The Cardiac Bioelectricity and Arrhythmia Center (CBAC) is an interdisciplinary center whose goals are to study the mechanisms of rhythm disorders of the heart (cardiac arrhythmias) and to develop new tools for their diagnosis and treatment.

Cardiac arrhythmias are a major cause of death (over 300,000 deaths annually in the US alone; estimated 7 million worldwide) and disability, yet mechanisms are poorly understood and treatment is mostly empirical. Through an interdisciplinary effort, CBAC investigators apply molecular biology, ion-channel and cell electrophysiology, optical mapping of membrane potential and cell calcium, multi-electrode cardiac electrophysiological mapping, Electrocardiographic Imaging (ECGI) and other noninvasive imaging modalities, and computational biology (mathematical modeling) to study mechanisms of arrhythmias at all levels of the cardiac system.

Our mission is to battle cardiac arrhythmias and sudden cardiac death through scientific discovery and its application in the development of mechanism-based therapy.
Molecular structure and electrophysiological function of cardiac ion channels

Development of mathematical models of cardiac ion channels, cells and tissues

Regulatory pathways in cardiac cells

Mechanisms of hereditary cardiac arrhythmias

Arrhythmias in myocardial ischemia and infarction

Cell-to-cell communication and action potential propagation in the diseased heart

Ion-channel structure - function based drug design

Mechanisms of cardiac (ventricular and atrial) tachyarrhythmias and fibrillation

Development and application of a novel imaging modality for cardiac arrhythmias

Mechanisms of cardiac arrhythmias and resynchronization therapy in heart failure
An important goal of the CBAC is to enhance and promote education and training in biomedical engineering, life sciences, and clinical medicine.

The cross-disciplinary structure of the CBAC facilitates a synergistic relationship between training, research and clinical medicine. The educational component of CBAC builds on graduate programs in the Department of Biomedical Engineering and the Medical School. Through the CBAC, graduate students and scientists in engineering and life sciences can participate in clinical lectures, seminars, case presentations and clinical procedures such as diagnosis and treatment of arrhythmias in the catheterization laboratory.

Similarly, post-MD clinical fellows can participate in lectures and seminars in the basic science departments and in research projects in the basic science laboratories. The CBAC hosts seminars each semester, where world renowned clinicians and researchers are invited to lecture. These seminars are attended by engineering, physics and medical school faculty and graduate students, as well as professionals from outside the university.

The seminars are open to the general public.
Research is supported through grants to affiliated faculty. Funding agencies include:

- National Institutes of Health (NIH)
- American Heart Association (AHA)
- Fondation LeDucq
- National Science Foundation (NSF)
- Burroughs Wellcome Fund
Located within five areas across Washington University (the James McKelvey School of Engineering, School of Medicine, Center for Clinical Studies, St. Louis Children’s Hospital and the Mallinckrodt Institute of Radiology), our facilities include state-of-the-art laboratories for:

- genetics;
- molecular biology;
- cellular and subcellular electrophysiology;
- optical mapping of action potentials and cell calcium;
- multi-electrode mapping of cardiac electrical activity;
- mathematical modeling and computer simulations using supercomputing.

Studies can also be conducted in clinical facilities for MRI, CT and Ultrasound imaging, and for electrophysiology studies and arrhythmia treatment during cardiac catheterization and surgery.
FACULTY DIRECTORY

Director Yoram Rudy, PhD, FAHA, FHRS
The Fred Saigh Distinguished Professor of Engineering; Professor of Biomedical Engineering, Cell Biology & Physiology, Medicine, Radiology, and Pediatrics
Email: rudy@wustl.edu
Phone: (314) 935-8160
Websites: rudylab.wustl.edu, cbac.wustl.edu

R. Martin Arthur, PhD
Newton R. & Sarah Louisa Glasgow Wilson Emeritus Professor of Engineering
The Preston M. Green Department of Electrical & Systems Engineering
Email: rma@wustl.edu
Phone: (314) 935-6167
Website: arthurlab.wustl.edu

C. William (Bill) Balke, MD
Professor of Medicine, Cardiovascular Division
Washington University School of Medicine
Chief of Cardiology, St. Louis Veterans Affairs Medical Center (VAMC) & Health Care System
Email: bill.balke@wustl.edu
Phone: (314) 362-8908

Philip Bayly, PhD
The Lee Hunter Distinguished Professor of Mechanical Engineering
Chair, Department of Mechanical Engineering & Materials Science
Professor of Biomedical Engineering
Email: pvb@wustl.edu
Phone: (314) 935-6081
Website: baylylab.wustl.edu
Sanjeev Bhalla, MD

Professor of Radiology  
Chief, Cardiothoracic Imaging Section  
Co-Chief, Body Computed Tomography  
Assistant Radiology Residency Program  
Director, Mallinckrodt Institute of Radiology

Email: sanjeevbhalla@wustl.edu  
Phone: (314) 362-2927

Daniel H. Cooper, MD

Associate Professor of Medicine  
Cardiovascular Division  
Director, Electrophysiology Fellowship  
Washington University School of Medicine

Email: cooperdh@wustl.edu  
Phone: (314) 747-8494

Phillip S. Cuculich, MD

Associate Professor of Medicine  
Cardiovascular Division  
Washington University School of Medicine

Email: pcuculic@wustl.edu  
Phone: (314) 454-7698

Jianmin Cui, PhD

Professor of Biomedical Engineering  
Department of Biomedical Engineering

Email: jcui@wustl.edu  
Phone: (314) 935-8896  
Website: research.engineering.wustl.edu/~jcui
Aarti Dalal, DO
Assistant Professor of Pediatrics, Cardiology
Washington University School of Medicine

Email: asdalal@wustl.edu
Phone: (314) 273-1470

Ralph J. Damiano, Jr., MD
Evarts A. Graham Professor of Surgery
Chief, Cardiothoracic Surgery
Washington University School of Medicine

Email: damianor@wustl.edu
Phone: (314) 362-7327
Website: cardiothoracicsurgery.wustl.edu

Victor G. Davila-Roman, MD, FACC, FASE
Professor of Medicine, Anesthesiology, Radiology
Medical Director, Cardiovascular Imaging and Clinical Research Core Laboratory
Washington University School of Medicine

Email: vdamila@wustl.edu
Phone: (314) 362-4748; Website: circl.wustl.edu

Mitchell N. Faddis, MD, PhD
Professor of Medicine
Cardiovascular Division
Director, Electrophysiology
Washington University School of Medicine

Email: faddism@wustl.edu
Phone: (314) 454-7772
Michael J. Greenberg, PhD
Assistant Professor of Biochemistry & Molecular Biophysics
Washington University School of Medicine

Email: greenberg@wustl.edu
Phone: (314) 362-8670
Website: glab.biochem.wustl.edu

Richard W. Gross, MD, PhD
Professor of Medicine & Developmental Biology
Washington University School of Medicine
Professor of Chemistry
Washington University in St. Louis

Email: rgross@wustl.edu
Phone: (314) 362-2690

Nathaniel Huebsch, PhD
Assistant Professor
Department of Biomedical Engineering

Email: nhuebsch@wustl.edu
Phone: (314) 935-7208
Website: huebschlab.wustl.edu

R. Gilbert Jost, MD
Professor Emeritus of Radiology
Department of Radiology
Washington University School of Medicine

Email: jostg@wustl.edu
Phone: (314) 747-4563
Sándor J Kovács, MD, PhD
Professor of Medicine, Cell Biology & Physiology, Biomedical Engineering; Adj. Prof. of Physics; Director & Founder, Cardiovascular Biophysics Laboratory; Washington University School of Medicine
Email: sjk@wustl.edu
Phone: (314) 454-7660
Website: cbl1.wustl.edu

Douglas L. Mann, MD
Lewin Distinguished Professor of Cardiovascular Disease; Professor of Medicine, Cell Biology and Physiology, Washington University School of Medicine
Email: dmann@wustl.edu
Phone: (314) 362-8908

Arye Nehorai, PhD
Eugene & Martha Lohman Professor of Electrical Engineering, The Preston M. Green Department of Electrical & Systems Engineering
Email: nehorai@wustl.edu
Phone: (314) 935-7520
Website: www.ese.wustl.edu/~nehorai

Jeanne M. Nerbonne, PhD, FAHA
Alumni Endowed Professor of Molecular Biology & Pharmacology; Director, Center for Cardiovascular Research; Co-Director, CIMED; Departments of Developmental Biology & Internal Medicine
Email: jnerbonne@wustl.edu
Phone: (314) 362-2564,
Website: nerbonnelab.wustl.edu
**Colin G. Nichols, PhD**

Carl Cori Professor, Department of Cell Biology & Physiology; Director, Center for the Investigation of Membrane Excitability Diseases, Washington University School of Medicine

Email: cnichols@wustl.edu
Phone: (314) 362-6630
Website: cimed.wustl.edu

**Joseph A. O’Sullivan, PhD**

Samuel C. Sachs Prof. of Electrical Engineering Professor & Dean of the UMSL/WUSTL Joint Undergraduate Engineering Program

Email: jao@wustl.edu
Phone: (314) 935-4173

**Maria S. Remedi, PhD**

Assistant Professor of Medicine and of Cell Biology & Physiology
Washington University School of Medicine

Email: mremedi@wustl.edu
Phone: (314) 362-6636
Website: endo.wustl.edu/remedi-lab/

**Stacey L. Rentschler, MD, PhD**

Associate Professor of Medicine & Developmental Biology, & of Biomedical Engineering, Cardiovascular Division
Washington University School of Medicine

Email: stacey.rentschler@wustl.edu
Phone: (314) 362-6212
Website: rentschlerlab.wustl.edu
FACULTY DIRECTORY (continued)

Clifford G. Robinson, MD
Professor of Radiation Oncology
Chief of Service, Stereotactic Body Radiation Therapy (SBRT)
Director, Clinical Trials & Clinical Informatics
Washington University School of Medicine

Email: clifford.robinson@wustl.edu
Phone: (314) 362-8567

Rajan Sah, MD, PhD
Associate Professor of Medicine,
Cardiovascular Division; Associate Professor of Cell Biology & Physiology
Washington University School of Medicine

Email: rajan.sah@wustl.edu
Phone: (314) 273-7748

Richard B. Schuessler, PhD
Director, Cardiothoracic Surgery Research Laboratory Research Professor of Surgery (Cardiothoracic Surgery) & Biomedical Engineering; Washington University School of Medicine

Email: schuesslerr@wustl.edu
Phone: (314) 362-8310

Jingyi Shi, Ph.D.
Research Assistant Professor
Department of Biomedical Engineering

Email: jshi22@wustl.edu
Phone: (314) 935-7623
Website: research.engineering.wustl.edu/~jcui/
Jennifer N. A. Silva, MD
Associate Professor of Pediatrics & of Biomedical Engineering; Director of Pediatric Electrophysiology; St. Louis Children’s Hospital, Division of Pediatric Cardiology, Washington University School of Medicine
Email: jennifersilva@wustl.edu
Phone: (314) 454-2544

Jonathan R. Silva, PhD
Associate Professor
Department of Biomedical Engineering
Email: jonsilva@wustl.edu
Phone: (314) 935-8837
Website: silvalab.bme.wustl.edu

Timothy W. Smith, DPhil, MD, FACC, FHRS
Professor of Medicine
Cardiovascular Division
Washington University School of Medicine
Email: tsmith@wustl.edu
Phone: (314) 454-7982

Phyllis K. Stein, PhD
Associate Professor of Medicine
Director, Heart Rate Variability (HRV) Laboratory, Washington University School of Medicine
Email: pstein@wustl.edu
Phone: (314) 286-1350
Website: hrvlab.wustl.edu
George F. Van Hare, MD
The Louis Larrick Ward Professor of Pediatrics
Director, David Goldring Division of Pediatric Cardiology; Co-director, St Louis Children’s and Washington University Heart Center
Washington University School of Medicine
Email: vanhare@wustl.edu
Phone: (314) 454-4217

Jason W. Trobaugh, DSc
Professor of Practice
The Preston M. Green Department of Electrical & Systems Engineering
Email: jasont@wustl.edu
Phone: (314) 935-7549

Pamela K. Woodard, MD, FACR, FAHA, FCCP, FSCMR, FNASCI
Hugh Monroe Wilson Professor of Radiology
Professor, Biomedical Engineering
Sr. Vice Chair, Radiology Research Facilities
Director, Center for Clinical Imaging Research (CCIR); Head, Advanced Cardiac Imaging
Email: woodardp@wustl.edu
Phone: (314) 747-3386

Chao Zhou, PhD
Associate Professor
Department of Biomedical Engineering
