Volunteers Needed for Study Investigating the Potential Link Between Acute Added Sugar Intake and Brain Health

✓ Participants will Receive:
  - Complete Blood Panel (e.g., blood sugar, cholesterol)
  - Blood Pressure Screening
  - MRI Brain Scan

✓ Looking For:
  - Healthy Adult Men & Women
  - Aged 30–64 years
  - Non-smoker
  - Ability to go in an MRI scanner

All testing is performed at the University of Delaware’s STAR Health Sciences Complex and at the Center for Biomedical Brain Imaging on the UD Main Campus.

You will be compensated for your time and effort.

For more information, contact the Neurovascular Aging Lab at the University of Delaware at 302-831-8137 or email fsanjana@udel.edu

Thank you!
