

Registration Troubleshooting

Issues with Registration

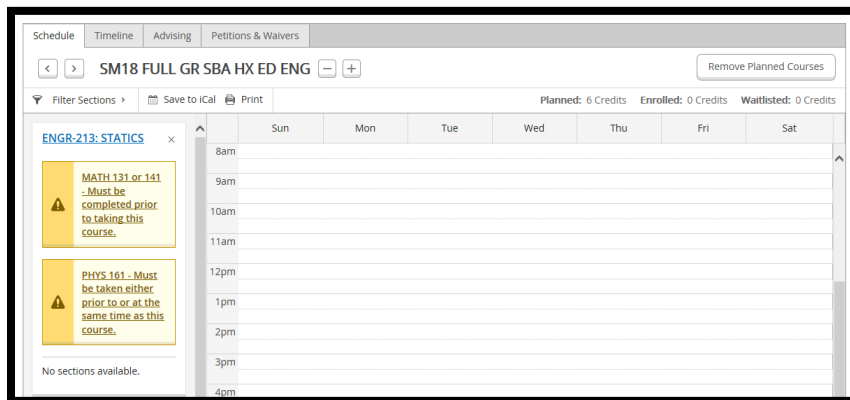

Due to changes in the schedule there may be issues with registering for courses. If the registration button does not appear try removing your planned courses and search for them again using the "Search for courses..." box or the Course Catalog.

Searching for Summer Courses

Please note there are four summer terms: one for the first half, one for the second half, and two for the full summer. If you cannot find the course section you are looking for we suggest using the "Search for courses..." box near the top right corner of the page or go through the Course Catalog without using the term filter.

Planned Courses no Longer Visible

Please note, due to schedule changes a course you may have planned may no longer be visible in the term you planned it (please see image below). If this is the case, please removed the planned course and use the "Search for courses..." box near the top right corner of the page or use Course Catalog.

Browser Recommendations

Internet explorer and Mozilla Firefox are the recommended browsers for Student Planning and Colleague Self Services. If you are having issues with your browser, you may need to clear cookies and cache.

If you are still having problems please contact the Registrar's Office at 610-499-4161.
