialize with others.

**PUBLIC ART**
- enhances a sense of place, civic pride, and visual appeal to a public space.

**LIGHTING**
- increases a sense of pedestrian safety, security, and comfort.

**BIKE PARKING**
- can be both functional and serve as public art.
