Using Mirroring 360 on Campus with an iPad

1 - First, your iPad will need to have a profile installed to be able to join the UML eduroam Wifi network. If you have a VTR iPad (one supplied via UML IT), click the following icon for instructions:

![Wifi icon](image)

Otherwise, follow the instructions listed here: https://www.uml.edu/IT/Services/Get-connected/iOS-Wifi.aspx

2 - On the Teacher’s PC in the classroom, click the ^ icon on the bottom right corner, and click on the “M” icon to launch Mirroring 360.

3 - Click the QR CODE icon:

4 - On the iPad, launch the Mirroring Assist app.
5 - After the Mirroring Assist application opens, select “Scan QR Code” button in bottom left.

6 - With the iPad, scan the QR code on PC screen.

7 - On the iPad, with one finger, pull down from the top right corner and select “Screen Mirroring”.

8 - Select the TCPC teacher’s podium PC. This name changes according to the room’s location.
9 – After a slight delay, enter the numeric code shown on the PC into the iPad and hit “OK”.

![AirPlay Code]

10 - Remember to select “Stop Mirroring” from the iPad pull down menu when you are done.
