Activating a Zoom Pro License

Zoom, UMass Dartmouth’s teleconferencing solution, provides one-on-one chat, group meetings, and connection to the room-based systems available in conference rooms on campus.

Faculty and many staff members automatically receive a Pro license, which allows for longer meetings with more participants. To activate your license, you must follow a link sent to your email account.

This document explains the license activation process. Note that the images in this document depict Firefox 73.0 with MacOS 10.14. Your computer may appear differently.
