You are invited to participate in a pediatric voice study

The **Voice Lab** at the **University of Delaware** conducts a study on self-awareness of voice and vocal learning in children.

Your child might be eligible to participate if he/she:

- Is between 3-6 years old
- Is normally developing
- Has no history of voice problems
- Has normal hearing
- Has normal or corrected-to-normal vision
- Is a native English speaker

The study will be conducted online.
