

THE UNIVERSITY OF DELAWARE HIGHER EDUCATION CONSORTIA

The National Study of Instructional
Cost & Productivity (NSICP)

THE DELAWARE COST STUDY

How an institution joins the study has changed: With the development of our new web portal submission process, you must first pay the Participation Fee in order to register to join the study. At that time your institution will receive a username and password to access the portal. The first step in becoming a part of the 2016 Delaware Cost Study is to go to our Fees Schedule & Payment Options Page, to either pay by credit card or request an invoice. Note you will not be given access until payment has been received in our office (we do not accept purchase orders as payment).

Registration and Payment Options - See Online Payment Info Below

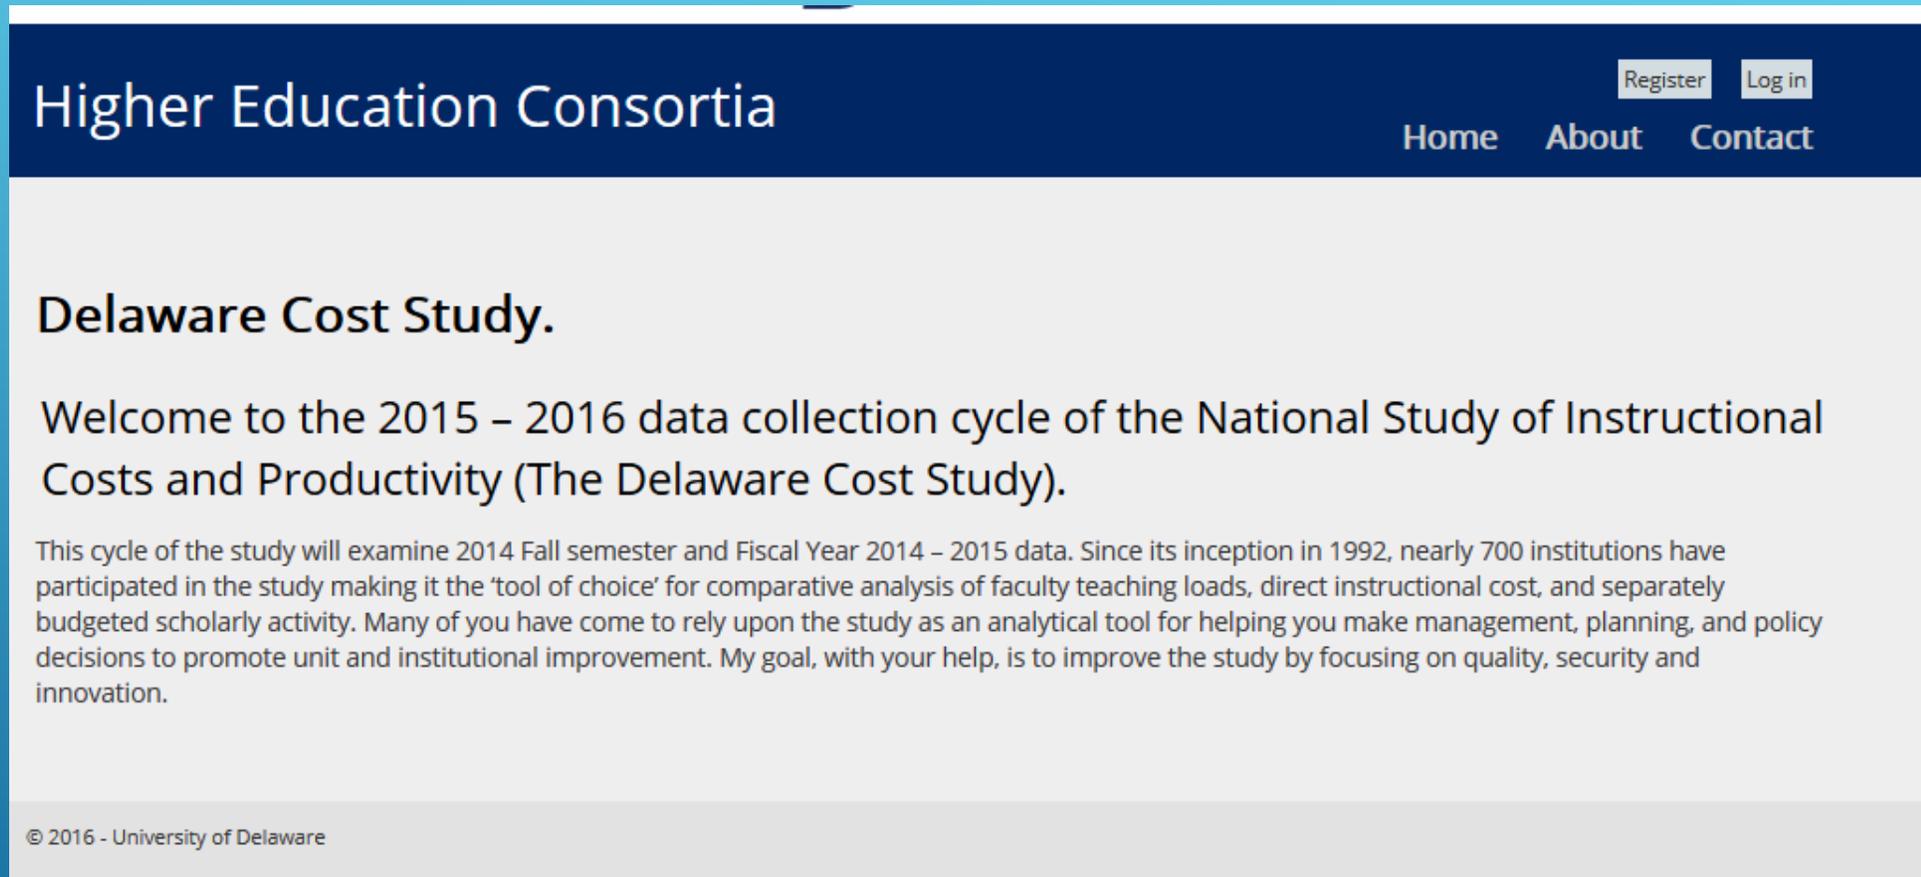

The prices below are effective during the **2016 - 2017** Delaware Cost Study Cycle:

The cost to participate for the 2016-2017 cycle will be **\$1,500.00**. An institution that commits to participating before October 31, 2016, will be offered a discounted price of **\$1,250.00**. Any payments received after January 31, 2017 will be charged a late fee of **\$250.00** for a total participation fee of **\$1,750.00**. The results for the 2016 - 2017 Delaware Cost Study will be released in the summer of 2017.

All submission will be done through the web portal via file upload or data entry. This web view will facilitate data validation prior to submission. You will no longer be able to submit an ASCII file, an Excel flat file or in the Excel Template.

Introducing the new Web Portal

The screenshot shows a web portal with a dark blue header. On the left, the text "Higher Education Consortia" is displayed in white. On the right, there are buttons for "Register" and "Log in", and a navigation menu with "Home", "About", and "Contact". Below the header, the main content area is white. It features a section titled "Delaware Cost Study." followed by a welcome message: "Welcome to the 2015 - 2016 data collection cycle of the National Study of Instructional Costs and Productivity (The Delaware Cost Study)." Below this is a paragraph of text: "This cycle of the study will examine 2014 Fall semester and Fiscal Year 2014 - 2015 data. Since its inception in 1992, nearly 700 institutions have participated in the study making it the 'tool of choice' for comparative analysis of faculty teaching loads, direct instructional cost, and separately budgeted scholarly activity. Many of you have come to rely upon the study as an analytical tool for helping you make management, planning, and policy decisions to promote unit and institutional improvement. My goal, with your help, is to improve the study by focusing on quality, security and innovation." At the bottom left of the page, there is a copyright notice: "© 2016 - University of Delaware".

Delaware Cost Study.

Welcome to the 2015 - 2016 data collection cycle of the National Study of Instructional Costs and Productivity (The Delaware Cost Study).

This cycle of the study will examine 2014 Fall semester and Fiscal Year 2014 - 2015 data. Since its inception in 1992, nearly 700 institutions have participated in the study making it the 'tool of choice' for comparative analysis of faculty teaching loads, direct instructional cost, and separately budgeted scholarly activity. Many of you have come to rely upon the study as an analytical tool for helping you make management, planning, and policy decisions to promote unit and institutional improvement. My goal, with your help, is to improve the study by focusing on quality, security and innovation.

This portion of the web portal will be used in the place of our data transmittal form, please make sure the person responsible for submitting the data is your designated user. Please contact our office for information on gaining additional user access.

The first step in the process will be to add all the programs you will be submitting to the Study one at a time. *This is to insure that you are not missing any programs.* Once you have entered all programs a CIP list will be generated . If you have not first entered a CIP, you will be unable input the data for that program or upload data from a flat file. CIP's should be inputted at the 6 digit level (i.e. 9.0100)

We kept the format of the web portal similar to the prior Cost Study Template.

This is where you will enter your degree information. The first column is for the 3 year average of 1st degrees awarded by program (based on the definition of 1st degrees in IPEDS). The second column is for the 3 year average of the total degrees awarded by program including 2nd and 3rd majors, etc. per student.

Please see our definitions page for further explanation before entering data.

	3 Year Average First Majors Only	3 Year Average All Majors
Bachelor's	<input type="text" value="12"/>	<input type="text" value="15"/>
Master's	<input type="text" value="2"/>	<input type="text" value="2"/>
Doctorate	<input type="text" value="0"/>	<input type="text" value="0"/>
Professional	<input type="text" value="0"/>	<input type="text" value="0"/>

This is not a degree granting program.

Please note: In some cases the red error messages will not disappear until you hit the save button at the bottom of the page.

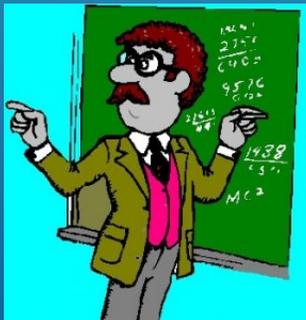

Part A data is for the Fall 2015 only.

FTE Faculty are entered in the first column. Any portion of the faculty workload paid from a separate budget (not the instructional budget) should be entered in the second column. This applies only to Regular Faculty. The FTE Instructional Faculty will be calculated.

Providing accurate financial information to the Delaware Cost Study is an essential part of the Study. In order for all participants to make informed decisions in Higher Education; up to date, complete cost data is an important aspect of the *National Study of Cost & Productivity*.

Once you have completed the first portion of the web portal and verified any inconsistency in the data, click on the Review for Submission and you will be taken to the same abbreviated tables found on our template. Things highlighted in red are metrics that look unusual, either too high or too low, based on previous studies or missing / unacceptable data. You will again be given the opportunity to go back and adjust your data before hitting the "Submit to UD" button.

By creating this new web portal, our hope is to improve the timeliness of the study, offer new and exciting analysis of the data collected and encourage new participants to join the study.
