

Attention: Middle and High School Teachers!

Help your students use mapping to understand, analyze and interpret data, and argue from evidence.

The Power of Data (POD) is a 35 hour paid professional development program that enables secondary teachers to increase students' content knowledge, 21st Century Skills and awareness of geospatial technology careers through [Geospatial Inquiry](#) and data analysis.

We are seeking exceptional 6-12 grade, public, charter and private school teachers to apply to attend our POD Teacher Workshops in Milwaukee. Teacher Workshop participants will be compensated for participating.

BENEFITS:

- Stipend,
- Hands-on experience with web-based mapping software,
- Instructional and technical support as you implement lessons,
- No previous experience with GIS necessary. This class is designed to get GIS novices up and running quickly and easily.
