Honors Tutorial

Open to Honors Degree candidates only. A tutorial allows a small number of students to work intensively with a faculty member on a set of selected readings. Typically, no examinations are given, but written work is required and students should expect to do significant independent study in preparation for group discussions. This course satisfies the Senior Capstone requirement for the Honors Degree if taken in one of the last two semesters before graduation. It also satisfies the Arts and Sciences Second Writing requirement. This course is open for HD candidates to enroll.

HONR 490-080 Honors Tutorial: Books that Blow Your Mind
Fox, Alan
This Honors Tutorial will run as a graduate-style seminar. That means no lectures. I will fill in the blanks in order to contextualize the more obscure works, but I am expecting that students will not just read the books superficially, but will actually engage them. I will expect a short, typed, written response essay each week concerning the reading. The grade for the tutorial will be based on the quality of your essays as well as the quality of your engagement and participation in the group discussion. Books we will read include the following, all of which involve radical shifts in perspective: Plato's Republic; Ishmael by Daniel Quinn; Flatland by Abbott; Sophie's World by Gaarder; Zen and the Art of Motorcycle Maintenance by Pirsig and others.
Departmental Courses

**Accounting (ACCT)**

**ACCT 207-080 Accounting I (Free-Standing)**
McDougal, Karen
This course is an introduction to financial accounting. Topics: the accounting cycle, merchandise accounting, accounting procedures for cash, receivables, payables, inventories, plant and equipment, stocks and bonds.

**ACCT 208-081 Accounting II (Add-On)**
Dragone, Debra
Introduction to managerial accounting. Topics: manufacturing accounting, cost-volume-profit analysis, job-order accounting, budgeting, standard costs and variance analysis, contribution approach to decision analysis, absorption and variable costing. Please contact the instructor for the specific Honors components and the grading rubric for the Honors work. **PREREQ: ACCT207. Requires a grade of C- or better in ACCT207. Meets with the regular section.**

**ACCT 302-080 Accounting Information Systems (Add-On)**
Accounting information and its place within an organization's overall management information system. Emphasis on information and document flow, internal control, data organization, and analysis, design, development, and audit of computer-based accounting systems. Includes some computer work. **PREREQ: ACCT208, Misy160 or CISC101. RESTRICTIONS: Requires sophomore status. Please contact the instructor for the specific Honors components and the grading rubric for the Honors work. Meets with the regular section.**

**ACCT 425-080 Strategic Information Systems and Accounting (Add-On)**
Fico, Joan
This course explores the role of accounting and information systems in accomplishing the strategic goals of the business entity. Students will be exposed to accounting information systems and the Web 2.0 environment, the XML (Extensible Markup Language) foundation and two XML vocabularies (UML and XBRL), enterprise-wide computing, Web Services, Sarbanes-Oxley internal control framework, and cases, projects, and readings related to strategic information systems in business. Honors students have additional assignments designed to deepen their understanding of strategic information systems in the accounting field. For one assignment, students will be connected with an accounting professional to interview about their challenges and recommendations for someone entering the accounting field. For another assignment, students will evaluate a recent empirical article from the professional accounting literature that highlights technology in their preferred area of accounting. **PREREQ: ACCT 302 & ACCT 316. RESTRICTIONS: ACCT majors only. This course satisfies the Senior Capstone requirement for the Honors Degree if taken in one of the last two semesters before graduation. Meets with the regular section.**
Animal and Food Science (ANFS)

ANFS 101-080 Animals, Science and Society (Add-On)
Gressley, Tanya / Griffiths, Lesa
This course involves an in-depth look each week at specific disciplines discussed in ANFS 101. Dairy animals are used as a model to focus on current management practices related to nutrition, genetics, health and behavior. Students will be assigned a hands-on project to monitor and evaluate growth and health of a calf. In addition, students will critically evaluate scientific papers and develop their own paper related to a current issue in animal science. Offered in Fall only. Open to incoming departmental Honors majors only. Meets with the regular ANFS 101 section and for a weekly honors-only discussion. Online and In Person.

ANFS 230-080 Foodborne Diseases: Investigating Outbreaks (Add-On)
Kniel, Kalmia
This course is a critical review of historical and contemporary foodborne and waterborne outbreaks of microbial origin. It will present current issues in light of developments related to food safety and public health. Emphasis on factors that influence the outcome of an outbreak, including: emerging pathogens, virulence factors, epidemiological techniques, rapid detection methods, and quantitative risk assessment. Gain a new outlook on foodborne illnesses through contemporary readings and analysis of current media coverage. Meets with the regular section and at an additional time that will be decided upon by the consensus of students and faculty.

ANFS 332-080 Introduction to Animal Diseases (Add-On)
Brannick, Erin Marie
Students will develop an appreciation for the nature and mechanisms of disease conditions and processes (pathobiology) in agricultural and domestic animal species through an understanding of basic disease pathogenesis, immunology, microbiology and virology. Through weekly pathology rounds, students will gain additional experience in gross and microscopic disease diagnosis with a veterinary pathologist. Grading is based upon completion and presentation of diagnostic case studies/reports based upon disease topics covered in class or rounds. PREREQ: ANFS 240. Lecture meets with the regular section, Honors section meets once weekly (virtual, synchronous) for pathology rounds. Online and In Person.

ANFS 418-080/080L Swine Production (Add-On)
Griffiths, Lesa
Principles of modern swine production: nutrition, reproduction, housing, health and management. Please contact the instructor for the specific Honors components and the grading rubric for the Honors work. PREREQ: ANFS101 and ANFS251. RESTRICTIONS: Laboratory requires some out-of-class time for hands-on experience in animal production. Meets with the regular section. This course satisfies the Senior Capstone requirement for the Honors Degree if taken in one of the last two semesters before graduation.

ANFS 421-080 Poultry Production (Add-On)
Li, Hong
This course involves the application of the fundamental principles of incubation, feeding, brooding, growing, disease control, processing and marketing as applied to broilers, heavy breeders and commercial egg producers. Please contact the instructor for the specific Honors
components and the grading rubric for the Honors work. PREREQ: ANFS 101 or permission of instructor. RESTRICTIONS: In order to obtain DLE credit, students must also successfully complete ANFS 422 (Poultry lab, 1 credit). Requires additional hands-on experience outside of class. Meets with the regular section. This course satisfies the Senior Capstone requirement for the Honors Degree if taken in one of the last two semesters before graduation.

**Anthropology (ANTH)**

**ANTH 104-080 Introduction to Archaeology and Biological Anthropology (Add-On)**

Rocek, Thomas

This course explores the fossil and archaeological record of human biological and cultural evolution with an emphasis on how archaeological and biological anthropological research is conducted, and how their treatment of data distinguish them as scientific disciplines. Honors students explore topics in greater depth beyond the regular section with regular meetings with the professor, additional readings, and a series of projects culminating with trying their hands at making stone tools. RESTRICTIONS: Neither ANTH major credit nor degree credit for ANTH 102 or ANTH 103 will be granted if ANTH 104 is taken. Meets with the regular section.

**Arabic (ARAB)**

**ARAB 200-080 Advanced Intermediate Arabic (Add-On)**

Masmoudi, Ikram

A continuation of ARAB107. Emphasis is on reading and viewing authentic materials from Arab media, in order to improve reading, writing and listening skills and to increase knowledge of Arab culture. Please contact the instructor for the specific Honors components and the grading rubric for the Honors work. PREREQ: ARAB107. Meets with the regular section.

**Art Conservation (ARTC)**

**ARTC 301-080 Care and Preservation of Cultural Property (Add-On)**

Owczarek, Nina

This course will serve as an introduction to the practice of conservation, specifically conservation history, ethics, examination and documentation. The class will provide students with a basic knowledge of conservation terminology, conservation literature and research resources, methods of conservation documentation, and prepare students for conservation internships. Typical deterioration characteristics and preventive conservation alternatives will be presented and discussed. Students enrolled in the Honors section will meet with the instructor for additional discussion and conservation projects oriented toward treatment or survey, with an additional writing assignment. Meets with the regular section.

**ARTC 495-080 Preservation Capstone (Add-On)**

Staff

This course will call upon students to summarize and synthesize the previous three years of a student's undergraduate career in Material Culture Preservation major. The faculty completes the undergraduate experience and prepares students for their next step (job market or graduate school). The course will include career advisement and assessment of learning using exams, the creation of portfolios, and oral presentations of internship or research experiences. The Honors section will include an applied project working with conservation outreach, treatment, or survey project. This will require a final report and an oral presentation to the class
or to ARTC 101. This course satisfies the Senior Capstone requirement for the Honors Degree if taken in one of the last two semesters before graduation. Meets with the regular section.

**Art History (ARTH)**

**ARTH 153-080/080D Introduction to Art History: Pyramids to Cathedrals (Add-On)**  
Dominguez Torres, Monica  
This course is a survey of art and architecture from the ancient world through the year 1400 studied in historical and cultural contexts. Topics include: Egyptian pyramids, ancient Greek and Roman monuments, and medieval manuscripts and cathedrals. Students in the Honors section will have assignments calling for more extended critical thinking, and honing of reading and writing skills. Twice-weekly lectures meet in person with the regular section; the Honors students meet separately for one hour weekly. *Meets with the regular section.*

**ARTH 201-080/HIST 203-080/MSST 203-080 Introduction to Museums (Add-On)**  
Van Horn, Jennifer  
Introduction to the history, operations and future of museums, historic sites, archives and related cultural organizations. Examines collecting and collection management, conservation of collections, exhibition development, public programs and museum education, and digital outreach. Museum careers and volunteer engagement are explored. Please contact the instructor for the specific Honors components and the grading rubric for the Honors work. *Cross-listed with HIST 203-080 and MSST 203-080. Meets with the regular section.*

**ARTH 227-080 Modern Art: The 19th Century (Add-On)**  
Werth, Mary  
Developments in the visual arts from the 1780s to ca.1900 in Europe, from the industrial and political revolutions of the late 18th century to the dramatic social and cultural shifts at the end of the 19th century. While we will consider the visual arts in the context of visual culture more generally—architecture and urban planning, world’s fairs, emerging mass media, and photography—our focus will be primarily on the fine arts. This period encompassed important shifts in Western conceptions of nature, history, and society; in the definition and function of the work of art; in the training, social function, identity, and image of the artist; in the relative importance of tradition and innovation; and in practices of evaluating, collecting, marketing, and exhibiting art. Traditional techniques and procedures of art making were transformed as were standards of reference and resemblance. Artists explored forms of classicism, romanticism, exoticism, realism, naturalism, symbolism, and primitivism. Important issues to be considered include the intersection of art and politics; exhibitions and world’s fairs; art criticism and caricature; the emergence of modernism and avant-gardism; and dynamics of urbanization, suburbanization, colonialism and racism, revolution and armed conflict, gender and sexuality, and new media and technologies. Artists to be studied include David, Ingres, Goya, Gericault, Delacroix, Blake, Constable, Turner, Friedrich, Corot, Millet, Courbet, Daumier, Menzel, Manet, Monet, Pissarro, Cézanne, Morisot, Cassatt, Seurat, Van Gogh, Gauguin, and Toulouse-Lautrec. Please contact the instructor for the specific Honors components and the grading rubric for the Honors work. *Meets with the regular section. Online course.*
ARTH 318-080 Photography and Evidence (Add-On)
Hill, Jason
Case studies in the history and theory of photography as a form of documentary proof and/or evidence in a wide variety of fields, including journalism, the sciences, the justice system, and foreign and domestic policy. We will consider the technical and cultural bases of photography's association with certainty and truthfulness and the many challenges, past and present, posed to the medium's evidentiary authority. Please contact the instructor for the specific Honors components and the grading rubric for the Honors work. Meets with the regular section.

ARTH 380-080 Art and Environmental Justice (Add-On)
Horton, Jessica
Addresses the relationship between diverse human cultures and damaged environments in the arts, from the colonization of Native American lands to the global climate justice movement. Please contact the instructor for the specific Honors components and the grading rubric for the Honors work. Meets with the regular section.

ARTH 421-080 Seminar in Nineteenth Century Art: Drawn and Printed: Art on Paper (Add-On)
Werth, Mary
History and theory of art 1789-1900. Recent topics include Modern Art and Literature, Modern Portraiture, Comic Modern. RESTRICTIONS: May be repeated for a total of 12 credits when topics vary. Please contact the instructor for the specific Honors components and the grading rubric for the Honors work. Meets with the graduate level section.

ARTH 435-080 Seminar in American Art: Scale in Vast Early America (Add-On)
Van Horn, Jennifer
American art from the Colonies to the present. Recent topics include Art and Revolution in Early America; Early American Modernism, and American Painting and Sculpture after World War II. Please contact the instructor for the specific Honors components and the grading rubric for the Honors work. Meets with the graduate level section.

ARTH 435-081 Seminar in American Art: Art and Destruction (Add-On)
Bellion, Wendy
Why do people destroy art? How does destruction alter places & generate new art? How is it represented in visual media? Seminar explores critical issues and practices of political and religious iconoclasm, negation, reuse, relocation, and material agency from the early modern era to the present. Honors students will have opportunities for special sessions to discuss advanced readings and to study works of art in University Museum collections and other area institutions. Meets with the regular section.

Behavioral Health and Nutrition (BHAN)
BHAN 311-080 Issues in Health Behavior Science (Add-On)
Goodwin, Stephen
Issues surrounding health behavior science, with emphasis on role of professional in promoting individual and community behavior change. Please contact the instructor for the specific Honors
components and the grading rubric for the Honors work. COREQ: BHAN 155; Sports Health majors can take BHAN155 or KAAP155 as coreq. Meets with the regular section.

**BHAN 334-081 Health Behavior Assessment** *(Add-On)*
Skubisz, Christine
Skill development using qualitative and quantitative assessments in health behavior. Methods include focus groups, interviews, questionnaire development, and quantitative assessment of local, state and national level health data bases. Please contact the instructor for the specific Honors components and the grading rubric for the Honors work. **PREREQ:** BHAN326 and BHAN332. Meets with the regular section.

**BHAN 490-081 Development of Health Promotion Programs** *(Add-On)*
Lodyga, Marc
Guided by models of program planning, this course develops the knowledge and skills necessary to plan, implement, and evaluate health promotion programs in the community setting. Please contact the instructor for the specific Honors components and the grading rubric for the Honors work. **PREREQ:** BHAN 334 recommended, can also take it concurrently with BHAN 490. **RESTRICTIONS:** Open to HLBH majors. Meets with the regular section. This course satisfies the Senior Capstone requirement for the Honors Degree if taken in one of the last two semesters before graduation.

**Biology (BISC)**

**BISC 207-080/080L/081L Introductory Biology I Lab** *(Free-Standing)*
Alenka Hlousek-Radojcic/Kasprzak, Megan
The course is based on student centered active learning pedagogies that enable students to explore basic structure and function of cells, mechanisms of cell division, genetics, molecular biology and metabolism. Laboratory work is grounded in the principles of experimental design and provides opportunities for experimentation, data analysis and presentation using both written and oral formats. Guided and open inquiry lab activities enable tight collaborative work between practical and theoretical spheres of the course. **COREQ:** CHEM 104 or CHEM 111. **RESTRICTIONS:** Students who received credit in BISC 205 are not eligible to take this course without permission. Some seats available for upper class students. Upper class students can check on seat availability on August 1st by emailing honors@udel.edu.

**BISC 207-084/084L, 085/085L, 086/086L, & 087/087L Introductory Biology I and Lab** *(Free-Standing)*
Hlousek-Radojcic, Alenka
The course is based on student centered active learning pedagogies that enable students to explore basic structure and function of cells, mechanisms of cell division, genetics, molecular biology and metabolism. Laboratory work is grounded in the principles of experimental design and provides opportunities for experimentation, data analysis and presentation using both written and oral formats. Guided and open inquiry lab activities enable tight collaborative work between practical and theoretical spheres of the course. **The course is offered to incoming first-year students only. Students who received credit in BISC 205 are not eligible to take this course without permission. These sections of honors BISC 207 are integrated with honors CHEM 103/133.**
Students must enroll in the same section number for BISC 207, CHEM 103 and CHEM 133. Upper class students can check on seat availability on August 1st by emailing honors@udel.edu.

Biomedical Engineering (BMEG)
BMEG 310-080 Bioengineering Mechanics (Add-On)
Rooney, Sarah
This course is an introduction to statics and mechanics of solids with applications to biomedical problems. Honors students will explore how engineering standards can be used to develop mechanical tests. PREREQ: PHYS 207 & MATH 243. Meets with the regular section.

BMEG 330-080 Biomedical Instrumentation (Add-On)
Singh, Abhyudai
Introduction to the basics of assembling and using instrumentation for the purposes of recording electrophysiological signals. Mechanical, chemical, electrical and biological principles for biomedical measurements. Instrumentation for measuring bioelectrical signals, temperature, blood pressure, and body chemistry are covered. PREREQ: BMEG 230 or ELEG 305, and MATH 305 and PHYS 208. Meets with the regular section.

BMEG 341-080 Biomedical Experiment Design & Analysis (Add-On)
Karand, Julie
Biomedical engineering undergraduate students are introduced to the fundamental principles and techniques involved in the design, execution, and interpretation of biomedical research experiments. In addition to introducing students to analytical techniques used for biomedical data and training them how to properly communicate experimental results, students will have an understanding of their professional and ethical responsibilities as biomedical engineers. Please contact the instructor for the specific Honors components and the grading rubric for the Honors work. RESTRICTIONS: Open to BME students; ENGG students may take it with the instructor's permission. Meets with the regular section.

Business Administration (BUAD)
BUAD 110-080 Basics of Business (Free-Standing)
Bayuk, Julia
This course is an introduction to business for majors. The primary goals of the course are to inform students about functional areas of business and programs offered in Lerner through lectures, readings, discussions, guest speakers, hands-on activities, and projects. The course will cover topics important to college students (e.g., teamwork, time management, ethical decision making), will include the core business disciplines and majors (e.g., operations, marketing, finance, management, accounting, management information systems, hospitality), and will provide an introduction to the resources available at the University of Delaware (e.g., student organization, advising, Career Services). Only open to honors first-year students.

BUAD 110-081 Basics of Business (Free-Standing)
Moffa, Louis
This course is an introduction to business for majors. The primary goals of the course are to inform students about functional areas of business and programs offered in Lerner through lectures, readings, discussions, guest speakers, hands-on activities, and projects. The course will
cover topics important to college students (e.g., teamwork, time management, ethical decision making), will include the core business disciplines and majors (e.g., operations, marketing, finance, management, accounting, management information systems, hospitality), and will provide an introduction to the resources available at the University of Delaware (e.g., student organization, advising, Career Services). Open to honors first-year students.

**BUAD 301-080 Introduction to Marketing** *(Free-Standing)*
Herzenstein, Michal
This course provides students with a foundation in Marketing. Students will actively learn how to collect and analyze data to inform our understanding of what customers value, how to provide this value to them, and then how to capture value from customers. Seats reserved for BUAD majors. Requires sophomore status.

**BUAD 306-080 Introduction to Service and Operations Management** *(Free-Standing)*
Murphy, Susan
All businesses need the basic functions of Finance, Marketing, Management, and Operations Management to operate effectively. Topics include scheduling, forecasting, process design, inventory management and quality management. **PREREQ: MATH 201 or STAT 200.**
**RESTRICTIONS: Requires Junior status. Seats reserved for BUAD majors.**

**BUAD 441-080 Strategic Management** *(Free-Standing)*
Staff
Strategic management is a course about the decisions top managers make that determine the future directions of the organization. Topics include identifying and evaluating a firm's strategy, analysis of a firm's competitive position within its industry, and understanding how firms create and sustain a competitive advantage. We also will study corporate diversification, merger and acquisition strategies, and strategies for competing globally. The goal of the course is to provide students with the concepts and analytical tools needed to better evaluate the strategic moves top managers make to improve their firm's competitive performance. Honors students will engage in in-depth class discussions of business cases, complete projects involving a high level of teamwork, and develop and deliver professional presentations in a case competition. **PREREQ: BUAD 301, BUAD 306, BUAD 309, & FINC 311. This course satisfies the Senior Capstone requirement for the Honors Degree if taken in one of the last two semesters before graduation.**
**RESTRICTIONS: Open to Senior HD candidates only. Requires Senior standing in business administration, finance or accounting. NOTE: This course will be offered as an Honors course in the Fall semester only.**

**Cognitive Science (CGSC)**
**CGSC 330-080 Philosophy of Mind** *(Add-On)*
Pust, Joel
This course is a thorough survey of analytic philosophy of mind, a branch of analytic metaphysics. The first part of the course will focus on various theories of the essential nature of the mind and its relationship to the body and brain, e.g., dualism, behaviorism, the identity theory, and functionalism. After our initial survey of these theories, we will address in more detail the nature of conscious experience and some contemporary defenses of property and substance dualism. It is not an introductory philosophy course and most of the readings are
difficult. Students in the Honors section will be required to meet separately, do additional readings, to turn in drafts of their papers, and to present their papers to that section. Cross-listed with PHIL 330-080. Meets with the regular section.

CGSC 451-080 Topics in Cognitive Science: Social Cognition (Add-On)
Andreasen, Robin
Some studies suggest that infants, within the first few days of life, mimic the facial gestures of others. Gaze following and joint attention (shared focus on an object or activity) are also important skills that children develop in the first year. These seemingly simple behaviors play an important role in a person's ability to interact and communicate socially. Also important are more complex cognitive tasks such as facial recognition, emotion identification (in self and other), empathy, and prosocial behavior(s). This course will focus on the cognitive and neural aspects of these and other features of social cognition. We will also learn about disorders, such as autism spectrum disorder, William's syndrome, prosopagnosia, and alexithymia. PREREQ: CGSC170. This course satisfies the Senior Capstone requirement for the Honors Degree if taken in one of the last two semesters before graduation. Meets with the regular section. CGSC 451 may be repeated for credit when topics vary.

CGSC 451-081 Topics in Cognitive Science: Neural and Cognitive Development (Add-On)
Wittmeyer, Jennifer
Current topics in cognitive science. PREREQ: CGSC170. CGSC 451 may be repeated for credit when topics vary.

CGSC 496-080 Psycholinguistics (Add-On)
Nelson, Peter
An introduction to psycholinguistics, the study of the psychological processing of linguistic information at the levels of speech sounds, words, memory, sentences and meaning. In addition to regular coursework for this class, honors students will design their own hypothetical research project which will involve writing an introduction and methods section of a grant proposal. PREREQ: LING 101 and 202. Meets with the regular section.

Chemical & Biomolecular Engineering (CHEG)
CHEG 231-080/081 Chemical Engineering Thermodynamics (Add-On)
Jiao, Feng
This course covers the following topics: the first law energy balance; the entropy balance; thermodynamic constitutive equations for gasses and liquids; thermodynamic cycles and energy conversion; and stability. It also examines Kinetic Theory and Partition functions. Students enrolled in the Honors sections of Chemical Engineering Thermodynamics will attend an additional one-hour lecture each week. The Honors section will discuss course topics in greater depth and introduce students to the molecular theory of thermodynamics, including the statistical thermodynamics of the ideal gas, liquids and solids. Advanced modeling with the ASPEN software package will be introduced. PREREQ: A minimum grade of C- in CHEG 112 or, for environmental engineering majors, in CIEG 233. COREQ: MATH 243. Meets with the regular section.
**Chemistry and Biochemistry (CHEM)**

**CHEM 103-080/080D/081D General Chemistry (Free-Standing)**

Compton, Shara

This is the first semester in the 2-semester general chemistry sequence. Topics include matter, the changes that matter undergoes, and the laws governing these changes, with greater emphasis on atomic and molecular structure, chemical bonding, and energy relationships. Properties of gasses, liquids, solids and solutions. Includes 42 hours of laboratory work. NOTE: Must enroll in a traditional section of CHEM 133. Open to incoming first-year Honors students only. PREREQ: One year of high school chemistry. COREQ: MATH 114 or MATH 115 or MATH 117 and CHEM 133. Upper class students can check on seat availability on August 1st by emailing honors@udel.edu.

**CHEM 103-084, 085, 086, 087 and CHEM 133-084L, 085L, 086L, 087L General Chemistry and Lab (Free-Standing)**

Fajardo, Jacqueline

This is the first semester in the 2-semester general chemistry sequence. Topics include matter, the changes that matter undergoes, and the laws governing these changes, with greater emphasis on atomic and molecular structure, chemical bonding, and energy relationships. Properties of gasses, liquids, solids and solutions. Includes 42 hours of laboratory work. Open to incoming first-year Honors students only. PREREQ: One year of high school chemistry. COREQ: MATH 114 or MATH 115 or MATH 117 and CHEM 133. These sections of honors CHEM 103/133 are integrated with honors BISC 207. Students must enroll in the same section number for both CHEM and BISC. Upper class students can check on seat availability on August 1st by emailing honors@udel.edu.

**CHEM 111-080/080D/081D/082D General Chemistry (Free-Standing)**

Staff

CHEM 111 Honors is the first half of a yearlong, in-depth exploration of fundamental principles underlying modern chemistry and biochemistry for biochemistry, chemistry, chemical engineering and environmental engineering majors. CHEM 111 Honors focuses on the molecular-level characteristics and behavior of matter. Topics addressed include atomic theory; stoichiometry; the physical atom and mass spectrometry; structures, behavior and reactions of ionic compounds; electronic structure and periodicity; structures and bonding models of covalent compounds; metallic bonding and band theory, and the behavior of gasses. Examples and applications are drawn from a variety of disciplines and situations to illustrate the power of "thinking molecularly" in modern science. The course format incorporates problem-based learning and other active learning strategies in addition to lectures and group discussions. The Honors section presupposes that students have mastered the equivalent of a strong high school chemistry course, and moves at a pace appropriate for that background. Compared to the regular section, CHEM 111 Honors explores the topics above in greater depth and with broader extensions. Class assignments and exams emphasize analysis and application of ideas in addition to core knowledge. PREREQ: Minimum of one year of high school chemistry; two years strongly recommended. COREQ: CHEM 115 (for CHEM, BIOCHEM and CHEM ED majors) and MATH 117 or higher MATH course. All seats held for incoming honors first-year students. For biochemistry, chemistry, and chemical engineering majors.
CHEM 115-080/081L Introduction to Chemical Science (Free-Standing)
Booksh, Karl / Cruz, Federico
This laboratory-based course focuses on introductory chemical measurement methodology. There will be individual, pair, and group experiments with required written reports. Topics include: Basic data analysis methods; Acid/base equilibria; Solubility equilibria; Spectroscopy; Conductivity. COREQ: CHEM 111. RESTRICTIONS: For first-year BS majors in Chemistry and Biochemistry. Fall semesters only.

Chinese (CHIN)
CHIN 200-080 Chinese Grammar and Composition (Add-On)
Yang, Haihong
This course aims at a further development of all four language skills which the students have acquired from the 100-level CHIN courses. In particular, the course emphasizes a further study of advanced Chinese grammar and basic essay writing. In this course students will not only learn authentic Chinese in terms of idiomatic usages, familiar sayings, and sophisticated grammar structure, but get to know Chinese society and culture as well. By the end of this course, students should have commanded around 250 new words and/or phrases in order to engage in a linguistically and culturally sophisticated communication in Chinese. Honors students will read one more essay and give an oral presentation on that essay. PREREQ: CHIN 107 or instructor's permission. Meets with the regular section.

CHIN 204-080/081/082 The Art of Chinese Calligraphy (Add-On)
Cai, Jie
This class is an introduction to the rich art of Chinese calligraphy that has a long history of over 2,000 years. Students will explore the evolution of Chinese characters, the aesthetics of Chinese calligraphy, various kinds of intriguing ink and brush writing. They will also learn how to use brush pen and some basics of Chinese painting and be able to paint simple objects. Please contact the instructor for the specific Honors components and the grading rubric for the Honors work. Meets with the regular section.

CHIN 355-080 Special Topics (Add-On)
Yang, Haihong
This course explores an area of special interest in Chinese literature or culture studies. Please contact the instructor for the specific Honors components and the grading rubric for the Honors work. PREREQ: Two CHIN courses at the 200-level, one of which must be CHIN 200 or instructor's permission. May be repeated one time for credit. Meets with the regular section.

CHIN 405-080 Translation Between Chinese and English: Theories & Practice (Add-On)
Chen, Jianguo
This class aims to serve two purposes: to enhance students' overall language skills through translation and interpretation practice and to acquaint them with translation theories to enrich their self-reflection upon and awareness of the cultural implications of translation practice. Students will have hands-on experiences with the translation of authentic materials in genres varying from short stories, movie clips, journal articles, conference presentations to interviews. Along with translation practice, students will have a chance to read research articles introducing theories addressing many issues in translation studies. Please contact the instructor
for the specific Honors components and the grading rubric for the Honors work. PREREQ: Two courses at the CHIN300-level. Meets with the regular section.

Civil and Environmental Engineering (CIEG)

CIEG 211-080 Statics (Add-On)
Jayne, Allen
This course involves an analysis of force systems and equilibrium of rigid bodies in two and three dimensions, a determination of centers of gravity and of centroids, and an analysis of statistically determinate trusses, simple frames and “machines.” The Honors section will involve additional 50-minute meetings with the course instructor to investigate real world applications of the concepts being covered in class. Students will solve problems in teams, and will research relevant problems individually and present the results to each other. RESTRICTIONS: Open to CIEG majors and minors. Meets with the regular section.

CIEG 222-080/080L Introduction to Surveying (Add-On)
Balascio, Carmine
Emphasizes concepts and methods of plane surveying for construction applications. Provides field experience with modern surveying instruments. Topics include: distance measurement, leveling, angle measurement, error analysis, coordinate systems, mapping, traversing, and calculation of land areas and earth volumes. Please contact the instructor for the specific Honors components and the grading rubric for the Honors work. RESTRICTIONS: Requires knowledge of trigonometry. Meets with the regular section.

CIEG 301-080/082D Structural Analysis and Design (Add-On)
Jayne, Allen
This course discusses design procedures and criteria, moment, shear, and axial force diagrams of statically determinate structures like beams, frames, and arches. It also includes a discussion of displacement, stress, and stability analyses of statically determinate and indeterminate structures, using differential equations. There is a discussion of energy methods and an introduction to matrix methods. Honors students will have several extended homework assignments as well as one extra assignment in the form of a small project or a paper review. PREREQ: CIEG 212. RESTRICTIONS: Open to CIEG majors and minors only. Meets with the regular section.

CIEG 305-080 Fluid Mechanics (Add-On)
Voter, Carolyn
Incompressible fluid mechanics: fluid statics, control volume analysis of fluid flows, differential analysis of inviscid and viscous fluid flows and dimensional analysis. Honors students have additional assignments designed to expand their knowledge of fluid mechanics principles. Additional efforts include discussion with the professor and writing assignments and presentations on topics from fluid mechanics in the news or where/how fluid mechanics are prevalent in our daily lives. PREREQ: MATH302 or MATH351. RESTRICTIONS: Open to CIEG majors and only. Meets with the regular section.
CIEG 402-080 Introduction to Sustainability Principles of Civil Engineering (Add-On)
Staff
Introduction to the principles of sustainability in the context of civil engineering design and construction. Presentation of life cycle assessment techniques, including software applications; discussion of “green” building materials; evaluation of specific materials for use in “green” construction; and consideration of various sustainable construction assessment tools, including LEED, Green Globes, and similar standards. Please contact the instructor for the specific Honors components and the grading rubric for the Honors work. Meets with the regular section.

CIEG 461-080/080D/081D/082D/083D Senior Design Project (Add-On)
Jayne, Allen
This course will include work with off-campus faculty from engineering firms on a multi-discipline, team-based design project requiring knowledge and skills acquired in previous courses, producing a proposal for engineering services and the preliminary engineering for the project. Honors students perform a critical review, as a group, of selected course content, and they orally present a summary of the same to the course coordinator at the end of each semester. PREREQ: CIEG 302, CIEG 321, CIEG 331, & CIEG 351 or COREQ: CIEG 337, CIEG 438, & CIEG 440. This course satisfies the Senior Capstone Requirement for the Honors Degree if taken in one of the last two semesters before graduation and if both semesters (4 cr.) are taken for Honors credit. Meets with the regular section. RESTRICTIONS: Open to Senior CIEG majors only. Meets with the regular section.

Computer and Information Science (CISC)
CISC 106-080/080L, 081/081L & 082/082L General Computer Science for Engineers (Free-Standing)
Wassail, Katherine
This course involves the principles of computer science illustrated and applied through programming in a general-purpose language. Programming projects illustrate computational problems, styles, and issues that arise in engineering. COREQ: MATH 241 or any higher level MATH course. RESTRICTIONS: Students may not receive credit for both CISC 106 & CISC 108. All seats held for incoming honors first-year students. Upper class students can check on seat availability on August 1st by emailing honors@udel.edu.

CISC 108-080/080L/081L Introduction to Computer Science I (Free-Standing)
Harvey, Terrence
Computing and principles of programming with an emphasis on systematic program design. Topics include functional programming, data abstraction, procedural abstraction, use of control and state, recursion, testing, and object-oriented programming concepts. Requires no prior programming experience, open to any major, but intended primarily for majors and minors in computer science or mathematics. COREQ: MATH 115 or MATH 117 or any higher-level math course or math placement level. All seats held for incoming honors first-year students. Students may not receive credit for both CISC 106 & CISC 108.
CISC 220-080/080L Data Structures (Free-Standing)
Shen, Chien-Chug
This course is an introduction to data structures and algorithm designs. It covers the major data structures of arrays, stacks, queues, linked lists, trees, heaps, hash tables, and graphs. It also covers recursion, sorting, and searching, with an emphasis on algorithm analysis (asymptotic complexity and big O notation) to highlight the crucial choices to be made regarding the best use of space, time, and programming effort. All code examples and programming projects will be in C++ with an emphasis on object-oriented programming and abstract data types. PREREQ: A minimum grade of C- in CISC 210. COREQ: MATH 210 or MATH 241.

CISC 498-080/080L Computer Science Senior Design I (Add-On)
Keffer, Jeremy
First semester of two-semester senior software design course. Students work in teams to develop solutions to real-world problems for a client. Application of a modern software engineering process; requirement solicitation, analysis, and specification; prototyping; design; incremental development; testing and verification; client interaction; and presentation. PREREQ: CISC 275 and CISC 320. Offered in Fall only. Meets with the regular section.

Communication (COMM)
COMM 212-080 Public Speaking & Professional Presentation (Free-Standing)
Oittinen, Erin
Includes an analysis of the types and principles of the communication inherent in the business and professional setting; a concentration upon the development of presentational skills: analyzing audiences, questioning, interviewing, researching, supporting, organizing and delivering information; an opportunity to develop and present materials within dyads, small groups and public contexts. RESTRICTIONS: Students who have received credit in COM350 are not eligible to take this course without permission.

COMM 256-080 Philosophy of Communication (Add-On)
Mortenson, Steven
This class is an introduction to theories and research in communication including a survey of the areas of the field. Please contact the instructor for the specific Honors components and grading rubric for the Honors work. Some seats held for incoming honors first-year students. Meets with the regular section.

COMM 309-080 Intro to Public Relations (Add-On)
Smith, Tara Lynn
Examination of the public relations process, practices and principles in various settings, including corporations, non-profit organizations, educational institutions and government. Insights are gained through case studies and interviews with public relations professionals. Students in the honors section will analyze topics from the weekly assigned textbook readings and respond to short answer essay prompts. Honors students will also complete a case study assignment and participate in an asynchronous group discussion to evaluate the case study. Meets with the regular section.
COMM 341-080 Theories of Interpersonal Communication (Add-On)
Crowley, John
This course involves an in-depth study of the concepts and theories relevant to interpersonal communication with a focus on dyadic interaction and relationships as created, maintained, and modified through verbal and nonverbal behavior. Along with the responsibilities of students enrolled in COMM 341-010, each student enrolled in the Honors component will generate a theory relevant to a topic area of her or his interest. RESTRICTIONS: Open to majors only—not open to COMI freshmen or sophomores. Meets with the regular section.

COMM 370-080 Theories of Media Communication (Add-On)
Ellithorpe, Morgan
This course is “an examination of the foundations and development of theories of mass communication.” Students enrolled in the Honors section will explore mass communication theories illustrated in current events that are covered in the popular press, and in research of published scholars. Throughout the semester, students will be responsible for identifying and presenting news stories to the class that illustrate or relate to theories covered in the course. Students meet with the regular section of COMM370 and have a separate, biweekly Honors discussion. RESTRICTIONS: Open to Junior and Senior majors only. Meets with the regular section.

COMM 442-080/PSYC 443-080 Topics in Organizational Communication (Add-On)
Holden, Tracey
Focuses on significant areas of theory and research in organizational communication. Topics may include gender, communication, or interpersonal relations in organizations, such as superior/subordinate relationships. Please contact the instructor for the specific Honors components and grading rubric for the Honors work. Cross-listed with PSYC 433 and WOMS 442. Open to Junior and Senior Majors only. Meets with the regular section.

COMM 452-080 Communication and Persuasion (Add-On)
Holden, Tracey
An examination of how influence is created and resisted through communication in various settings, including personal relationships, public relations, advertising and political campaigns. Emphasis on contemporary theories of persuasion and attitude change, with applications to the various content areas studied. Please contact the instructor for the specific Honors components and the grading rubric for the Honors work. Meets with the regular section.

Computer Engineering (CPEG)

CPEG 498-080/ELEG 498-010 Senior Design I (Add-On)
Cotton, Charles / Martin, Richard
Students apply their accumulated classroom knowledge to an electrical and computer engineering design problem. Students work in small teams and must present their finished designs at the end of the term. Please contact the instructor for the specific Honors components and grading rubric for the Honors work. Meets with the regular section.
Criminal Justice (CRJU)
CRJU 350-080 Gender and Criminal Justice (Add-On)
Miller, Susan
Most of our knowledge about crime and the criminal justice process is informed by male experiences. This course shifts the focus to examine the ways our legal and social systems affect and influence women's lives. Not only will we examine the various formal and informal controls that restrict women, but we will also examine how these issues intersect one's race, class, sexual orientation, and gender positions in our society. Special criminal justice field experiences (police, courts, women's prison) will be part of the Honors component. Cross-listed with WOMS 350-080. Meets with the regular section.

Economics (ECON)
ECON 101-080/081 Introduction to Microeconomics: Prices and Markets (Free-Standing)
Bayley, Elizabeth
This course introduces supply and demand concepts with basic economic graphs and equations. It examines models of perfect and imperfect competition and the determination of product price and quantities. This course covers current microeconomic issues such as the effect of government regulations and international trade. It develops a critical understanding of basic economic models. Most seats reserved for incoming first-year Honors students. COREQ: One of the following: MATH 114, MATH 115, MATH 117 or students must achieve placement into MATH 221 or MATH 241 on math placement exam.

ECON 101-082 Introduction to Microeconomics: Prices and Markets (Free-Standing)
Mahajan, Parag
This course introduces supply and demand concepts with basic economic graphs and equations. It examines models of perfect and imperfect competition and the determination of product price and quantities. This course covers current microeconomic issues such as the effect of government regulations and international trade. It develops a critical understanding of basic economic models. Most seats reserved for incoming first-year Honors students. COREQ: One of the following: MATH 114, MATH 115, MATH 117 or students must achieve placement into MATH 221 or MATH 241 on math placement exam.

ECON 301-080 Quantitative Microeconomic Theory (Free-Standing)
Toohey, Desmond
ECON 301 more fully develops and extends microeconomic concepts introduced in Economics 101. The course develops models of consumer and firm behavior that serve as a foundation for further study in the fields of economics and business. The course begins by developing theoretical models of consumer choice and demand, and of firm production and costs. These models are then combined to analyze the impact of competition on market outcomes and to illustrate how microeconomic theory can be used to predict and explain how markets operate. The analysis is conducted using calculus, algebra, and graphical models. The Honors section incorporates more advanced problems than those required in non-honors sections. These problems challenge students to 1) apply tools developed in class to economic problems and settings that are not specifically addressed during class discussion 2) build on models developed in class to conduct more in-depth analysis, and 3) think about how additional mathematical concepts (not specifically covered in class but presented in the prerequisite
mathematics courses) would be useful in conducting economic analysis. Six problem sets are assigned during the semester. The Honors course also includes a policy paper utilizing microeconomic theory to analyze a current policy question. PREREQ: C- or better in ECON 101 and one of the following: MATH 221, MATH 222, MATH 232, MATH 241, MATH 242 or MATH 243. RESTRICTIONS: Students who received credit in ECON 251, ECON 255 or ECON 300 are not eligible to take this course without permission. Open to ECON majors & minors & MAEC majors only. BS majors must take ECON 301. Students who plan to earn an Honors Degree in Economics (BA or BS) must take ECON 301 Honors.

ECON 308-080 Banking and Monetary Policy (Free-Standing) Bridges, Thomas
This course covers the following topics: the nature and economic significance of money, credit and the banking system; the origin and management of the money supply; and the effects of monetary changes on price levels, output, and employment. PREREQ: ECON 103 and one of ECON 251, ECON 255, ECON 300 or ECON 301; or permission of instructor. Must earn C- or better in ECON 103 and one of the following: ECON 251, ECON 255, ECON 300 or ECON 301.

ECON 435-080 Contemporary Macroeconomic Policy (Add-On) Seidman, Laurence
The course analyzes the following economic policy topics: (1) How to prevent and combat recession; (2) Policy to reduce global warming; (3) Will your generation have a higher standard of living than previous generations? To get honors credit, a student must also write a five-page term paper on one of the course topics and present the paper in a seminar to me and other students getting honors credit. PREREQ: ECON 303 or ECON 304. Meets with the regular section. This course satisfies the Senior Capstone requirement for the Honors Degree if taken in one of the last two semesters before graduation.

ECON 436-080 Seminar in Public Policy Economics (Add-On) Tobacman, Jeremy
Students will investigate current topics in public economics, such as health care, tax policy, retirement savings security, international trade policy, housing policy, and regulatory policy. Recent economics journal articles serve as the main source material for the course, and we will practice interpreting empirical evidence at the research frontier. Student presentations and discussion form the essence of class sessions. The honors project for this course will involve developing and optionally implementing a new research design. PREREQ: One of the following: ECON 251, ECON 255, ECON 300, or ECON 301 & ECON 303 or ECON 304. This course satisfies the Senior Capstone requirement for the Honors Degree if taken in one of the last two semesters prior to graduation. Meets with the regular section.

Education (EDUC)
EDUC 205-080 Human Development: Grades K-8 (Free-Standing) Lavigne, Nancy
This course explores theories of child and early adolescent development pertaining to education. Topics include biological, cognitive, linguistic, and social-emotional development and are taught through problem-based learning, large- and small-group discussion, case studies and lecture. Requires a service learning field placement in after-school sites. RESTRICTIONS:
Limited to ETE majors and the Disabilities Studies and Educational Studies minors. Notes: Students in any course with a field experience in which they are working with or observing children under the age of 18 (e.g., schools, community centers) must have a valid TB test, DE State and Federal criminal background clearance and child protection registry clearance. Criminal background clearance must be on file at the Office of Clinical Studies by the first day of the semester. If the criminal background clearance is not on file by the first day of the semester, students will be required to drop the course. TB test must be on file at Student Health Services prior to the first scheduled placement. Child protection registry clearance must be on file with the Office of Clinical Studies (OCS) prior to the first scheduled placement. See the web page at https://www.ocs.udel.edu for details on obtaining your clearances when registering for this course.

EDUC 210-080 Beginning Literacy Instruction (Add-On)
Pasquarella, Adrian
Introduces research-based perspectives on literacy acquisition during kindergarten and first-grade years and emphasizes the integration of basic literacy skills, reading, writing, oral language and literature during instruction. Takes a cognitive orientation and highlights the influence of vocabulary development, phonemic awareness, and establishment of the alphabetic principle on literacy learning. Includes field experience. RESTRICTIONS: Open to ETE and ECE majors. Notes: Students in any course with a field experience in which they are working with or observing children under the age of 18 (e.g., schools, community centers) must have a valid TB test, DE State and Federal criminal background clearance and child protection registry clearance. Criminal background clearance must be on file at the Office of Clinical Studies by the first day of the semester. If the criminal background clearance is not on file by the first day of the semester, students will be required to drop the course. TB test must be on file at Student Health Services prior to the first scheduled placement. Child protection registry clearance must be on file with the Office of Clinical Studies (OCS) prior to the first scheduled placement. See the web page at https://www.ocs.udel.edu for details on obtaining your clearances when registering for this course.

EDUC 310-081 Reading and Writing in Elementary Schools (Add-On)
Amendum, Steven
This course addresses the literacy development of students in elementary school. A primary focus is evidence-based instructional practices derived from empirical research. Classroom meetings are complemented by a weekly field experience and two, week-long experiences, which require students to teach a variety of lessons. Honors students have additional assignments designed to deepen their understanding of effective literacy instruction. For one assignment, students analyze a literacy lesson from their placement and meet with the professor to discuss their analysis. For another assignment, students choose whether to evaluate an article from the professional literature that connects with effective instructional practices or teach an additional lesson in their field placement. Open to ETE majors only. PREREQ: EDUC 210. Meets with the regular section.

EDUC 390-081 Classroom Management for Social and Emotional Learning (Add-On)
Lilly, Deirdre
This course focuses on creation of positive classroom learning environments by fostering children's social and emotional development, infusing behavior supports in academic instruction, enhancing motivation for learning, and establishing well-organized and respectful classrooms. An emphasis is placed on learning core concepts and practical research-based strategies. Field
experience included. Please contact the instructor for the specific Honors components and grading rubric for the Honors work. RESTRICTIONS: Open to ETE majors only. Contact academic advisor for permission. Meets with the regular section.

EDUC 432-081 Curriculum and Instruction for Exceptional Learners (Add-On)
Ritchey, Kristen
Prepares special education teachers to understand and analyze the instructional needs of exceptional learners. Focuses on designing and implementing evidence-based interventions to support students’ access to general education curriculum. Includes development of Individual Education Plans and collaboration with parents and professionals. Field placement required. PREREQ: EDUC230, EDUC310. COREQ: EDUC400. Notes: Students in any course with a field experience in which they are working with or observing children under the age of 18 (e.g., schools, community centers) must have a valid TB test, DE State and Federal criminal background clearance and child protection registry clearance. Criminal background clearance must be on file at the Office of Clinical Studies by the first day of the semester. If the criminal background clearance is not on file by the first day of the semester, students will be required to drop the course. TB test must be on file at Student Health Services prior to the first scheduled placement. Child protection registry clearance must be on file with the Office of Clinical Studies (OCS) prior to the first scheduled placement. See the web page at https://www.ocs.udel.edu for details on obtaining your clearances when registering for this course. This course has a field placement on Tuesday/Thursday from 8:00am-5:00pm.

EDUC 451-080 Educational Assessment for Classroom Teachers (Add-On)
Archbald, Douglas
This course explores principles and methods for construction and evaluation of student learning assessments, including knowledge, understanding and skills. Methods are presented to enhance teacher inquiry into student learning while considering the strengths and limitations of each method in regard to informing teachers’ judgements. Discusses implications of assessment policy. Honors students will investigate and develop a presentation on a recent innovation in summative assessment, formative assessment, or progress monitoring. They will use research to examine the rationale for the practice, implementation issues, resource costs, and evidence on student outcomes. Open to ETE majors only. Meets with the regular section.

EDUC 451-081 Educational Assessment for Classroom Teachers (Add-On)
Kotch-Jester, Stephanie
This course explores principles and methods for construction and evaluation of student learning assessments, including knowledge, understanding and skills. Methods are presented to enhance teacher inquiry into student learning while considering the strengths and limitations of each method in regard to informing teachers’ judgements. Discusses implications of assessment policy. Honors students will investigate and develop a presentation on a recent innovation in summative assessment, formative assessment, or progress monitoring. They will use research to examine the rationale for the practice, implementation issues, resource costs, and evidence on student outcomes. Open to ETE majors only. Meets with the regular section.
EDUC 469-080 Research Internship Experience *(Free-Standing)*
Pasquarella, Adrian
The MELD lab engages in collaborative and cutting-edge research intended to improve the educational opportunities, experiences, and outcomes for students from diverse cultural and linguistic backgrounds. If you join our research lab, you will have the opportunity to learn about language and literacy development and instruction for monolingual and multilingual learners. You can gain hands-on research experience with eye-tracking, different types of assessments (cognitive, linguistic, psychological, educational), as well as research design and statistical analysis. Contact apasq@udel.edu to learn how to join the MELD lab.

**Electrical Engineering (ELEG)**

**ELEG 205-080/080D/080L Analog Circuits 1 *(Add-On)*
Mirotznik, Mark**
This course explores the following topics: laws of the electric circuit, analysis of DC and AC circuits, network equations, and network theorems. Please contact the instructor for the specific Honors components and grading rubric for the Honors work. **PREREQ: C- or better in MATH 242 & PHYS 207. Meets with the regular section.**

**ELEG 498-080 Senior Design I *(Add-On)*
Cotton, Charles / Martin, Richard**
In this course students apply their accumulated classroom knowledge to an electrical and computer engineering design problem. Students work in small teams and must present their finished designs at the end of the term. Please contact the instructor for the specific Honors components and grading rubric for the Honors work. **Meets with the regular section.**

**Energy and Environmental Policy (ENEP)**

**ENEP 250-080 Introduction to Energy & Environmental Policy *(Add-On)*
Taylor, Casey**
This course serves as an introduction to the topic of energy and environmental policy. Our use and development of energy resources is highly interconnected to issues of environmental concern—many of our most pressing environmental issues are related to our energy use, and vice versa. Throughout the semester, we will explore the political and social dynamics of our energy and environmental challenges through the lenses of public policy and collective action, tackling subjects such as energy politics, environmental sustainability, and environmental justice, both within the United States and internationally. This course takes an interactive, student-directed approach to learning—students should expect class participation and engagement to be a major focus. The Honors section of this course will take on a leadership role in helping the class plan, document, and assess their activities throughout the semester. **Meets with the regular section.**

**ENEP 364-080 Research Internship**
Byrne, John / Shah, Syed / Veron, Dana
Offers integration of educational study and practical experience in the workplace in a planned and supervised learning setting. Field work requires 150-200 hours in an organization in the field of energy and environmental policy. While students may research internship opportunities independently, students should consult with their faculty advisor about selecting an appropriate
ENEP 472-080 Senior Thesis
Byrne, John
Advanced senior research in the areas of energy and environmental policy under the direction and subject to approval of a program faculty advisor. Requires original research and application of energy and environmental theory and policy analysis on an energy and environmental problem. Students will be asked to reflect on what they have learned through this process. RESTRICTIONS: Open to Senior Majors only. Seniors must complete 6 credits for Graduation. This course satisfies the Senior Capstone requirement for the Honors Degree if taken in one of the last two semesters before graduation.

English (ENGL)
ENGL 217-080 Introduction to Film (Add-On)
Feng, Peter
This course focuses on different techniques of acting, mise-en-scene, cinematography, editing, sound and color to assess how films encourage audiences to respond in the ways they do. Please contact the instructor for the specific honors components and the grading rubric for the honors work. PREREQ: ENGL 110. Meets with the regular section.

ENGL 318-080 Studies in Film: Introduction to Television Studies (Add-On)
Feng, Peter
This course focuses on different techniques of acting, mise-en-scene, cinematography, editing, sound and color to assess how films encourage audiences to respond in the ways they do. This course might be subtitled, "How to Read Movies." We will analyze the ways movies work, learn the vocabulary used to describe movies, and develop critical skills to analyze them. Honors students will complete a portfolio of three short assignments on a movie selected in consultation with the instructor. PREREQ: ENGL 110. Meets with the regular section.

ENGL 365-080 Studies is Literary Genres, Types and Movements: Blue Humanities (Add-On)
Duckert, Lowell
How do the blue humanities complicate our terrestrial ways of knowing and being in the world: our talk of “fields,” feeling “grounded,” or being “moored”? This course investigates watery thinking and its various interdisciplinary currents – like critical race, media, and animal studies – across a wide range of time periods and literary genres, from early modern drama to the modern-day documentary. We will pay particular attention to the perspectives of Black, Indigenous, and queer authors and the horizons they imagine. Readings will explore the Arctic, Atlantic, and Pacific Oceans; city blueprints; fresh and salty streams; vapors, crystals, and waves; the passages of enslaved peoples and the sci-fi portals built around them; the hope of, and fight for, a sea-change in human political behavior. While weekly meetings will take place on a relatively dry campus, scheduled interdisciplinary discussions will highlight the wet sites that make up our not-so-solid state and its surrounding watershed. (Delaware, after all, happens to have the country’s lowest mean elevation.) Together, we will ask: what openings do the blue humanities offer to environmental studies, and why should we follow their flows?
What are their limitations – are they too focused on the “blue”? – and where else can they go? **PREREQ: ENGL 110. Meets with the regular section.**

**ENGL 372-080 Studies in Drama (Add-On)**
Wilson, Miranda

Special topics in an author or authors, a type or types of drama, a period or theme. Please contact the instructor for the specific Honors components and the grading rubric for the Honors work. **PREREQ: ENGL 110. Meets with the regular section.**

**ENGL 394-080 English Language: Rhetorical and Cultural Contexts (Add-On)**
Bieler, Deborah

Did you know that “Aks” is a legitimate pronunciation of “Ask”? Who says “soda,” who says “pop,” and why? Have you ever stopped to appreciate the beauty or grammatical rules of Black Language or Spanglish? And what meanings are produced when we interrupt each other, use “like,” or use vocal fry or uptalk? In this course, students investigate these and many other questions regarding the English language: how it evolves; how it affects and is affected by socio-cultural, economic, political, and historical factors; and how we can use this knowledge productively when interacting with others. Specifically, students gain an understanding and appreciation of language diversity across cultures, racial/ethnic groups, geographies, and social roles. Such understanding is essential for any aspiring professional; for example, teachers, writers, and editors need this awareness when working with people whose English is different from their own. Honors students in the course will read and discuss an additional book or a series of articles to be determined in partnership with the instructor and will learn to conduct a brief analysis of spoken discourse. **Meets with the regular section.**

**ENGL 395-080 Literacy and Technology (Add-On)**
Porcher, Kisha

This class introduces students to the relationships between literacy practices and technology. Requires students to gain proficiency in multimodal practices and to apply their skills to solving a literacy-based problem in their intended field. Honors students will do additional work to meet the requirements of the Honors section. They will meet with the professor and the other Honors students for approximately 30-45 minutes for four weeks. They will conduct research focused on literacy and technology (in an area of their interest) and write a response paper. Finally, they will use a technology tool to create a digital presentation that they will share with the entire 395 class. **PREREQ: ENGL 110. Meets with the regular section.**

**ENGL 480-080 Literary Studies Seminar (Add-On)**
Larkin, Edward

Intensive capstone seminar employs research presentations as the occasion for students to consolidate skills acquired in 100-, 200-, and 300-level coursework. Content varies by expertise of instructor. **PREREQ: ENGL 110 and six ENGL credits at the 300 level or higher or by instructor consent. ENGL 480-080 (the honors section) satisfies the Senior Capstone requirement for the Honors Degree if taken in one of the last two semesters prior to graduation. Meets with the regular section.**
ENGL 491-080 Methods in Teaching Secondary English (Add-On)
Flynn, Jill
This course prepares students to design instruction that integrates all the English Language Arts, including reading, writing, speaking, listening, and viewing. The students gain instructional experience via a 45-hour practicum in their assigned student teaching classroom. In addition to regular ENGL 491 coursework, Honors students complete and share a research-based project. They meet with the instructor and the other Honors students for approximately 45 minutes for four weeks, read at least two articles or book chapters, write a response to those sources, and conduct research that will culminate in an action plan and digital presentation to share with the entire class. PREREQ: ENGL 110. This course satisfies the Senior Capstone requirement for the Honors Degree if taken in one of the last two semesters before graduation. RESTRICTIONS: Enrollment limited to English Education seniors. Meets with the regular section.

Environmental Science (ENSC)
ENSC/ENVR 101-080 Introduction to Environment (Add-On)
Archer, Cristina / Jackson, Paul
This course offers a broad overview of the fields of environmental science and environmental studies. It is also an introduction to the spectrum of science and policy that is associated with environmental work. Students will explore specific issues, perspectives and approaches from these varied areas. The Honors section of ENSC 101 will meet with the regular section. In addition, Honors students will create a blog with short summaries of recent news articles related to environmental science, policy, and technological advancements, and we will meet once per week to discuss those blog entries. Honors students will be given flexibility on paper topics assigned in the regular section to enable them to further explore areas discussed in the Honors section if they choose. Open to honors incoming first-year students only. Meets with the regular section.

ENSC/ENVR 300-080 Earth Systems: Science and Policy (Add-On)
Ali, Saleem
An integrative framework necessary to understand the systems approach to environmental science and its intersection with environmental policy and management. Introduction to systems theory within environmental science and its relevance to environmental policy. Honors students will participate in a public forum event around environmental policy and write an essay about their observations and conversations at the event. RESTRICTIONS: Open to Environmental Science and Studies majors only. Meets with the regular section.

ENSC 450-080 Proseminar in the Environment (Add-On)
Staff
Discussion of the history and state of environmental science as through detailed exploration of a current environmental problem. Survey of research topics and methodologies in the current scientific literature related to the topic of interest. Please contact the instructor for the specific Honors components and the grading rubric for the Honors work. Cross-listed with ENVR 450. RESTRICTIONS: Open to meteorology, and environmental science and studies majors only, or requires permission of the instructor. Meets with the regular section. This course satisfies the Senior Capstone requirement for the Honors Degree if taken in one of the last two semesters before graduation.
Entomology & Wildlife Conservation (ENWC)

ENWC 201-081 Wildlife Conservation and Ecology (Add-On)

Jackson, Angela

Humans are only one of the many species in the global ecosystem; however, they have a great impact on the species around them. This course discusses the basic principles of wildlife ecology with focus on the ecological and sociological importance of wildlife and their habitats. We evaluate and discuss the importance of wildlife to our past, present and future with emphasis on wildlife conservation issues such as habitat loss, endangered species, pollution, urbanization and invasive species. Understanding the impact of these anthropogenic changes is critical to informed conservation efforts. In the Honors section students will develop a research project to evaluate wildlife response to human use, and develop management recommendations.

RESTRICTIONS: Should precede BISC 302. Meets with the regular section for lecture-separate Honors discussion times to be arranged. This section is open to honors Wildlife Ecology and Conservation majors only.

ENWC 201-082 Wildlife Conservation and Ecology (Add-On)

McCarthy, Kyle

Humans are only one of the many species in the global ecosystem; however, they have a great impact on the species around them. This course discusses the basic principles of wildlife ecology with focus on the ecological and sociological importance of wildlife and their habitats. We evaluate and discuss the importance of wildlife to our past, present and future with emphasis on wildlife conservation issues such as habitat loss, endangered species, pollution, urbanization and invasive species. Understanding the impact of these anthropogenic changes is critical to informed conservation efforts. In the Honors section students will develop a research project to evaluate wildlife response to human use, and develop management recommendations.

RESTRICTIONS: Should precede BISC 302. Meets with the regular section for lecture-separate Honors discussion times to be arranged.

ENWC 205-080 Insects and Society (Add-On)

Delaney, Deborah

This course explores the fascinating and often unusual lives of insects, focusing on their interactions with humans. Basic insect identification, structure, function, behavior, ecology, evolution, pest control and impact on human society, are the topics that will be covered with an emphasis on insects as model organisms for understanding basic ecological and evolutionary concepts. The Honors section has additional activities beyond the regular section’s lectures and grading. They will be exposed to primary literature that corresponds with the regular lecture material. As well, the Honors students will design and present an educational display and lecture to a local area school. The Honors section meets with the regular section, but has a separate Honors discussion which is focused on the additional primary literature assignments.

Meets with the regular section.
Fashion (FASH)
FASH 180-080/080L Apparel Product Development (Add-On)
Staff
This course is an introduction to apparel product development, apparel garment analysis, basic textiles, and sewing methods. Concepts include the product development calendar and the tech pack, sizing and fit, costing, and the overview of production and technology used in apparel product development. Please contact the instructor for the specific Honors components and the grading rubric for the Honors work. Meets with the regular section.

FASH 210-080 Seminar Fashion Sustainability (Add-On)
Cobb, Kelly
This course is an introduction to the emerging cannon of theory and practice regarding Sustainability as it relates to fashion. Centered on four components of Sustainability and Social Responsibility: Labor, Environment, Consumption and Body Image. Please contact the instructor for the specific Honors components and the grading rubric for the Honors work. Meets with the regular section.

FASH 213-080 Development of Contemporary Fashion: Cultural Expressions (Add-On)
Lopez-Gydosh, Dilia
This course examines the culture and clothing practices of various ethnic groups and their influences on Western apparel fashion and textile arts during the 20th Century. Please contact the instructor for the specific Honors components and grading rubric for the Honors work. Meets with the regular section.

FASH 218-080 Intro to Fashion Business (Add-On)
Ciotti, Karen
This course is an overview of the fashion business by examining the fundamental concepts and strategies related to merchandising and retailing of fashion and apparel products. Current practices and trends in the fashion industry are examined. Honors students have additional assignments designed to deepen their understanding of Fashion. For one lesson, students analyze fashion in business and meet with the professor to discuss their findings. For another assignment, students evaluate an article from the professional literature that connects with their instructional interests. Open to incoming honors first-year students only. Meets with the regular section.

FASH 220-080 Fundamentals of Textiles II (Add-On)
Gorea, Adriana
This course covers the fundamental concepts related to yarns, fabric, structures, coloration and finishes. Emphasis is placed upon structural properties as they related to end-use characteristics and finishing processes. We will discuss environmental problems related to textile production, dyeing and finishing. Please contact the professor for the specific Honors components and the grading rubric for the Honors work. PREREQ: FASH 215. RESTRICTIONS: Open to FASH & APD majors only. Meets with the regular section.
FASH 420-080 Assortment Plan, Source, and Buy (Add-On)
Shaffer, Brenda
This course is a continuation of FASH 330. A merchandise budget developed in FASH 330 is translated into an inventory unit plan. Course emphasis is on assortment planning, sourcing and purchasing, and computer applications are involved. Students will research the department vendors, price points, brand offerings, fashion trends and merchandising techniques. In addition, students will also evaluate retailer/vendor relations and negotiation components. The Honors section will include a deeper examination of one or more of the course components- usually accomplished through hands-on experience such as a Shadow Day, simulation, attendance at a conference or other unique experiences. PREREQ: FASH 330. Meets with the regular section.

FASH 484-080 Design Expressions (Add-On)
Roelse, Katya
This course is a discipline-centered course designed to integrate previous knowledge and skills developed across the apparel design curriculum, including course content in art and design concepts, social responsibility/sustainability, fashion forecasting, computer graphics and visual presentations, pattern design methods, apparel construction processes, an understanding of textile properties, target market analysis, etc. The focus of the course is original design research. Honors students apply a design problem solving process to complete a collection of thematically related garments for a given theme. Additionally, Honors students write a paper detailing their design problem solving process which is shared during an oral presentation to the class. PREREQ: FASH 220, FASH 324, & FASH 333. This course satisfies the Senior Capstone Requirement for the Honors Degree if taken in one of the last two semesters before graduation. RESTRICTIONS: Open to APD Seniors only. Meets with the regular section.

FASH 455-080 Global Apparel and Textile Trade and Sourcing (Add-On)
Staff
Global interdependencies that influence production, distribution, and consumer consumption. Study of the roles of government, industry, and consumers in the global economy with a focus on the apparel industry. Analyzes practices to improve sustainability in production of apparel. PREREQ: ECON 100, ECON 101 or ECON 103. Meets with the regular section.

FASH 484-080 Design Expressions (Add-On)
Roelse, Katya
This course is a discipline-centered course designed to integrate previous knowledge and skills developed across the apparel design curriculum, including course content in art and design concepts, social responsibility/sustainability, fashion forecasting, computer graphics and visual presentations, pattern design methods, apparel construction processes, an understanding of textile properties, target market analysis, etc. The focus of the course is original design research. Honors students apply a design problem solving process to complete a collection of thematically related garments for a given theme. Additionally, Honors students write a paper detailing their design problem solving process which is shared during an oral presentation to the class. PREREQ: FASH 220, FASH 324, & FASH 333. This course satisfies the Senior Capstone Requirement for the Honors Degree if taken in one of the last two semesters before graduation. RESTRICTIONS: Open to APD Seniors only. Meets with the regular section.
FASH 490-080 Strategic Fashion Management (Add-On)
Ciotti, Karen
This capstone course integrates product planning and development, distribution, marketing, sourcing, and sustainability. Students will work on case studies and industry projects that require analysis, synthesis and application of knowledge and skills within the global apparel industry. Honors students have additional assignments designed to deepen their understanding of Fashion. For one lesson, students will analyze fashion and technology. For another assignment, students evaluate industry trends in fashion pertaining to business. This course satisfies the Senior Capstone requirement for the Honors Degree if taken in one of the last two semesters before graduation. RESTRICTIONS: Open to Seniors only. Meets with the regular section.

Finance (FINC)

FINC 312-080 Intermediate Financial Management (Add-On)
Kaviana, Mahsa
This course focuses on the role of the corporate financial manager in shareholder wealth maximization and enhances the understanding of material covered in FINC 311 through the application of analytical methods, cases and the effective use of information technology in a contemporary financial environment. Please contact the instructor for the specific Honors components and grading rubric for the Honors work. PREREQ: Grade of C- or better in STAT 200 and MISY 262 or ECON 306 and FINC 311. Meets with the regular section.

FINC 413-080 Capstone: Advanced Corporate Finance (Add-On)
Stocker, John
This capstone seminar course studies three different intersections of topics in global corporate finance: the intersections of a) currency and interest rate risk management, b) capital raising and securities market trading, and c) strategy and international financial management. This course emphasizes reports, exercises, cases, discussions, presentations, and analysis of financial news. Please contact the instructor for the specific Honors components and grading rubric for the Honors work. PREREQ: FINC 311, FINC 312, & FINC 314. RESTRICTIONS: Open to Junior and Senior FINC majors and MISY majors with Finance concentrations only. Meets with the regular section. This course satisfies the Senior Capstone requirement for the Honors Degree if taken in one of the last two semesters before graduation.

FINC 416-080 Derivative Securities and Risk Management (Add-On)
Coughenour, Jay
This course introduces the pricing, trading and use of derivative securities (forwards, futures, swaps and options contracts), emphasizing the management of risk arising from the volatility of exchange rates, interest rates and commodity and equity prices. Please contact the instructor for the specific Honors components and grading rubric for the Honors work. PREREQ: FINC 314 and MATH 230. Meets with the regular section.
French (FREN)
FREN 200-080 Grammar and Composition (Add-On)
Alalou, Ali
This course includes intensive grammar review of all major verb tenses and grammatical
concepts (such as object pronouns). There is also an emphasis on grammar improvement
through reading and writing. The Honors section of French Grammar and Composition will meet
on several occasions (minimum 3 meetings) in the instructor’s office to discuss readings related
to the themes discussed in the course. The Honors section students complete extra exercises
and they will have the opportunity to practice some advanced structures by preparing one oral
presentation and completing additional writing assignments. PREREQ: FREN 107 or FREN 112. Meets
with the regular section.

FREN 209-080 French Conversation Through Film (Add-On)
Alalou, Ali
Development of oral proficiency in French through discussion and analysis of major French films.
Some written work and grammar review where appropriate. Please contact the instructor for
the specific Honors components and the grading rubric for the Honors work.
PREREQ: FREN 107 or FREN 200 with a minimum grade of C. RESTRICTIONS: Not intended for
native speakers of French. Students who received credit for FREN 4xx are not eligible to take this
course without permission. Meets with the regular section.

FREN 211-080 French Reading and Composition (Add-On)
Oancea, Ana
This course engages students in an exploration of authentic Francophone cultural materials in
order to develop their critical reading and writing skills. French films, poetry, short stories and
bande dessinée will help them gain a deeper understanding of the uses of description, plot
structure, character development, and historical context. Selected points of French grammar
will be reviewed in order to assist students in preparing their best work. Enrichment activities
for Honors students will involve supplementary readings and oral presentations, as well as
outside-of-class meetings with the professor. PREREQ: FREN 200 with a minimum grade of C or
FREN 107 with a minimum grade of A-. FREN 211 is required as a prerequisite for FREN 301, 302, or
303. Meets with the regular section.

FREN 301-080 Self and Society (Add-On)
Sankara, Edgard
This course involves a thematic and historical approach to French narrative from the
Renaissance to the present day, focusing on the conflict between individual behavior and
societal norms while fostering an understanding of French culture, history, and institutions.
Please contact the instructor for the specific Honors components and the grading rubric for the
Honors work. PREREQ: FREN 211 & any 200-level course taught in the French language. Meets with
the regular section.

FREN 305-080 French Conversation and Composition (Add-On)
Steinberger, Deborah
This is an advanced conversation and composition course, conducted entirely in French, which
focuses primarily on current issues in France and the Francophone world. Topics covered
include politics, social issues, science and technology, and the arts. You will practice French through oral reports, role play, and discussions, as well as through regular written assignments including movie reviews and your own blog. Grammar review will be tailored to the needs of the class. Honors students will be matched with conversation partners who are college students in France. Throughout the semester, they will conduct discussions with these partners on the topics we’ll be covering in the course. The written component of this intercultural exchange will consist of a summary of and reflection upon these conversations. PREREQ: FREN 211 and one other 200 level course taught in French. Not intended for native speakers of French. Meets with the regular section.

FREN 454-080 French Cinema (Add-On)
Oancea, Ana
Study of modern French cultural history through the films of such masters as Vigo, Gance, Pagnol, Renoir, Bresson, Resnais, Malle and others. Please contact the instructor for the specific Honors components and the grading rubric for the Honors work. PREREQ: Two 300-level French courses, including at least ONE of: FREN 301, 302, or 303. Meets with the regular section.

Geography (GEOG)
GEOG 203-080 Introduction to Cultural Geography (Add-On)
Jackson, Paul
Introductory study of people, landscapes and cultures through time. Emphasis is on culture, ethics and aesthetics as contexts for human perceptions and the creation of varied human habitats. Please contact the instructor for the specific Honors components and the grading rubric for the Honors work. Meets with the regular section.

GEOG 215-080 Understanding Climate Change (Add-On)
Staff
Understanding climate and climate change is important for everyone. Explores climate change and its impacts at local, regional, and global levels. Policy and decision making, as well as adaptation and mitigation will be discussed with a focus on current events. Please contact the instructor for the specific Honors components and the grading rubric for the Honors work. Meets with the regular section.

Geology (GEOL)
GEOL 105-080 Geological Hazards and Their Human Impact (Add-On)
Achang, Mercy
This course explores geological processes and events that adversely affect humans and civilization along with the methods for predicting and dealing with geological hazards. Please contact the instructor for the specific Honors components and the grading rubric for the Honors work. May be taken with a 1 credit lab to fulfill lab science requirement, any traditional GEOL 115 section. Meets with the regular section.
GEOL 105-081 Geological Hazards and Their Human Impact (Add-On)
Wallace, Adam
This course explores geological processes and events that adversely affect humans and civilization along with the methods for predicting and dealing with geological hazards. Please contact the instructor for the specific Honors components and the grading rubric for the Honors work. May be taken with a 1 credit lab to fulfill lab science requirement, GEOL 115 (not Honors). Meets with the regular section. Online course.

Greek (GREK)
GREK 201-080 Ancient Prose: Intermediate Greek (Add-On)
Sukava, Tyson
This course focuses on the works of one or more prose authors with particular attention to review of grammar and syntax. Readings will be drawn from the philosophical, historical, and oratorical works of authors such as Plato, Herodotus, Xenophon, Lysias, Demosthenes, and Isocrates in rotation or in combination. Please contact the instructor for the specific Honors components and the grading rubric for the Honors work. PREREQ: GREK 102 or equivalent. Meets with the regular section.

GREK 301-080 Ancient Prose: Advanced Intermediate Greek (Add-On)
Sukava, Tyson
This course focuses on the works (in the original language) of one or more prose authors with particular attention to interpretative issues such as themes and contemporary intellectual and cultural milieu. Readings are drawn from the philosophical, historical, and oratorical works of authors such as Plato, Herodotus, Xenophon, Lysias, Demosthenes, and Isocrates in rotation or in combination. Please contact the instructor for the specific Honors components and the grading rubric for the Honors work. PREREQ: GREK 202 or equivalent. May be repeated for credit four times. Meets with the regular section.

German (GRMN)
GRMN 205-080 German Conversation (Add-On)
Finney, Victoria
Practical use of German by means of oral reports and discussions. Emphasis on improvement of basic conversational skills. Grammar review and written work where appropriate. Please contact the instructor for the specific Honors components and the grading rubric for the Honors work. PREREQ: GRMN 107 or one 200 level German course. RESTRICTIONS: Not intended for students who have already taken a 300 or 400 level course in German. Meets with the regular section.

GRMN 211-080 German Reading and Writing (Add-On)
Finney, Victoria
This course focuses on the reading and discussion of 20th-century German short stories, novellas, and several short compositions. Grammar review where appropriate. Please contact the instructor for the specific Honors components and the grading rubric for the Honors work. PREREQ: GRMN 107. RESTRICTIONS: Not intended for students who have already taken a 300 or 400-level course in German. Meets with the regular section.
GRMN 355-080 Special Topics (Add-On)  
Finney, Victoria  
This course explores an area of special interest in German literature or culture studies. Please contact the instructor for the specific Honors components and the grading rubric for the Honors work. PREREQ: Any two 200-level German courses. RESTRICTIONS: May be repeated for credit three times when topics vary. Meets with the regular section.

GRMN 455-080 Selected Authors, Works and Themes (Add-On)  
Riehl, Ester  
This course will examine the works of one or more outstanding authors or a special theme. Students will be required to write several short assignments, three essays, and take a midterm and a final exam. Please contact the instructor for the specific Honors components and the grading rubric for the Honors work. PREREQ: Two 300-level German courses, one of which may be taken concurrently with the 400-level course. May be repeated for credit three times when topics vary. Meets with the regular section.

Human Development and Family Studies (HDFS)  
HDFS 201-080 Life Span Development (Add-On)  
Gordon, Melissa  
This course includes exploration and understanding of the social, emotional, cognitive, and physical development of the individual from infancy through old age in the context of the family. In addition to meeting all the requirements for the course, Honors students are also expected to work independently, as well as within small groups to complete an additional component of the course designed specifically for them. The small-group Honors discussion section meets regularly throughout the semester to engage in structured activities designed to bring practical focus and expansion to lifespan constructs. Most seats held for incoming honors first-year students. Meets with the regular section; separate Honors discussion.

HDFS 202-080 (online)/081 (in person) Diversity and Families (Add-On)  
Sherif-Trask, Bahira  
This course examines American families from a variety of historical, methodological, and theoretical perspectives. In particular, this course focuses on the demographic and social changes that American families have undergone, as well as the causes and consequences of these changes. Furthermore, this course emphasizes differences between families based on gender, race, ethnicity, and socio-economic status. Issues of globalization will also be examined. Honors section participants will supplement the regular class materials with several extra readings. These readings will be discussed as part of a Canvas online forum. In addition, Honors students will write a research paper on a topic of their choosing. Meets with the regular section. All seats in section -081 are held for incoming students.

HDFS 221-080 Child Development II: 3 to 10 (Add-On)  
Commodore, Veronica  
Child Development II is designed for students seeking more in-depth study of topics in human development from the post-toddler period up to and including middle childhood (ages 3 through 10 years). Class lectures, in-class activities, discussions, readings, group assignments and observations of children in group settings will provide you with opportunities to increase your
understanding of the nature of children, their general developmental patterns in the context of their families, schools, communities and broader effects of culture, class and historical time. Honor students' assignments and exams are differentiated in order to further challenge them on the course content and materials. *Meets with the regular section.*

**HDFS 235-080 Introduction to Human Services (Add-On)**
Wilson, Rebecca
This course is designed to help students understand the scope of human service agencies that focus on the needs of children and families. Upon completion of the course, students will be aware of current problems facing children and families, identify "best practice" approaches to helping children and families, and understand how diversity among children, families, and communities can inform service delivery. Honors students will complete a research project focused on a specific issue related to children and their families. The final project will be presented to peers. *RESTRICTIONS: Open to Human Services majors, Disabilities Studies Minors, & Sociology - Welfare track students only. Meets with the regular section.*

**HDFS 333-080 Development of Human Relationships (Add-On)**
Riera, Kate
This course examines developmental theory and research related to intrapersonal and interpersonal conditions, characteristics, attitudes and behaviors necessary for effective human relationships. Basic focus on the psychology of the individual, relationship skills, conflict management and intimacy. The Honors component involves an independent research project and class presentation. *Meets with the regular section.*

**HDFS 346-080 Introduction to Counseling Techniques (Add-On)**
Staff
This course presents approaches to interviewing and counseling individuals and families in a variety of human service and human resource settings. Includes case management, advocacy, goal setting and empowerment strategies of intervention. Explores professional and ethical issues in providing individual and family services. Please contact the instructor for the specific Honors components and grading rubric for the Honors work. *PREREQ: HDFS 334. COREQ: HDFS 334. Meets with the regular section.*

**HDFS 347-080 Program Development and Evaluation (Add-On)**
Karpyn, Allison
This course focuses on program development, administrative procedures, and program evaluation. Topics include basic skills required for the development, delivery, and evaluation of a wide range of human service programs including preventive interventions for families and individuals. Honors students will work together to identify evidence based preventive interventions for children and families. They will compare and contrast program evaluation research, learning about the variety of evaluation criteria that is used to determine the types of evidence that indicates the effectiveness of these interventions. In addition, Honors students will investigate the role of culture in the development and implementation of preventive interventions, resulting in a report with recommendations for the field. *PREREQ: HDFS 235 & HDFS 334. COREQ: HDFS 334 or permission of instructor. Meets with the regular section.*
HDFS 422-080 Honors Capstone: Family Relationships (Add-On)
Settles, Barbara
This course will discuss interpersonal relationships and issues in courtship, marriage, and the family in contemporary society. Course objectives include: understanding of current issues in theory and research used in the study of the family and the development of family policy; historical and current views of family process and functioning and awareness of multicultural and cross-cultural issues; and directions for the future trends in families important to family study and policy development. Please contact the instructor for the specific Honors components and grading rubric for the Honors work. PREREQ: HDFS 202, HDFS 235, & HDFS 334 or permission of instructor. This course satisfies the Senior Capstone requirement for the Honors Degree if taken in one of the last two semesters prior to graduation. RESTRICTIONS: Open to Senior majors only. Meets with the regular section. Online course.

HDFS 422-081 Honors Capstone: Family Relationships (Add-On)
Abrams, Holly
This course will discuss interpersonal relationships and issues in courtship, marriage, and the family in contemporary society. Course objectives include: understanding of current issues in theory and research used in the study of the family and the development of family policy; historical and current views of family process and functioning and awareness of multicultural and cross-cultural issues; and directions for the future trends in families important to family study and policy development. Please contact the instructor for the specific Honors components and grading rubric for the Honors work. PREREQ: HDFS 202, HDFS 235, & HDFS 334 or permission of instructor. This course satisfies the Senior Capstone requirement for the Honors Degree if taken in one of the last two semesters prior to graduation. RESTRICTIONS: Open to Senior majors only. Meets with the regular section.

HDFS 427-080 Parenting Through the Lifespan (Add-On)
Worden, Lynn
Applied focus on parenting styles, roles, issues and goals through the lifespan. Parent diversity, intergenerational relationships, developmental and acquired disabilities, and needs of children, adult children, extended family members, and parents are examined. Honors students will complete additional readings that explore research and theory related to parents and parenting at a deeper level. Students will also complete a literature review and policy paper, and will present a mini-lecture to the class. Honors students will meet individually with the instructor as needed throughout the semester. PREREQ: HDFS 201 or PSYC 350 or permission of instructor. Meets with the regular section.

HDFS 435-080 Programs for Children with Exceptionalities (Add-On)
Barnes, Tia
This course examines the philosophy, organization, and operation of programs for children with exceptionalities. It will focus on teaching in inclusive settings and implementing developmentally appropriate practices. Topics include: parent-professional partnerships, characteristics of specific disabilities and related interventions, IEP process, adaptation strategies, and positioning and handling techniques. Please contact the instructor for the specific Honors components and the grading rubric for the Honors work. PREREQ: HDFS 222. COREQ: HDFS 432. Meets with the
HDFS 470-080 Families and Children at Risk (Add-On)
Riera, Kate
Study of social-emotional considerations of disabilities and risk factors upon development of children and families. Theory, research, and practices discussed with emphasis on family-professional collaboration, empowerment, family-focused practice, and cultural sensitivity. Please contact the instructor for the specific Honors components and the grading rubric for the Honors work. PREREQ: HDFS 201 or HDFS 220 or HDFS 221 or PSYC 325. Meets with the regular section.

History (HIST)
HIST 102-080 Europe and the World Since 1648 (Add-On)
Bil, Geoffrey
This course explores the transformations of Europe since the middle of the 17th century through cultural, social, and economic developments, revolutions, wars, and interactions with other parts of the world. Please contact the instructor for the specific Honors components and the grading rubric for the Honors work. Meets with the regular section.

HIST 102-082 Europe and the World Since 1648 (Add-On)
Cruz, Jesus
This course explores the transformations of Europe since the middle of the 17th century through cultural, social, and economic developments, revolutions, wars, and interactions with other parts of the world. Please contact the instructor for the specific Honors components and the grading rubric for the Honors work. Meets with the regular section.

HIST 104-080/080D World History Since 1400 (Add-On)
Flaherty, Darryl
The course explores principal political, economic, cultural and social developments in world history as they relate to the present. Start and end dates (along with geographic emphasis on Asia, Africa, the Americas and Europe) varies by instructor. Please contact the instructor for the specific Honors components and the grading rubric for the Honors work. Meets with the regular section.

HIST 130-080 Islamic Near East: 600-1500 (Add-On)
Matthee, Rudolph
This course introduces the origins of Islam, its development as a religion and a culture, and the broad trends in Middle Eastern history until 1500. Please contact the instructor for the specific Honors components and the grading rubric for the Honors work. Meets with the regular section.

HIST 135-081 Introduction to Latin American History (Add-On)
Robles, Sonia
This course introduces students to the history of Latin America, from the conquest period to recent times. Topics include pre-conquest societies, Iberian colonization and colonial society, the transition to independence, nineteenth century modernization, urbanization, revolutionary
political movements of the twentieth century, and the region’s changing relationship to the United States. The format is twice-weekly lectures and smaller weekly discussion meetings during which students analyze primary source materials and film clips. In addition to the three essay exams required of all students in this survey, the Honors students will submit two short essays responding to additional texts. To prepare for this, we schedule 2 extra discussion meetings during the semester for the Honors group. Meets with the regular section.

**HIST 145-080 Gandhi's India (Add-On)**
Rawat, Ramnarayan
Introduction to Mohandas Gandhi's profound contribution to India's independence; to his strategies for peaceful struggle and to his criticism of "modern society". Other prominent leaders and organizations that held radically different views about modern India will be examined. Please contact the instructor for the specific Honors components and the grading rubric for the Honors work. Meets with the regular section.

**HIST 203-080/MSST 203-080 Introduction to Museums (Add-On)**
Van Horn, Jennifer
Introduction to the history, operations and future of museums, historic sites, archives and related cultural organizations. Examines collecting and collection management, conservation of collections, exhibition development, public programs and museum education, and digital outreach. Museum careers and volunteer engagement are explored. Please contact the instructor for the specific Honors components and the grading rubric for the Honors work. Cross-listed with ARTH 201-080 and MSST 203-080. Meets with the regular section.

**HIST 223-080 Nature and History (Add-On)**
Wollet, Benjamin
Survey of how people across the globe have related to the non-human world roughly in the last 10,000 years. Focuses on revolutionary changes in global environmental history as well as efforts in many times and places to solve environmental problems. Please contact the instructor for the specific Honors components and the grading rubric for the Honors work. Meets with the regular section.

**HIST 250-080 Comparative Genocide (Add-On)**
Zavadivker, Polly
Examines genocidal acts in the 20th century in a comparative framework. Cases include genocides of Armenians, Jews, Cambodians, Bosnians, and Rwandans. Topics include political and racial ideology, government institutions, perpetrator motivations, international responses, and genocide prevention. Please contact the instructor for the specific Honors components and the grading rubric for the Honors work. Meets with the regular section.

**HIST 268-080 Seminar: European Nationalisms (Add-On)**
Brophy, James
This is an introduction to the study and writing of history. Individual instructors take different approaches but all tend to stress the nature and verification of historical evidence, its interpretation and its communication in writing. Please contact the instructor for the specific Honors components and the grading rubric for the Honors work. Meets with the regular section.
HIST 268-081 Seminar: Global History of Racism and Exclusion (Add-On)
Rawat, Ramnarayan
This is an introduction to the study and writing of history. Individual instructors take different approaches but all tend to stress the nature and verification of historical evidence, its interpretation and its communication in writing. Please contact the instructor for the specific Honors components and the grading rubric for the Honors work. Meets with the regular section.

HIST 321-080 Civil War and Reconstruction (Add-On)
Bendler, Bruce
Sectional conflict and the struggle between rival nationalisms in mid-19th century United States. Please contact the instructor for the specific Honors components and the grading rubric for the Honors work. Meets with the regular section.

HIST 342-080 Barbarian Europe (Add-On)
Frassetto, Michael
A survey of political, social, cultural and economic developments in Europe between 300 and 1050. Please contact the instructor for the specific Honors components and the grading rubric for the Honors work. Meets with the regular section.

HIST 353-080 Modern Germany: 1770-1919 (Add-On)
Brophy, James
German political, socioeconomic, and cultural history from 1770 to the end of the First World War. Please contact the instructor for the specific Honors components and the grading rubric for the Honors work. Meets with the regular section.

HIST 357-080 The European City (Add-On)
White, Owen
This course aims to understand the development of modern urban life by looking at the social and cultural evolution of two of Europe’s greatest cities. Focusing on London and Paris since about 1750, we will see how the rapid growth of these cities, capitals of powerful imperial nations, created opportunities and problems in equal measure: the elegance in which the rich lived and the vibrancy of each city’s cultural life contrasted with the miserable conditions endured by the poor and unglamorous problems like how to dispose of garbage and the dead. Students in the honors section will explore the nature of modern urban living in greater depth through cinematic representations of the European city. Meets with the regular section.

HIST 375-080 Britain Since 1714 (Add-On)
Bil, Geoffrey
British politics, society, and culture in modern times. The rise of parliamentary democracy, industry, liberalism, empire, feminism, social democracy and mass culture. Please contact the instructor for the specific Honors components and the grading rubric for the Honors work. Meets with the regular section.
HIST 400-080 Capstone Seminar-Europe Between the World Wars (Add-On)
Cruz, Jesus
This seminar will explore the main developments in European history between 1917 and 1939. The focus will be on the influence of ideologies such as fascism and communism and how the radical nature of their solutions took European politics to the brink of armed confrontation. Themes will include the Russian Revolution, the ascent of Fascism in Italy and Germany, and the Spanish Civil War. Please contact the instructor for the specific Honors components and the grading rubric for the Honors work. This course satisfies the Senior Capstone requirement for the Honors Degree if taken in one of the last two semesters before graduation. Meets with the regular section.

Hospitality, Business Management (HOSP)
HOSP 180-080/080L Introduction to Hospitality Business Mgmt. (Add-On)
Kline, Sheryl
This course is designed to introduce the broad world of hospitality management. The course will provide students with information about the structure of the hospitality industry, travel and tourism resources, hotel and restaurant businesses, recreation and leisure activities, and the people who have shaped the industry. Please contact the instructor for the specific Honors components and the grading rubric for the Honors work. In the past students have networked with alumni and lead industry panel discussion in the classroom. Meets with the regular section.

HOSP 321-080 Quantity Food Service Management (Add-On)
Pyle, Philip
This course covers principles of quantity food service management with an emphasis on quality and cost control. Topics include menu planning, safety, sanitation and technical operations, as well as labor, food and energy cost containment. Honors students do an additional research paper in an area related to management for the class for submission for publication in a journal or to present at a professional conference. PREREQ: HOSP 201 & HOSP 211. COREQ: HOSP 325. Meets with the regular section.

HOSP 381-080 Management of Food and Beverage Operations (Add-On)
Webb, Timothy
This course covers the management tools available to control sales and expenses in food and beverage operations. There is an analysis of centers of responsibility and the cost management approach to development of control systems. Please contact the instructor for the specific Honors components and the grading rubric for the Honors work. PREREQ: HOSP 321. Meets with the regular section.

HOSP 489-080L Management Restaurant Operation Practicum (Add-On)
Waller, Nicholas / Rawstrom, William
This course is a structured experience in a hospitality industry environment. There are at least 40 hours per credit hour in planned activities associated with the management and operation of a hospitality property. Please contact the instructor for the specific Honors components and the grading rubric for the Honors work. In the past Honors students have done additional assignments/projects throughout the semester such as working together to develop the appetizer trio for the next Vita Nova dinner menu. Course is 7 credits. PREREQ: HOSP 321, HOSP
325 & HOSP 488. Satisfies the Senior Capstone requirement for the Honors Degree if taken in one of the last two semesters prior to graduation. RESTRICTIONS: Open to HRIM majors only. Meets with the regular section.

**HOSP 495-080 Hospitality Feasibility Studies (Add-On)**

Miller, Brian
This course will examine a review of feasibility methods of a potential lodging franchise in a given market, review market data, evaluate potential franchises, develop facility and design requirements, examine revenue streams and cash flows and its economic viability. Please contact the instructor for the specific Honors components and the grading rubric for the Honors work. PREREQ: ACCT 207, ACCT 208, HRIM 380, HOSP 381, HOSP 382, HOSP 481, BUAD 301 & FINC 311. COREQ: ACCT 207, ACCT 208, HOSP 380, HOSP 381, HOSP 382, HOSP 481, BUAD 301 & FINC 311. This course satisfies the Senior Capstone requirement for the Honors Degree if taken in one of the last two semesters before graduation. Meets after the regular section. RESTRICTIONS: Available only after taking 90 credits. Available only in the Senior Year.

**Italian (ITAL)**

**ITAL 205-080 Italian Conversation (Add-On)**

Salsini, Laura
You are so close to proficiency in Italian! Consolidate your hard-earned language skills in a series of conversations and oral presentations, with grammar review when appropriate. Students will discuss current events along with material from films, the Internet, and other sources. Students in the honors section will be required to write a short composition on a topic dealing with contemporary Italy and present that material to the class. PREREQ: Minimum grade of B in ITAL 107 or one 200-level ITAL course. Meets with the regular section.

**ITAL 211-080 Italian Reading and Composition (Add-On)**

Saggese, Riccarda
Let the masters of the Italian short story teach you to write! This course emphasizes vocabulary acquisition and written expression. Students will read and discuss short works of literature and film. You will improve your writing skills, add to your rich stock of conversation topics in Italian, and begin your love affair with contemporary Italian authors. PREREQ: ITAL 200 or ITAL 205 or ITAL 206. Counts as a Group A. Meets with the regular section.

**ITAL 300-080 Advanced Italian Composition and Grammar (Add-On)**

Saggese, Riccarda
In this course students will practice, apply and enhance the language skills used in previous classes through a variety of writing projects (i.e.: summaries, opinion pieces, feature articles, narratives) and class discussion. Please contact the instructor for the specific Honors components and grading rubric for the Honors work. PREREQ: ITAL 211 or ITAL 212. Meets with the regular section.

**ITAL 311-080 Survey of Italian Literature (Add-On)**

Salsini, Laura
In this course we’ll explore Italy’s rich literary and cultural production. We examine works from some of the country’s greatest writers and artists, and through them, we’ll look at important
cultural, artistic and historical events, including world wars, Romanticism and Futurism, and the women's movement, among others. Using the poetry and prose we read in class, we'll craft our own creative works of art. Please contact the instructor for the specific Honors components and grading rubric for the Honors work. **PREREQ:** ITAL 211 or ITAL 212. Counts as a Group B. Meets with the regular section.

**ITAL 455-080/ITAL 655 Contemporary Italy** *(Add-On)*
Melloni, Giorgio
Is Italy nowadays mainly a country of art preservation or a living culture between the past and future? Can Italian be considered a “Language of Culture” par excellence? This course will answer these questions, while guiding students through an examination of contemporary Italian culture and society as expressed in politics, art, theater, music, fashion, and cinema. The course will provide students with opportunities to enhance their communication skills. Honors students must complete an additional presentation along with an additional research paper. **PREREQ:** Any two ITAL 300-level literature courses. May be repeated for credit when topics vary. Meets with the regular section.

**Japanese (JAPN)**

**JAPN 201-080 Advanced Intermediate Japanese I** *(Add-On)*
Sato, Mutsuko
JAPN 201 is the first of the two-course series which form the core of 200-level Japanese, the other being JAPN 202. The goal is to build upper intermediate level grammar, vocabulary, and Kanji. All four areas of language (listening, reading, speaking, and writing) are emphasized. Students in the Honors section will work on individual projects under the instructor’s guidance. The goal of this project is to enrich their interest in the cultural experience and to ameliorate their weakness in different aspects of the language. **PREREQ:** JAPN 107. Meets with the regular section.

**JAPN 202-080 Advanced Intermediate Japanese II** *(Add-On)*
Inoue, Chika
Second of the two-course series which form the core of 200-level Japanese. (The other is JAPN201.) The goal is to build upper intermediate level grammar, vocabulary, and Kanji with specific emphasis on fluency. All areas of language (listening, reading, speaking, and writing) are emphasized. Please contact the instructor for the specific Honors components and the grading rubric for the Honors work. **PREREQ:** JAPN 201 or 206. Meets with the regular section.

**JAPN 204-080 The Art of Japanese Calligraphy** *(Add-On)*
Inoue, Chika
This course will cover practical training in Japanese calligraphy, using brush, inkstone and sumi ink. Students will work with both phonetic syllabaries and kanji characters. Please contact the instructor for the specific Honors components and the grading rubric for the Honors work. **PREREQ:** One JAPN course. **RESTRICTIONS:** Does not satisfy CAS language requirement. Taught in English and Japanese. Meets with the regular section.
JAPN 305-080 Japanese Conversation and Composition (Add-On)
Inoue, Chika
Discussion of current cultural, social and political topics in Japanese. Vocabulary building, grammar exercises and frequent compositions. PREREQ: One of JAPN202, 205, 3XX. Please contact the instructor for the specific Honors components and the grading rubric for the Honors work. *Meets with the regular section.*

JAPN 405-080 Japanese Translation: Theory and Practice (Add-On)
Hutchinson, Rachael
This course familiarizes students with the major issues involved in translating a literary text from Japanese to English, including the effect of synonym choice, literal vs. loose translation, poetic license and the tense-aspect controversy. Students will gain an appreciation for writing style in terms of sentence construction, kanji use, poetic language and the effect of literary quotation. Students will learn to critically analyze the style of a literary Japanese text, and judge the quality of a published literary translation against the original Japanese. Students will improve and polish their translation skills to a high degree, and will be encouraged to find their own method of translation, balancing creative expression with accuracy and fidelity to the original text. Together we will read and discuss the experiences of real translators and interpreters in the book Found in Translation. Towards the end of the course, students will give oral presentations on the method and theory of translation they feel best suits them as an individual. Honors students have the opportunity to pursue a research and/or translation project of their own choosing, related to course material. PREREQ: Two of JAPN 300-level courses. *Meets with the regular section.*

Jewish Studies (JWST)
JWST 250-080/HIST 250 Comparative Genocide (Add-On)
Zavadivker, Polly
Examines genocidal acts in the 20th century in a comparative framework. Cases include genocides of Armenians, Jews, Cambodians, Bosnians, and Rwandans. Topics include political and racial ideology, government institutions, perpetrator motivations, international responses, and genocide prevention. Please contact the instructor for the specific Honors components and the grading rubric for the Honors work. *Meets with the regular section.*

JWST 333-080 Israeli Film: Reflecting Dramatic Change (Add-On)
Gutman, Eynat
To die or not to die (for your country)? This course studies fascinating topics in Israeli film, such as the construction and deconstruction of the heroes Israeli Sabra, ethnic groups in Israel, and decades of dynamic change and development in Israeli society. Discussion intensive. Please contact the instructor for the specific Honors components and the grading rubric for the Honors work. *Meets with the regular section.*

Kinesiology & Applied Physiology (KAAP)
KAAP 220-080 Fundamentals of Anatomy and Physiology I (Add-On)
Greska, Eric
This course focuses on the structure and function of the human body: skeletal, muscular, integumentary, and nervous systems. With KAAP 221, this course provides a foundation for
health care related fields. KAAP 220/KAAP 221 can be taken in any order. See KAAP 309/KAAP 310 sequence for 4 credit A&P with lab. Please contact the instructor for the specific Honors components and grading rubric for the Honors work. All seats held for incoming honors first-year students. Meets with the regular section. Online and In Person.

**KAAP 309-082/080L & 081L Human Anatomy and Physiology I (Add-On)**
Greska, Eric / Staff
This course will cover the structure and function of the human body for pre-professionals in clinical and allied health fields. There is an emphasis on integumentary, skeletal, muscular, and nervous systems. In addition to the regular coursework, students in the Honors section will meet regularly with the professor to discuss topics of interest in anatomy and physiology. Each student will write a paper on a topic he or she selects, and will present his or her findings to the full class. Examples of past topics: barefoot running; why women get more ACL injuries than men; minimally invasive heart valve replacement surgery; pyelonephritis and urinary tract infections. **PREREQ:** BISC 205 or BISC 207 & CHEM 101 or CHEM 103 or CHEM 105 or CHEM 107 or CHEM 111. **RESTRICTIONS:** Open to EXSC majors only. Meets with the regular section.

**KAAP 350-080 Basic Concepts in Kinesiology (Add-On)**
Royer, Todd
A review of musculoskeletal anatomy and lever systems provides foundation for analyzing human movement. Practical kinesiological evaluation focuses on common fitness and health related exercises. This course includes the discussion of movement analysis and proper techniques for cardiovascular machines, abdominal work, stretching, etc. Please contact the instructor for the specific Honors components and grading rubric for the Honors work. **PREREQ:** KAAP 220 or KAAP 309. **RESTRICTIONS:** Open to students whose major or minor requires this course. Meets with the regular section. Online and In Person.

**KAAP 400-080 Research Methods (Add-On)**
Getchell, Nancy
This course is an introduction to research on health and physical activity, including types of research, research design, matching appropriate statistical tools with research designs, research writing style and format and ethical issues related to research. The Honors section will include preparing a research proposal and presenting it in the class. **PREREQ:** STAT 200 or MATH 201 or PSYC 209. This course satisfies the Senior Capstone Requirement for the Honors Degree if taken in one of the last two semesters before graduation. **RESTRICTIONS:** Open to Senior EXSC, HLST and AT majors only. Meets with the regular section.

**KAAP 400-081 Research Methods (Add-On)**
Crenshaw, Jeremy
This course is an introduction to research on health and physical activity, including types of research, research design, matching appropriate statistical tools with research designs, research writing style and format and ethical issues related to research. Please contact the instructor for the specific Honors components and grading rubric for the Honors work. **PREREQ:** STAT 200 or MATH 201 or PSYC 209. This course satisfies the Senior Capstone requirement for the Honors Degree if taken in one of the last two semesters before graduation. **RESTRICTIONS:** Open to Senior EXSC, HLST and AT majors only. Meets with the regular section.
KAAP 426-080/080L Biomechanics I (Add-On)
Crenshaw, Jeremy
This course includes the application of mechanical principles in the study of the human musculoskeletal system, including analysis of joint forces, as well as the mechanical properties of bone, muscle, and connective tissues. In addition to regular coursework, students in the Honors section apply this knowledge in critical reviews of published biomechanics studies. PREREQ: PHYS 201 or PHYS 207; KAAP 220 or KAAP 309. RESTRICTIONS: Open to EXSC majors only. Meets with the regular section.

KAAP 430-080/080L Exercise Physiology (Add-On)
Witman, Melissa
This course includes the study of the integration of human physiological systems in the performance of exercise, work and sports activities and under the influence of environmental stressors. Honors students will develop a case study involving primary scientific literature. PREREQ: KAAP 221 or KAAP 310 or BISC 276 or BISC 306. Meets with the regular section.

KAAP 434-080 Twelve-Lead ECG Interpretation (Add-On)
Scotolati, Guy
This course includes the study of all aspects of electrocardiography including arrhythmia identification, rate determination, axis deviation, heart blocks, hypertrophy and myocardial infarction patterns. Honors students will learn how cardiac conditions affect ECGs by researching a selected condition and writing a short paper to demonstrate the student's learning of how the characteristics of the condition alters the ECG. PREREQ: KAAP 430. Meets with the regular section.

Landscape Architecture (LARC)
LARC 222-080/080L Introduction to Surveying (Add-On)
Balascio, Carmine
Emphasizes concepts and methods of plane surveying for construction applications. Provides field experience with modern surveying instruments. Topics include: distance measurement, leveling, angle measurement, error analysis, coordinate systems, mapping, traversing, and calculation of land areas and earth volumes. Please contact the instructor for the specific Honors components and the grading rubric for the Honors work. RESTRICTIONS: Requires knowledge of trigonometry. Meets with the regular section.

Latin (LATN)
LATN 201-080 Intermediate Latin Prose (Add-On)
Staff
It's 218 BCE, the Romans are hemmed in the Italian peninsula, quaking at the advance of Carthaginian troops accompanied by their cavalry of ELEPHANTS (!). Two superpowers—Rome and Carthage—face off in a war for domination of the ancient Mediterranean world. Leading the Carthaginians is a brilliant commander Hannibal Barca. His cunning use of military strategy and cutthroat brutally make him Rome's deadliest enemy and worst nightmare. Would you like to know more about who wins this epic contest and how? Then join us in this introduction to Latin prose where we will read Cornelius Nepos' biography of Hannibal and probe the pages of
LATN 301-080 Advanced Intermediate Prose (Add-On)
Sukava, Tyson
Boy-prince, sexual deviant, poet, matricide, charioteer - the emperor Nero is known in the modern imagination as one of Rome's most flamboyant rulers and infamous villains. Tacitus' Annals played a pivotal role in shaping our understanding of this eccentric tyrant. Join this advanced Latin class as we read Tacitus' account of Nero's violent and debaucherous reign and explore the many facets of Roman politics and society that intersect with it. Among the topics covered will be gender and sexuality, slavery, sport and spectacle, early Christianity, architecture, and more. Please contact the instructor for the specific Honors components and grading rubric for the Honors work. PREREQ: LATN 101 & LATN 102 or equivalent. Meets with the regular section.

LATN 401-080 Advanced Latin Prose (Add-On)
Sukava, Tyson
Description: Boy-prince, sexual deviant, poet, matricide, charioteer - the emperor Nero is known in the modern imagination as one of Rome's most flamboyant rulers and infamous villains. Tacitus' Annals played a pivotal role in shaping our understanding of this eccentric tyrant. Join this advanced Latin class as we read Tacitus' account of Nero's violent and debaucherous reign and explore the many facets of Roman politics and society that intersect with it. Among the topics covered will be gender and sexuality, slavery, sport and spectacle, early Christianity, architecture, and more. Please contact the instructor for the specific Honors components and grading rubric for the Honors work. PREREQ: LATN 202 or equivalent. Meets with the regular section.

Leadership (LEAD)
LEAD 100-081 Leadership, Integrity, and Change (Add-On)
Morrison, James
This course introduces students to the challenges of leadership. An experiential practice-based change project will give students hands-on experience in applying the skills and practices of effective leadership to create positive change. Please contact the instructor for the specific Honors components and grading rubric for the Honors work. Meets with the regular section.

LEAD 200-080 The Leadership Challenge (Add-On)
Case Lilly, Jane
This course explores how leaders take on the challenge of mobilizing others to transform visions into reality and provides a more in depth examination of leadership theory and how that theory informs various individual and organizational practices. Students will learn methods to develop a shared vision, processes to strategically facilitate change, and examine ethical facets of leadership. Honors students serve in the role of Weaver taking individual strands of information and ideas and integrating them into understandable patterns that bring out themes that we might not otherwise see. In this case, students
weave together our understanding of CORE confidence, optimism, resilience, and engagement – from what you learn in class, what you observe in the class, and what you research on your own from other sources. *Meets with the regular section.*

**LEAD 300-080 Leadership, Creativity and Innovation (Add-On)**
Case Lilly, Jane
This course provides students with the theoretical bases of leadership, creativity, and innovation that inform the effective practice of leadership. The course emphasizes creativity theory and research, models of innovation, and the application of leadership to foster innovation. The nature and nurture of creative thinking as a precursor to effective organizational leadership and innovation underlies the course. Students will understand the nature of creativity in research, theory, and practice; explore and recognize the characteristics of innovation in organizations, understand the role of leadership in creating conditions for innovation, at both the individual and organizational system levels; and enhance their ability to think creatively, and apply that creative thinking strategically. Honors students explore and expand divergent thinking capacity, and share that knowledge with the class through activities and research. *Meets with the regular section.*

**LEAD 341-080 Decision-Making and Leadership (Add-On)**
Seeley, Susamma
Consider leadership as a process of influencing others toward a common vision. Further, consider that effective leadership lies in the leader, the followers, the context, and the interaction among all three--and that all are influenced by the choice of decisions that should be made, the process of making decisions, and the ability to implement decisions. This course will examine models of decision-making, the use of economic, social, and political tools as part of the decision-making process, and the responsibility of leaders and followers to implement decisions that further the common good. Honors students will have a research experience, acting as the principle investigator(s) for a class research project. *PREREQ: LEAD 100. Meets with the regular section.*

**LEAD 400-080 Leadership for the Common Good (Add-On)**
Shaffer, Timothy
This course examines direct action organizing, coalition building, and consensus organizing as strategies for mobilizing people to create positive change. There is an emphasis on social responsibility, sustainability, collaborations, and multisector interactions. Please contact the instructor for the specific Honors components and the grading rubric for the Honors work. *PREREQ: LEAD 100. Meets with the regular section.*

**LEAD 490-080D Senior Capstone (Add-On)**
Stein, Karen
Engage in a project addressing "real world" leadership challenges. Successful project completion requires integration, synthesis and reflection upon knowledge and skills acquired in previous courses. Specific projects vary by semester. Honors students will meet regularly with the instructor for enriched discussions. *PREREQ: LEAD 100 and 341. Open to senior LEAD or OCL majors only. This course satisfies the Honors Degree Capstone requirement when taken in one of the last two semesters prior to graduation. Meets with the regular section.*
**Linguistics (LING)**

**LING 101-080 (Free-Standing)**
Staff
This course covers the nature of language: structure of sounds, words, sentences, and meaning; relationships of language and society, culture, and thought. Emphasis is on language universals and variation both within and between languages, including non-Western and non-white varieties.

**LING 418-081 Meeting and Language Use (Add-On)**
Tomioka, Satoshi
Introduction to theories of meaning based on the notion of truth and their application to language use. Please contact the instructor for the specific Honors components and grading rubric for the Honors work. **PREREQ: LING 101. Meets with the regular section.**

**LING 444-080 First Language Development (Add-On)**
Wittmeyer, Jennifer
This course explores how humans acquire a language in infancy: innate versus environmental factors; the development of grammatical competence and its relation to cognitive and communicative development; cultural and societal influences; development disorders. Please contact the instructor for the specific Honors components and the grading rubric for the Honors work. **PREREQ: LING 101. Meets with the regular section.**

**Languages, Literatures and Cultures (LLCU)**

**LLCU 267-080 Seminar: Arabic Calligraphy (Add-On)**
Masmoudi, Ikram
This course is an introduction to the beautiful art of Arab calligraphy: we will learn the basic techniques of different calligraphic styles from the flowery to the geometric, and Kufic styles, using short poetry and Koranic excerpts, proverbs etc. Please contact the instructor for the specific Honors components and the grading rubric for the Honors work. **No prerequisites, and no previous knowledge of Arabic required. Meets with the regular section.**

**LLCU 316-080 Classical Mythology: Gods, Heroes, and Monsters (Add-On)**
Sukava, Tyson
This course explores cosmological myths and heroic sagas in the literature and art of Greece and Rome and the influence of the mythology in later art and literature. Please contact the instructor for the specific Honors components and the grading rubric for the Honors work. **Cross-listed with CMLT 316-010. Meets with the regular section. Online course.**

**LLCU 321-080 Topics: Chinese Literature in Translation (Add-On)**
Chen, Jianguo
This course involves the study of the works of one or more outstanding authors or of a special theme. Taught in English. See [http://primus.nss.udel.edu/CoursesSearch/](http://primus.nss.udel.edu/CoursesSearch/) for topics. Please contact the instructor for the specific Honors components and grading rubric for the Honors work. **RESTRICTIONS: May be repeated for credit when topics vary. Meets with the regular section.**
LLCU 330-080/081/082 Topics: World Literature and Cultures (Add-On)
Myers, Holly / Laird, Margaret
This course includes cultural, especially cross-cultural, study with primary emphasis on the historical development of the announced area, e.g., Nature in the Ancient World, Speculative Fiction, Transformation of a Myth. Please contact the instructor for the specific Honors components and grading rubric for the Honors work. RESTRICTIONS: May be repeated three times for credit when topics vary. Cross-listed with CMLT 330, HIST 399, & WOMS 330. Meets with the regular section.

LLCU 332-080 Arabic Literature in Translation: Contemporary Arabic Cinema (Add-On)
Masmoudi, Ikram
This course offers an overview and an introduction to the emergence and development of cinema in the Arab world. It explores different cinematographic genres from entertainment to realism and resistance, portrayal of Arab women as well as Arab cinema's role in the development of cultural identity and cultural memory; with films from Egypt, Algeria, Tunisia, Lebanon, Syria and Palestine. Please contact the instructor for the specific Honors components and the grading rubric for the Honors work. No prerequisites, and no previous knowledge of Arabic required. Meets with the regular section.

LLCU 333-080 Israeli Film: Reflecting Dramatic Change (Add-On)
Gutman, Eynat
To die or not to die (for your country)? This course studies fascinating topics in Israeli film, such as the construction and deconstruction of the heroes Israeli Sabra, ethnic groups in Israel, and decades of dynamic change and development in Israeli society. Discussion intensive. Please contact the instructor for the specific Honors components and the grading rubric for the Honors work. Meets with the regular section.

LLCU 380-080 Japanese through Literature and Film (Add-On)
Hutchinson, Rachael
The aim of this course is to gain a sense of what life is like in contemporary Japan by reading a selection of novels, manga, short stories and critical essays by Japanese writers, as well as watching films and anime (animation). Rather than taking a historical approach to artworks through time, we will focus on the ‘here and now’ to examine Japanese society, including attitudes, customs and beliefs of the Japanese people as expressed in art. Issues problematized in Japanese literature and film include nuclear anxiety, social breakdown, ambivalence towards technology, and doubts regarding established institutions such as the educational and Imperial systems. We will use the literary and filmic works to see how some of these problems are universal human issues, while others are particular to Japan. We will also use the artworks as an aesthetic conduit to cultural understanding, coming to know the similarities and differences between Japanese culture and our own. Honors students have the opportunity to pursue a research project of their own choosing, related to course material. Meets with the regular section.
LLCU 383-080 Chinese Culture in Translation (Add-On)
Tu, Chung-Min
Special topics in Japanese culture. Taught in English. See http://primus.nss.udel.edu/CoursesSearch/ for topics. Meets with the regular section.

LLCU 420-080 Terrorism in Italian Cinema (Add-On)
Melloni, Giorgio
This course examines the representation of terrorism in Italian film. Students will view a selection of movies organized around three intertwined critical approaches: historical, cinematic and cultural. Students will gain an understanding of the internal tensions in Italy that stretched from the Civil War of the Italian Resistance during World War II, to the so-called “years of lead” (“anni di piombo,” c. 1969-83) and the ideological terrorisms to which this period gave rise, to the Cold War era. The course will explore how the trauma of political extremism, violent uprisings and protests, and organized and clandestine terrorism were elaborated and reinterpreted through distinctive ideological frameworks and filmic techniques. Finally, students will observe and discuss connections between the issues raised by these Italian films, which highlight tensions between competing social groups and ideologies, and the broader landscape of contemporary global terrorism, fueled by religious fanaticisms. No prereq. Course is taught in English. Meets with the regular section.

LLCU 424-080 Second Language Testing (Add-On)
McCone, Thomas
This course is designed to provide future teachers with the knowledge and skills required to select and/or develop appropriate foreign language assessments. Participants will learn how to identify the strengths and weaknesses of various assessment methods, how to deploy a variety of formal and informal assessment techniques, and how to maintain useful records of student work and performance. This will involve the study of the principles and techniques of second-language testing, the measurement of the four skills and of communicative competence, bilingual measures, and there will be practice in item construction and analysis. By the end of the course, students will be able to describe the different procedures available for the assessment of language learning outcomes, select and/or evaluate assessments in terms of their practicality, reliability, validity, authenticity and washback, and develop appropriate assessments for specific language learning goals. Please contact the instructor for the specific Honors components and grading rubric for the Honors work. Meets with the regular section.

Marine Studies (MAST)
MAST 200-080 The Oceans (Add-On)
Thoroughgood, C. A.
The regular MAST 200 class considers physical, chemical, geological and biological principles in examining how the oceans work, drawing heavily on current ocean issues to illustrate processes and problems. The Honors section experience will consist of additional activities. The Honors students will be required to go into more depth about the various physical, chemical, biological, geological, engineering and public policy aspects considered in the regular course are naturally integrated in the marine environment. This additional work will entail some extra readings and the writing of a summary paper on a specific topic of interest to each
individual student and will be due at the end of the semester. *Meets with the regular section. Online course.*

**MAST 367-080 Seminar: Marine Ecology (Add-On)**
Staff
See [www.udel.edu/courses](http://www.udel.edu/courses).

**MAST 382-080 Introduction to Ocean Studies (Add-On)**
Billups, Katharina
This is a quantitative introduction to sub-fields within ocean sciences including marine geology, marine chemistry, ocean physics, coastal oceanography and marine biology. An introduction to the major for Marine Sciences and an in-depth overview for those with a minor or concentration in Marine Science. Please contact the instructor for the specific Honors components and the grading rubric for the Honors work. **PREREQ:** CHEM103/CHEM133 or CHEM111. *Meets with the regular section.*

**Mathematics (MATH)**

**MATH 242-081/081D/081L Analytic Geometry and Calculus B (Free-Standing)**
Rakesh
This course involves a brief review of MATH241; evaluation of limits by L'Hospital's rule; applications of integration; integration techniques; parametric curves; polar coordinates; infinite sequences and series. Includes use of computers to perform symbolic, numerical and graphical analysis. **PREREQ:** MATH 232 or MATH 241. *All seats reserved for incoming honors first-year students. Upper class students can check on seat availability on August 1st by emailing honors@udel.edu.*

**MATH 349-080 Elementary Linear Algebra (Free-Standing)**
Lazebnik, Felix
This course covers systems of linear equations, linear combinations of vectors, and matrix algebra. Determinants, eigenvalues and eigenvectors, similarity and diagonalization of square matrices. Vector spaces, linear dependence and independence, basis and dimension, linear transformations. Inner product spaces, orthogonality, orthogonal projections, fundamental subspaces. A software package may be used for the analysis and solution of linear algebra problems. **PREREQ:** MATH 230 or MATH 242. **REQUIREMENTS:** Students who received credit in MATH 343 or MATH 351 are not eligible to take this course without permission.

**MATH 380-080 Teaching and Learning Math II (Add-On)**
Muirhead, Faith
Explores the evaluation and selection of materials for teaching mathematics in secondary schools and developing unit plans and long-term plans, effective instructional strategies, and assessment. Addresses classroom management, equity, meeting the needs of all students, and establishing an effective learning environment. Stresses reasoning, proof, and communication. Examines the teaching and learning of Geometry, Probability & Statistics, Calculus, and Modeling and incorporates content specific use of technology. Includes a field experience. Please contact the instructor for the specific Honors components and the grading rubric for the Honors work. **PREREQ:** MATH379. **REQUIREMENTS:** Requires permission of the Committee on
Secondary School Mathematics. This course has a field component. School districts now require a Federal Criminal Background Check and recent tuberculosis (TB) test. For information about these requirements see http://www.ocs.udel.edu/. Meets with the regular section. This course satisfies the Senior Capstone requirement for the Honors Degree if taken in one of the last two semesters before graduation.

**MATH 512-080/081 Contemporary Application of Math (Add-On)**
Schleiniger, Gilberto / Raymond, Christopher
This course is aimed at providing a hands-on learning experience in contemporary applications of mathematics. It involves work with investigators from industry, national laboratories, and other departments. Mathematical topics may include ordinary and partial differential equations, systems of differential equations, transform, asymptotic, and numerical methods. **PREREQ:** One 300 or higher level course on differential equations. **RESTRICTIONS:** Open to Juniors and Seniors only. This course satisfies the Senior Capstone Requirement for the Honors Degree if taken in one of the last two semesters before graduation. Meets with the regular section.

**Material Science and Engineering (MSEG)**
**MSEG 201-080/081 Introduction to Materials Science (Add-On)**
Hewlett, Sheldon
Crystal binding and structure; energetics and structure of lattice defects; elasticity, plasticity, and fracture; phase equilibria and transformations; relations of structure and treatment to properties; structures of inorganic and organic polymers; and electronic and magnetic properties. Please contact the instructor for the specific Honors components and the grading rubric for the Honors work. **PREREQ:** CHEM 111 or CHEM 103/CHEM 133 or CHEM 107 and PHYS 207. Meets with the regular section.

**Mechanical Engineering (MEEG)**
**MEEG 210-080/080D, 081D, 082D, 083D, 084D, & 085D Statistics (Add-On)**
Buckley, Jennifer
To recognize, idealize and solve problems involving rigid bodies in static equilibrium using scalar and vector techniques. Introduces free body diagrams, friction, center of gravity, moment of inertia. Emphasizes the role of statics in the design process. The Honors Experience for this course will include readings and guided analysis of a real-world statistics scenario. **COREQ:** MATH 242 & PHYS 207. Meets with the regular section.

**MEEG 241-080/080D & 081/081D Thermodynamics (Add-On)**
Doty, Heather
Basic concepts of thermodynamics including properties of substances and gas mixtures, energy, entropy, and exergy. First and second law analysis of systems and control volumes. Applications to steady-flow devices and systems in power production, propulsion, and air conditioning. Honors students will perform an additional research project designed to deepen their understanding of applications related to engineering thermodynamics. Honors students will present their research findings to the class at the end of the semester. **COREQ:** MATH 351. **RESTRICTIONS:** Open to MEEG majors only. Meets with the regular section.
Management Information Systems (MISY)
MISY 160-080 Business Computing: Tools and Concepts (Free-Standing)
Hartono, Edward
Business Computing is an introduction to business information systems concepts, tools, and technology. Throughout the semester, you will be exposed to a wealth of knowledge about computerized systems, their components, their operational characteristics, and basic computerized business tools. You will build computer competency through reading text materials, watching video materials, completing exercises and assignments, and hands-on computer work and exercises, which include the use of microcomputer applications, Microsoft Excel and Access. RESTRICTIONS: Open to students whose major requires this course. All seats are held for incoming honors first-year students. Upper class students can check on seat availability on August 1st by emailing honors@udel.edu.

Medical & Molecular Sciences (MMSC)
MMSC 360-080 Clinical Immunology and Medical Virology (Add-On)
Hollinger, Andrew
This course explores introductory immunology concepts and the use of immunological assays, such as enzyme immunoassays and fluorescent antibody assays, for the diagnosis of infectious diseases and immunological disorders. This course also covers medical virology, including viral structure, viral diseases, and methods used to diagnose viral infections. Honors students will review patient case studies in immunology and virology, and during additional meeting times will present their case studies using PowerPoint to their classmates and lead discussions of the cases. PREREQ: BISC 208 & CHEM 104 or CHEM 108. RESTRICTIONS: Open to MLS-BS, MDD-BS, AMBB-BS majors and Medical Diagnostic minors only, or with permission of the instructor. Meets with the regular section.

MMSC 402-080 Body Fluid Analysis (Add-On)
Walker, Kimberly
The analysis of body fluids is the cornerstone of the practice of medical technology. This course explores the information obtained by accurate analysis of urine and other non-blood body fluids. How this information can provide a pattern essential to the assessment of a person's health or pathology will be discussed. The role of quality assurance in the development and performance of such tests will be emphasized. Honors students will examine a series of case studies to explore more intensely the relationship between clinical laboratory data and patient outcomes, learn digital photomicroscopy, and develop their own clinical cases. IMPORTANT NOTE: This is a 1 credit course. PREREQ: BISC 208 & CHEM 104 or CHEM 108. RESTRICTIONS: MLS-BS and MDD-BS majors only. Meets with the regular section for lecture; separate Honors discussion.

MMSC 420-080 Immunohematology II (Add-On)
Allshouse, Leslie
This course involves the study of blood and component transfusions, their risks, complications and quality assurance. This course also involves the study of blood component therapy and testing of the neonate and adult. Honors students will review additional patient case studies related to the course information, and using PowerPoint will present case studies to their classmates during a regularly scheduled lecture period. PREREQ: A grade of C- or better in MMSC 409. Meets with the regular section.
MMSC 433-080/MMSC 633-050 Hematology II (Add-On)
Hughes, Virginia
This course involves the study of the pathophysiology of erythrocytic and leukocytic disorders and the laboratory findings of these disorders. Honors students have additional assignments designed to deepen their understanding of the pathophysiology of Disseminated Intravascular Coagulation and its association with leukemia. Students will write a ten-page paper outlining case reports discussed in class and the nexus between DIC and leukemia. PREREQ: A grade of C- or better in MMSC 423. Meets with the regular section.

MMSC 438-080 Diagnostic Bacteriology & Medical Mycology (Add-On)
Walker, Kimberly
Diagnostic bacteriology, emphasizing the correlation of in vitro and in vivo findings in the diagnosis and treatment of infectious disease, including human mycoses. Identification of pathogenic and nonpathogenic bacteria and fungi in clinical specimens. Please contact the instructor for the specific Honors components and the grading rubric for the Honors work. PREREQ: Grades of C- or better in MMSC428 is required. Meets with the regular section.

MMSC 491-192 Human Molecular Genetics (Add-On)
Walker, Kimberly
Molecular processes required to diagnose inherited disorders, cancer, hematological disorders, and infectious agents. Additionally, the employment of DNA identity-based testing in transplantation, paternity testing and forensics will be discussed. Please contact the instructor for the specific Honors components and the grading rubric for the Honors work. PREREQ: BISC208 and CHEM 104/134. Online course.

Museum Studies (MSST)
MSST 203-080/ARTH 201-080/HIST 203-080 Introduction to Museums (Add-On)
Van Horn, Jennifer
Introduction to the history, operations and future of museums, historic sites, archives and related cultural organizations. Examines collecting and collection management, conservation of collections, exhibition development, public programs and museum education, and digital outreach. Museum careers and volunteer engagement are explored. Please contact the instructor for the specific Honors components and the grading rubric for the Honors work. Cross-listed with ARTH 201-080 and HIST 203-080. Meets with the regular section.

Music (MUSC)
MUSC 185-080L/081L/084L Aural Skills I (Add-On)
Shafer, Jennifer
This course covers the techniques of sight singing, music reading skills, and the development of ability in aural recognition of melody, harmony and rhythm. Please contact the instructor for the course description and the specific Honors components and grading rubric for the Honors work. All sections meet with the regular sections plus one extra hour per week. COREQ: MUSC 184. RESTRICTIONS: Student must pass department music theory placement test. Preference given to incoming first-year MUSC majors and minors.
MUSC 185-082L/083L Aural Skills I (Add-On)
Burt, Patricia
This course covers the techniques of sight singing, music reading skills, and the development of ability in aural recognition of melody, harmony and rhythm. Please contact the instructor for the course description and the specific Honors components and grading rubric for the Honors work. All sections meet with the regular sections plus one extra hour per week. COREQ: MUSC 184. RESTRICTIONS: Student must pass the department music theory placement test. Preference given to incoming first-year MUSC majors and minors.

MUSC 312-080/081 Music History: 1600-1827 (Free-Standing)
Purciello, Maria / Murray Jr, Russell
This class is a history of musical style and theory during the Baroque period (1600-1750), and the Classic period through the death of Beethoven (1827). Students will meet on a regular basis to discuss the music of this period together with issues of style, aesthetics, performance practice, and reception history. PREREQ: MUSC 311, MUSC 295, and MUSC 286 with a grade of C- or better or permission of the instructor. Offered fall semester only.

Neuroscience (NSCI)
NSCI 100-080 Psychology and Brain Science (Free-Standing)
Roth, Eric
This psychobiology course merges components of biology, psychology, and neuroscience to explore aspects of behavior and cognition. From neurophysiology to anatomy to psychopathology a broad array of subjects are covered. Beyond the textbook, students are also introduced to scientific publications and will be expected to write a summary of a particular scientific article. The course also has a lab component, where students will handle brain specimens and be expected to learn basic aspects of three-dimensional brain structure and match brain regions with their functions. Recommended for neuroscience majors. All seats held for incoming first-year students. Upper class students can check on seat availability on August 1st by emailing honors@udel.edu.

NSCI 320-080 Introduction to Neuroscience (Free-Standing)
Klintsova, Anna
This course provides the foundation necessary to understand the neural basis of emotion, cognition, and behavior. It focuses on the: a) development and anatomical organization of neural systems in the brain, b) the cellular, neurochemical, and molecular events that underlie neural signaling and synaptic transmission, and c) the mechanisms by which those aggregate processes regulate synaptic plasticity to express adaptive and maladaptive behaviors through learning, memory, cognition and emotions. PREREQ: C- or better in PSYC 100 or NSCI 100. Cross-listed with PSYC 320-080. Open to honors NSCI/CGSC/PSYC students only.

NSCI 429-080 Integrative Neuroscience I (Free-Standing)
Griffin, Amy
This course will survey the basic facts, empirical evidence, theories and methods of study in the field of neuroscience, with an emphasis on sensory and motor systems. We will examine the signaling events of animal sensory and motor systems, including detection, transduction, propagation, processing and coding of sensory signals in the peripheral- and the central
nervous system, planning and execution of movement, and common neurological diseases affecting movement. Please contact the instructor for the specific Honors components and the grading rubric for the Honors work. **PREREQ:** NSCI 320. **RESTRICTIONS:** Restricted to NSCI majors and minors. **RESTRICTIONS:** PSYC majors and minors and NSCI majors and minors only. Meets with the graduate section (NSCI 629).

**NSCI 436-080 Nature vs Nurture** *(Free-Standing)*  
Schwarz, Jaclyn  
This course examines the contribution of biological and environmental determinants to individual differences in behavior and disease. Please contact the instructor for the specific Honors components and the grading rubric for the Honors work. **PREREQ:** Minimum grade C- in PSYC 207 and PSYC 209 or substitutes (MATH 202, MATH 205, STAT 200, SOCI 301). **RESTRICTIONS:** PSYC majors and minors and NSCI majors and minors only. Cross-listed with PSYC 436-080. Meets with the regular section. This course satisfies the Senior Capstone requirement for the Honors Degree if taken in one of the last two semesters before graduation. *Fill out this form to request enrollment.*

**Nutrition & Dietetics (NTDT)**  
**NTDT 200-080 Nutrition Concepts** *(Free-Standing)*  
Fang, Cheng-Shun  
This course covers the functions and sources of nutrients, dietary adequacy, energy balance and metabolism with emphasis on health promotion. It includes weight control, evaluation of popular diets, vegetarianism, eating disorders, alcohol, and other current issues and concerns in nutrition. *Most seats held for incoming honors first-year students.*

**NTDT 305-081 Nutrition in the Lifespan** *(Add-On)*  
Chai, Sheau Ching  
This course focuses on nutrition and health during the different stages of life: pregnancy, lactation, infancy, preschool years, middle childhood, adolescence, adulthood, and later maturity. **PREREQ:** NTDT 200 and a course in biology.

**NTDT 310-081 Nutrition and Activity** *(Add-On)*  
Eastep, Maryann  
This course focuses on energy and nutrient needs for activity with an emphasis on particular physical and athletic activities, common myths and fallacies concerning diet and athletic performance, and appropriate dietary approaches for specific activities and active people. Honors students have additional assignments designed to deepen their understanding of applying the science of sports nutrition. **PREREQ:** NTDT 200 and a physiology course. Meets with the regular section.

**NTDT 400-080 Macronutrients** *(Add-On)*  
Chai, Sheau Ching  
Topics include metabolism of carbohydrates, proteins and fats in human nutrition, interdependence and relation to energy metabolism/balance, scientific bases of macronutrient requirement during the life cycle. Please contact the instructor for the specific Honors
components and grading rubric for the Honors work. PREREQ: NTDT 200, CHEM 214, & CHEM 216. Meets with the regular section.

**NTDT 401-080 Micronutrients (Add-On)**
Fang, Cheng-Shun
This course examines the mechanisms and interactions of vitamins and minerals in cellular metabolism as well as the scientific bases of nutrient requirements during the life cycle. Please contact the instructor for the specific Honors components and grading rubric for the Honors work. PREREQ: NTDT 400. Meets with the regular section.

**NTDT 450-080 Medical Nutrition Therapy I (Add-On)**
Leefeldt, Anja
This course covers skills required for patients' nutritional management. Medical nutrition therapy for dysphagia and adaptive feeding. Pathophysiology, diet and disease relationships and diet therapy for gastrointestinal conditions, obesity, diabetes and cardiovascular diseases. The Honors section will explore in depth one of the chronic diseases covered in this course. Students will conduct an independent project focused on individuals with the selected chronic disease. In addition, students will write a final report and do a class presentation. PREREQ: NTDT 250, NTDT 400, & BISC 276. RESTRICTIONS: Open to DIET and NMS majors only. Meets with the regular section.

**NTDT 460-080 Community Nutrition (Add-On)**
Eastep, Maryann / Pacanowski, Carly
This course focuses on nutritional care as a part of health maintenance, health promotion, and health care delivery in community settings; the relationship of community resources, structure and dynamics to an individual's ability to be well fed. Community nutrition needs and programs. Means of effecting change in nutrition knowledge and practices in populations. Teaching methods include lecture, field work, case studies. The field work provides 30 hours of supervised service in a community nutrition or health agency. Please contact the instructor for the specific Honors components and the grading rubric for the Honors work. PREREQ: NTDT 321 & NTDT 400. This course satisfies the Senior Capstone requirement for the Honors Degree if taken in one of the last two semesters before graduation. RESTRICTIONS: Open to NTDT majors only. Students are offered site opportunities and final placement is managed by the instructor. Meets with the regular section.

**Nursing (NURS)**
**NURS 263-080 Health Assessment (Add-On)**
Staff
In this course students will develop skills in history taking and physical assessment across the lifespan. Emphasis is placed on the differentiation between normal and abnormal findings, recognition of common health problems, and consideration of developmental and cultural implications during health screening. Please contact the instructor for the specific Honors components and grading rubric for the Honors work. PREREQ: KAAP 220 & KAAP 221. COREQ: NURS 243 & NURS 264. RESTRICTIONS: Open to NURS majors only. Meets with the regular section.
NURS 335-080 Psychology Mental Health Nursing (Add-On)
Staff
This course focuses on the health of clients who are experiencing alterations in their mental health state. Examines the influence of mental health across the lifespan in diverse populations. Current treatments and nursing interventions based on crisis, acute, maintenance and health promotion phases of treatment are analyzed. Discussion of therapeutic use of self, effective communication strategies, critical thinking and evidence based practice prepares students to function as effective members of the inter-professional team while helping clients restore and maintain optimal health. Please contact the instructor for the specific Honors components and grading rubric for the Honors work. PREREQ: PSYC 100, NURS 322, NURS 330, and NURS 355. COREQ: NURS 322, NURS 330, and NURS 355. RESTRICTIONS: Junior NURS majors only. Meets with the regular section.

NURS 438-080 Leadership in Professional Nursing Practice (Add-On)
Schell, Kathleen
Introduces concepts of leadership and management for entry-level professional nursing practice. Explore and analyze fundamental strategies to improve organizational culture and change, quality and safety of care, patient satisfaction, inter-professional dialogue and budgetary resource issues. Examines the influence of legislative, regulatory, and risk management policies in shaping the practice environment. Incorporates experiential learning during concurrent practica. PREREQ: Junior level nursing courses COREQ: Traditional and Accelerated BSN Nursing Majors only- at least one senior level clinical practicum. For RN-BSN Nursing Majors, no coreqs. RESTRICTIONS: Nursing majors only. Meets with the regular section.

Philosophy (PHIL)
PHIL 303-080 Modern Philosophy (Add-On)
Shabo, Seth
This course explores skepticism and the birth of Modernity. Topics include: Bacon and scientific experimentalism, Hobbes materialism, Descartes, Spinoza, Leibniz, Locke, Berkeley, Hume, Kant, and the Age of Enlightenment and its impact on philosophy, science, and religion. Please contact the instructor for the specific Honors components and grading rubric for the Honors work. Meets with the regular section.

PHIL 310-080 Chinese Religion and Philosophy (Add-On)
Fox, Alan
In this course we will read and discuss the works of several important thinkers in the Chinese philosophical traditions, including the Confucians, Daoists, Mohists, Buddhists, Neo-Daoists, and Neo-Confucians. We will be interested in both the content and the methodology of Chinese philosophy. It is important to remember that this is a 300-level philosophy course, and although no prior experience in philosophy is required and no knowledge of the Chinese language is necessary, still the class will be demanding and will require that you think deeply about the materials. The Honors section will run concurrently with and meet at the same time as the non-Honors section, but will read and write about more in-depth works on topics that run concurrently with the syllabus of the regular section. We will meet additionally once every other week for an hour to discuss the additional material. This means that students with extremely restrictive schedules might not be able to participate. The grading will differ from the regular
section in that class participation will count for a higher percentage of the final grade, and this will cover the work done in the smaller group. Meets with the regular section.

**PHIL 330-080/CGSC 330-080 Philosophy of Mind (Add-On)**
*Pust, Joel*
This course is a thorough survey of analytic philosophy of mind, a branch of analytic metaphysics. The first part of the course will focus on various theories of the essential nature of the mind and its relationship to the body and brain, e.g., dualism, behaviorism, the identity theory, and functionalism. After our initial survey of these theories, we will address in more detail the nature of conscious experience and some contemporary defenses of property and substance dualism. It is not an introductory philosophy course and most of the readings are difficult. Students in the Honors section will be required to meet separately, do additional readings, to turn in drafts of their papers, and to present their papers to that section. Meets with the regular section.

**PHIL 465-080 Senior Seminar: Free Will (Add-On)**
*Hanley, Richard*
Two kinds of arguments for skepticism about philosophical subject matter (morality, political philosophy, mathematics, metaphysics, etc) will be considered in this course. Debunking arguments claim our beliefs are undermined (and so are not justified or are not knowledge) because our mental states are not properly explained by their subject matter. Arguments from disagreement claim our beliefs are undermined (and so are not justified or are not knowledge) because our epistemic peers (people equally rational and equally well informed) disagree with us. Honors students will have additional meetings to discuss the philosophical issues raised in the course material, at times with additional readings. They will also have writing assignments over the course of the semester designed not only to deepen their understanding of those issues, but also to help them develop their reasoning skills. This course satisfies the Senior Capstone requirement for the Honors Degree if taken in one of the last two semesters before graduation. RESTRICTIONS: Open to senior PHIL majors only and by permission of the instructor. May be repeated once for credit when topics vary. Meets with the regular section.

**Physics and Astronomy (PHYS)**
**PHYS 207-080/080D and PHYS 227-080L Fundamentals of Physics I (Free-Standing)**
*Staff*
This is the first course in a sequence with PHYS 208 that provides an introduction to physics for those in the physical sciences and engineering. Topics will include projectile motion, Newton’s Laws, energy conservation principles, linear and angular momentum, torque, systems of particles, oscillations, and gravity. Topics in addition to these will be covered for the Honors section, such as computational analysis, rocket motion, and special relativity, time permitting. For the Honors section the topics will be covered in a more rigorous and thorough manner than the standard PHYS 207 course. Although the co-requisite for this course is MATH 241, it is recommended that a student be proficient in calculus before entering the course. An emphasis is placed on conceptual understanding and long answer problem solving, combined with laboratory experience. COREQ: MATH 232 or MATH 241. Students should enroll in both honors PHYS 207 and honors PHYS 227. RESTRICTIONS: One year of high school calculus is recommended.
Students who have received credit in PHYS 203/PHYS 221 are not eligible to take this course without permission.

**PHYS 211-080/080D Oscillations and Waves (Add-On)**
Staff
This course builds on and extends concepts of classical physics introduced in PHYS 207. Students will explore simple harmonic oscillation, the damped harmonic oscillator, and forced and coupled oscillations. PHYS 211 provides a simple treatment of traveling and standing waves and reflection of waves at discontinuities as well as interference and diffraction. Please contact the instructor for the specific Honors components and grading rubric for the Honors work.  
**PREREQ:** PHYS 207 & MATH 241. **COREQ:** MATH 242. Meets with the regular section.

**Plant and Soil Science (PLSC)**
**PLSC 101-080 Botany I (Add-On)**
Bais, Harsh
This course covers introductory botany and stresses fundamental concepts and processes in plants. Topics include cell structure and function, anatomy, genetics, reproduction, physiology, taxonomy, phylogeny, and ecology. Please contact the instructor for the specific Honors components and grading rubric for the Honors work. Meets with the regular section.

**PLSC 410-080 Introduction to Plant Physiology (Add-On)**
Bais, Harsh
This course explores the physiology of green plants: light and energy conversion, carbon fixation, nitrogen metabolism, amino acid synthesis, protein synthesis mechanics and regulation, water and solute utilization, nutrient translocation, photomorphogenesis and photoperiodism and growth hormones, considered at fundamental level of operation. Please contact the instructor for the specific Honors components and grading rubric for the Honors work. **PREREQ:** PLSC 201 or BISC 208. Meets with the regular section.

**Political Science (POSC)**
**POSC 240-080 Introduction to Global Politics (Free-Standing)**
Weinert, Matthew
This course introduces students to that vast and varied field of study called global politics. The term “global politics” includes not only international (or inter-state) relations, but also a wide variety of social relations in which the pursuit of power, interests, order, and justice by multiple actors (e.g., states, international organizations, non-governmental organizations, corporations, think-tanks, foundations, and individuals) transcends borders, regions, and continents. As such, the course engages the idea that globalization is fundamentally changing (and has already changed) the nature of, inter alia, political, social, economic, and cultural relations. The class will be structured around lecture, discussion, and debate, and is intended to provide students with the conceptual and theoretical tools to make sense of global politics. Most seats held for incoming honors first-year students.
POS 412-080 International Relations of Asia (Free-Standing)
Ba, Alice
East Asia is a dynamic region undergoing much geopolitical and economic change. These changes are challenging regional relations, even at the same time that they open up new possibilities for expanded relations and new imperatives for cooperation. This course introduces students to the international relations of East and Southeast Asia by examining the region’s relational and political dynamics. Questions to be asked include: What explains why relations between some states remain competitive and fraught, while others do not? What is the role of the US in Asia? How does China’s historical and contemporary influence in East Asia affect those questions? Is it true that East Asia is “ripe for rivalry” or headed for a “new Cold War” as some argue? And where does Russia stand in Asia given that the recent Ukraine crisis has set its US and European relations into a downward spiral? This class asks these questions in relation to different issues and subsets of relations in East Asia. Topics to be discussed include US-China relations, North Korea, Taiwan, the South China Sea, “trade wars” and trade politics, small and medium powers versus major powers, the contrasts between intra-Northeast Asian relations and intra-Southeast Asian relations, and US alliance relations in Asia.

Psychology (PSYC)
PSYC 100-080/081 General Psychology (Free-Standing)
Kenkel, William
This is a foundation course in the basic concepts of the scientific study of behavior. The first half concentrates on research methods, the brain, sensation, perception, learning, and cognitive processes. The second half considers intelligence, personality, mental disorders, psychotherapy, and social psychology. The course will be taught to emphasize how science proceeds through a dialogue between theory and experiment, rather than a compilation of neutral facts. Class reaction to the ideas will be encouraged to allow for student participation in the scholarly conversation. The focus will be on understanding the determinants of behavior from multiple perspectives. Most seats reserved for incoming honors first-year students.

PSYC 320-080 Introduction to Neuroscience (Free-Standing)
Klintsova, Anna
This course provides the foundation necessary to understand the neural basis of emotion, cognition, and behavior. It focuses on the: a) development and anatomical organization of neural systems in the brain, b) the cellular, neurochemical, and molecular events that underlie neural signaling and synaptic transmission, and c) the mechanisms by which those aggregate processes regulate synaptic plasticity to express adaptive and maladaptive behaviors through learning, memory, cognition and emotions. PREREQ: C- or better in PSYC 100 or NSCI 100. Cross-listed with NSCI 320-080. Open to honors PSYC and PSYC ED majors only.

PSYC 436-080 Nature vs Nurture (Free-Standing)
Schwarz, Jaclyn
This course examines the contribution of biological and environmental determinants to individual differences in behavior and disease. Please contact the instructor for the specific Honors components and the grading rubric for the Honors work. PREREQ: Minimum grade C- in PSYC 207 and PSYC 209 or substitutes (MATH 202, MATH 205, STAT 200, SOCI 301). RESTRICTIONS: PSYC majors and minors and NSCI majors and minors only. Cross-listed with NSCI 436-080. Meets
with the regular section. This course satisfies the Senior Capstone requirement for the Honors Degree if taken in one of the last two semesters before graduation. Fill out this form to request enrollment.

**Russian (RUSS)**
**RUSS 305-080 Russian Conversation & Composition: Soviet & Russian Cinema (Add-On)**
Myers, Holly
Discussion of current cultural, social and political topics in Russia and the former republics. Vocabulary building, grammar exercises and frequent compositions. Please contact the instructor for the specific Honors components and grading rubric for the Honors work. **PREREQ:** Any 200-level course conducted in Russian. Meets with the regular section.

**RUSS 455-080 Selected Authors, Works and Themes: Pushing Limits: Neorealism (Add-On)**
Hulings, Julia
Works of one or more outstanding authors or on a special theme. **PREREQ:** Two 300-level Russian literature courses **RESTRICTIONS:** May be repeated for credit when topics vary. Meets with the regular section. Meets with the regular section.

**Sociology (SOCI)**
**SOCI 201-080 Introduction to Sociology (Free-Standing)**
Perez, Victor
An overview of the sociological perspective of the study of society, social organization and social institutions with special emphasis on the social causes and consequences of human behavior. All seats held for incoming honors first-year students.

**Spanish (SPAN)**
**SPAN 200-080 Spanish Composition and Grammar (Add-On)**
Robles-Reyes, Arnaldo
This course is the first part of a thorough grammar review and intensive practice, targeting structure, essential vocabulary, speaking, listening and extensive writing. Please contact the instructor for the specific Honors components and the grading rubric for the Honors work. **PREREQ:** SPAN 107 or SPAN 112. Meets with the regular section.

**SPAN 200-084 Spanish Composition and Grammar (Add-On)**
Finnicum, Carmen
This course is the first part of a thorough grammar review and intensive practice, targeting structure, essential vocabulary, speaking, listening and extensive writing. Please contact the instructor for the specific Honors components and the grading rubric for the Honors work. **PREREQ:** SPAN 107 or SPAN 112. Meets with the regular section.

**SPAN 201-081 Spanish Reading and Composition (Add-On)**
McKenna, Susan
This course emphasizes the advancement of reading, writing, listening, and speaking skills while studying literary selections from Spain and Latin America. Students will strengthen their analytical skills while reading narrative, poetry, drama, and essay as well as increase their
knowledge of the literary terms and movements encountered in more advanced literature classes. Compositions will be based on original analyses of the readings and will be directed towards reinforcing the use of literary terminology. Please contact the instructor for the specific Honors components and the grading rubric for the Honors work. PREREQ: SPAN 200. RESTRICTIONS: Not intended for students who have already taken 300 and 400-level literature courses in Spanish. Meets with the regular section.

SPAN 205-081 Spanish Conversation (Add-On)
Ilarregui, Gladys
This course builds mastery of practical spoken Spanish in its cultural context. Spanish will be used strategically in situations related to everyday life, with topics such as travel, education, health, relationships, sports, food, housing, family life, entertainment and technology. The Honors sections feature additional proficiency activities inside and outside the classroom including one-on-one conversations with native speakers, third-party assessment for proficiency feedback, and guided research on topics of individual interest. PREREQ: SPAN 107 or SPAN 112 or SPAN 200 or SPAN 201. A minimum grade of B is required in SPAN 107 or SPAN 112. RESTRICTIONS: Not intended for native speakers of Spanish. Students who received credit in SPAN 206 are not eligible to take this course without permission. Not open to students who have reached the 400 level (where the appropriate oral-communication course is Spanish 305). Meets with the regular section.

SPAN 205-082 Spanish Conversation (Add-On)
Haq, Fatima
This course builds mastery of practical spoken Spanish in its cultural context. Spanish will be used strategically in situations related to everyday life, with topics such as travel, education, health, relationships, sports, food, housing, family life, entertainment and technology. The Honors sections feature additional proficiency activities inside and outside the classroom including one-on-one conversations with native speakers, third-party assessment for proficiency feedback, and guided research on topics of individual interest. PREREQ: SPAN 107 or SPAN 112 or SPAN 200 or SPAN 201. A minimum grade of B is required in SPAN 107 or SPAN 112. RESTRICTIONS: Not intended for native speakers of Spanish. Students who received credit in SPAN 206 are not eligible to take this course without permission. Not open to students who have reached the 400 level (where the appropriate oral-communication course is Spanish 305). Meets with the regular section.

SPAN 300-082/083 Advanced Spanish Composition and Grammar I (Add-On)
Dabkowski, Meghan
This course is the second part of a thorough review and intensive practice, targeting structure, essential vocabulary, speaking, listening and extensive writing. Students in the Honors section will keep a discussion thread in Canvas about various topics (i.e. grammatical concerns, historical and cultural issues based on the readings or any other activity related to the course, current news, movies, tv programs, etc. They will prepare summaries of some of the readings in the textbook, as well as answer extra essay questions on exams. Students will meet in person with la profesora at least twice a month and create audiovisual portfolios (after writing an essay on a particular subject, students will prepare a short video to submit via Canvas; grade
will be based on content, pronunciation and grammar). PREREQ: SPAN 200. Meets with the regular section.

SPAN 303-080/081 Survey of Spanish American Literature (Add-On)
McInnis-Dominiguez, Meghan
In this class, students will enrich their understanding of Latin American cultures and texts through literary readings from the Pre-Columbian Period through Modernism. They will also improve their written and oral Spanish with homework, class participation, presentation and final work. Instead of writing essays during the semester, students will write a final paper and participate in the creation of a supplementary “text” for the class (in Canvas) that not only serves as a study guide for the exams, but will serve as a “modern example” for one of the themes that we will investigate throughout the semester: the evolution of textual formats in the encounter between diverse peoples, cultures, and formats for registering memory. Honors students will enrich their understanding of the works through the preparation of a video introduction for one of the units of the course. They will be expected to write a longer final paper including secondary sources to back up their thesis. They will also have the opportunity to meet with the professor outside of class to engage in further critical exploration of the texts we read. Meets with the regular section.

SPAN 305-081 Oral Communication (Add-On)
Rio, Aurelia
This course is designed to help students master the linguistic functions associated with the advanced level of Spanish proficiency (description, narration, persuasion and argumentation). Class activities and homework assignments focus on the development of extended discourse, fluency enhancement, and refinement of pronunciation. Honors students have additional audio-visual projects and online video-chat assignments. PREREQ: SPAN 200. RESTRICTIONS: Not intended for native speakers. Students who received credit in SPAN 306 are not eligible to take this course without permission. Meets with the regular section.

SPAN 314-080 Spanish Phonetics and Phonology (Add-On)
Dabkowski, Meghan
This course is mandatory for prospective Spanish teachers and highly recommended to students who want to improve and practice their pronunciation and intonation in Spanish. The course will help you to understand how the Spanish phonetic system evolved, and is organized, compared to the system in English. This, together with a wealth of practical exercises will enable you to lose the typical “American accent”, and attain a more native-like pronunciation. You will learn how to divide Spanish words into syllables, where and when to put written accents, how to pronounce vowels and consonants, as well as learn about Spanish rhythm, intonation, linguistic variation, the evolution of the language, and phonetic transcription. You will also be able to explain to your future students why we today use the article “el” with words like “agua”, why we use the feminine form of adjectives to create adverbs, where “ñ” and “ll” come from, why intervocalic “d” is often omitted, and much much more. In addition to the regular class time, Honors students will meet with the instructor regularly to improve their conversational skills and pronunciation. Honors students will prepare a more extensive and in-depth in-class presentation than the regular students at the end of the semester. PREREQ: SPAN 200. RESTRICTIONS: Recommended for prospective Spanish teachers. Meets with the regular section.
SPAN 315-080/081 Reading and Writing for Healthcare (Add-On)
Rio, Aurelia
Reading and Writing for Healthcare is devoted to the analysis and creation of professional discourse in Spanish as well as the study of the cultural issues related to science, health, and healthcare in the Spanish-speaking world. Students will hone their reading and writing skills in the Spanish language and develop their understanding of the ways health, illness, and medicine are perceived in Spanish-speaking cultures. In this honors section students will participate in group discussions, creative projects, and use authentic written and aural material from authentic sources. The course aims to prepare students for careers in medical and scientific fields. PREREQ: Two 200-level SPAN courses taught in Spanish or Permission from Instructor. Meets with the regular section.

SPAN 325-080 Spanish Civilization and Culture (Add-On)
Robles-Reyes, Arnaldo
This course is a survey of the geography, history, art, and society of Spain. Honors students prepare a video assignment and have additional requirements for their final paper. They also meet occasionally with the professor outside of class. PREREQ: SPAN 200. Meets with the regular section.

SPAN 326-080 Latin American Civilization and Culture (Add-On)
Penix-Tadsen, Phillip
This course is a student-centered class in which students will research and analyze fundamental aspects of the geography, history, politics and cultural production of Latin America from pre-Columbian times to the present. We place particular emphasis on questions of human rights, colonialism and nationalism, intervention, and globalization and migration. This is a process-oriented course, in which students are encouraged to discover the historical causes of modern-day problems in Latin America; improve research and analytical skills; develop independent learning skills; and master practical academic and presentation technologies. Honors students have additional assignments designed to deepen their understanding of important concepts or documents related to Latin America and to refine their presentation skills in Spanish. Students will work individually with the instructor to develop a presentation with an accompanying learning activity for the class. PREREQ: SPAN 200. Meets with the regular section.

SPAN 352-080 Introduction to Business Spanish (Add-On)
Finnicum, Carmen
This course is the introduction of essential business/commercial terminology in common business context, reinforcing strategies for understanding, interpreting, and responding to new information, and providing opportunities for interactive practice. Familiarizes students with basic policies and practices of the Hispanic business community. Includes writing, conversation, grammar and culture. Please contact the instructor for the specific Honors components and the grading rubric for the Honors work. PREREQ: SPAN 200 and SPAN 201. Meets with the regular section.
SPAN 401-081/082 Advanced Composition and Grammar II (Add-On)
Busch, Hans-Jorg
This course involves an intensive practice in oral and written expression based on assigned readings and short films with frequent written exercises. Students will increase their accuracy in grammar and vocabulary, continue practicing all the grammatical structures they have studied in other Spanish courses, plus those structures that traditionally cause the most problems to foreign learners, for example the use of the subjunctive, the different past tenses, the sequence of tenses, the use of prepositions and pronouns, etc. Students will be able to understand the main ideas of most speech in a standard dialect in a variety of contexts and topics, narrate and describe with some details linking sentences together, communicate facts and talk casually about topics of current public and personal interest using general vocabulary, read somewhat longer prose of several paragraphs in length particularly if presented with a clear underlying structure, write about a variety of topics, describe and narrate personal experiences using different styles and formats, and have good control of the morphology and the most frequently used syntactic structures. Honors students will have an additional conversational practice once a week for about 30 minutes. PREREQ: One 300-level SPAN course. Meets with the regular section.

SPAN 420-080 Medieval Literature: Medieval Fact and Fiction (Add-On)
Guardiola-Griffiths, Cristina
Works of one or more authors or of a special theme or genre within Spanish medieval literature. Example: Love and Passion in the Middle Ages on the Iberian Peninsula. May be repeated three times for credit when topics vary. PREREQ: One SPAN 300-level survey of literature. Meets with the regular section.

SPAN 440-080 Eighteenth and Nineteenth Century Hispanic Literature: Mystery Short Stories (Add-On)
Selimov, Alexander
Works of one or more authors or of a special theme or genre within Hispanic literature of the 18th and 19th centuries. May be repeated three times for credit when topics vary. Please contact the instructor for the specific Honors components and the grading rubric for the Honors work. PREREQ: One SPAN 300-level survey of literature course. Meets with the regular section.

SPAN 455-080 Selected Authors, Works, and Themes: Hispanic Crime Fiction (Add-On)
Schmidt-Cruz, Cynthia
Works of one or more outstanding authors or on a special theme. PREREQ: One 300 level SPAN literature course. RESTRICTIONS: May be repeated for credit when topics vary. Meets with regular section.

SPAN 474-080 Hispanic Cities (Add-On)
Braham, Persephone
Hispanic Cities: Struggle, Space & Representation. Please contact the instructor for the specific Honors components and the grading rubric for the Honors work. PREREQ: One of the following: SPAN 301, SPAN 302, SPAN 303, SPAN 304, SPAN 307, SPAN 308, SPAN 325, SPAN 326 or SPAN 355. Meets with the regular section.
SPAN 491-080 Spanish Studies Capstone (Add-On)
Guardiola-Griffiths, Cristina
Through intensive research and study of texts and artifacts on a single theme, students will integrate and focus their knowledge of Latin American cultures across several disciplines. Taught in Spanish. Please contact the instructor for the specific Honors components and the grading rubric for the Honors work. PREREQ: One 400-level SPAN literature or culture course. This course satisfies the Senior Capstone requirement for the Honors Degree if taken in one of the last two semesters before graduation. RESTRICTIONS: Senior-level Spanish Studies and Latin American & Iberian Studies majors only. Meets with the regular section.

Urban Affairs and Public Policy (UAPP)
UAPP 110-082 Changing the World and Public Policy (Add-On)
Bentz, David
"Going Green", the haves and have nots, relevant politics - are all huge contemporary issues. Can you get a job AND make a difference? Public Policy addresses such issues and begins with you. Examines basic policy concepts/strategies used by citizens, government and other societal institutions. Please contact the instructor for the specific Honors components and the grading rubric for the Honors work. RESTRICTIONS: Open to UAPP majors only. All seats reserved for incoming honors first-year majors. Meets with the regular section.

UAPP 225-080 Crafting Public Policy (Add-On)
Kauffman, Gerald
The course covers the background to the American political process, providing the fundamentals and framework for the study of administration and public policy. Among topics: institutions, federalism, intergovernmental relations, citizen participation and representation, inter alia. Honors students are required to develop a research project on a public policy. Students without the skills to prepare a rigorous research term paper should not enroll. This interactive course also requires a weekly classroom processing of a case as assigned by the instructor. RESTRICTIONS: Open to majors only. Meets with the regular section.

UAPP 325-080 Public Policy Analysis (Add-On)
Tibor, Toth
Policy analysis involves the ability to critically and systematically analyze and evaluate public policies. This course introduces students to the methods and processes used to analyze policies. Its emphasis is on the practical application of policy analysis principles and concepts to address contemporary public problems. Honors students will work with the faculty to develop an assignment for the class that will focus on the students' interest and expand on the material covered in the regular section and have additional meetings with the faculty. RESTRICTIONS: Open to UAPP majors only. Not intended for freshmen. Meets with the regular section.

UAPP 440-080 Senior Capstone-Contemporary Policy Issues (Add-On)
Pierce, Andrea
This capstone course serves as a culminating learning experience for students during their senior year. This course involves an integration of the policy skills that they have developed within applied contexts related to their minors or areas of interests and their UAPP 300 Field Experience. Please contact the instructor for the specific Honors components and the grading
rubric for the Honors work. This course satisfies the Senior Capstone requirement for the Honors Degree if taken in one of the last two semesters before graduation. RESTRICTIONS: Open to UAPP majors only. Meets with the regular section.

**Women and Gender Studies (WOMS)**

**WOMS 201-080 Introduction to Women and Gender Studies (Add-On)**
Christopher, Emerald

Study of causes and conditions determining women's status in society, as evidenced in institutional structures and personal relations between men and women. Taught from multidisciplinary perspectives. Please contact the instructor for the specific Honors components and the grading rubric for the Honors work. Meets with the regular section.

**WOMS 260-080 Women: Cultural Representations (Add-On)**
Christopher, Emerald

Examines issues of representation across time and cultures. Offers critical analysis of how women have presented and represented themselves, as well as how their cultural productions and creative labors in a variety of media have been represented by others. Please contact the instructor for the specific Honors components and the grading rubric for the Honors work. Meets with the regular section.

**WOMS 330-080/LLCU 330-080 World Literature and Culture (Add-On)**
Myers, Holly

This course includes cultural, especially cross-cultural, study with primary emphasis on the historical development of the announced area, e.g., Nature in the Ancient World, Speculative Fiction, Transformation of a Myth. Please contact the instructor for the specific Honors components and grading rubric for the Honors work. RESTRICTIONS: May be repeated three times for credit when topics vary. Meets with the regular section.

**WOMS 350-080 Gender and Criminal Justice (Add-On)**
Miller, Susan

Most of our knowledge about crime and the criminal justice process is informed by male experiences. This course shifts the focus to examine the ways our legal and social systems affect and influence women's lives. Not only will we examine the various formal and informal controls that restrict women, but we will also examine how these issues intersect one's race, class, sexual orientation, and gender positions in our society. Special criminal justice field experiences (police, courts, women's prison) will be part of the Honors component. Cross-listed with CRJU 350-080. Meets with the regular section.
