DO YOU HAVE ACHILLES TENDON PAIN?

We are conducting a study evaluating if there is a difference between how men and women with Achilles tendinopathy (painful Achilles tendon) respond to treatment.

If you have pain in your Achilles tendon that gets worse with walking, running and jumping you might be eligible to participate in our research study.

- The study will include evaluation of your Achilles tendon and standard physical therapy intervention.
- You will be compensated for participating and the treatment is at no cost to you or your insurance.
- To qualify you must:
  - Be between the ages of 18-65 years
  - Have Achilles tendon pain

If you are interested in participating please contact us:
