

Accessibility Extensions for Chrome

Time Management & Focus

Any.Do

Creates a to-do list that includes reminders, deadlines and long-term goals.

Tide

Productivity tool including a focus timer, white noise, and productivity statistics.

StayFocused

A highly customizable extension that limits or blocks use of "distracting" websites that you identify.

Block Site

A more basic site blocker that allows you to identify sites to completely block when enabled.

Noisili

Uses audio tracks to enhance focus and block out background noise in your environment.

Anxiety/Relaxation

Momentum

Creates a screen each time you open a new tab that includes calming strategies and self-identified intentions.

Calm

An extension that gives you easy breathing tools when needed, also will force you to take a mindful breath before opening a distracting website.

ZenMind

Access to meditations, ambient noise, relaxing backgrounds, reminders for self care and ability block distractions.

Limiting Eyestrain

Super Dark Mode

Turns any website interface into dark mode to reduce light and eye strain.

Night Shift

Switches the lighting of your monitor to more yellow tints as day progresses to reduce blue light during nighttime hours.

Eye Blinker

Timer extension that reminds you to give your eyes a 20 second rest every 20 minutes.

Learning Aids

Read Aloud

Will read any text written directly into webpage out loud.

Voice in

Allows you to speak text into open text fields in many platforms including Outlook, Gmail, and Canvas.

Visor

Allows you to focus on text at the cursor while blurring or tinting other lines of text to reduce line confusion or tracking confusion.

Power Thesaurus

Offers definitions, synonyms and antonyms for any word on the page.
