**Summer Program COVID-19 Information to Share with Your Participants.**

*Online applicants will receive a copy of this information via email after completing the registration form.*

---

---

**Quarantining and Entry Testing**

It is recommended that students who are not fully vaccinated **quarantine** for 14 days before their arrival in St. Louis.

**Quarantine** means to stay in your apartment and only leave for critical items, such as food and medicine. You must wear a mask when leaving your bedroom and apartment or suite. You may also use delivery services for food while you are quarantining. You must practice good personal hygiene and social distancing.

- Fully vaccinated means that it has been 2 weeks since your second dose.

---

**Participants not vaccinated**

All summer residents who are not fully vaccinated against Covid-19 at least two weeks prior to their summer check-in, will be required to receive entry testing and **quarantine** in their summer assignment until their test results come back.

**Quarantine** means to stay in your apartment and only leave for critical items, such as food and medicine. You must wear a mask when leaving your bedroom and apartment or suite. You may also use delivery services for food while you are quarantining. You must practice good personal hygiene and social distancing.

- You will receive entry testing instructions from the Danforth Testing Site prior to your check-in date, during the week of May 24, 2021 for check-ins prior to June 2, 2021.

- Entry testing will occur on June 1, 2021 at the Danforth Testing Site on the Mudd Field on the north side of the Danforth University Center.

- Testing will be offered Monday - Friday 8:00 a.m. – 4:00 p.m. at Habif Health & Wellness for check-ins after June 1st via appointment.
• This may delay the start of your summer program. We strongly recommend getting vaccinated before the start of summer. Dr. LeBlanc from Washington University Habif Health & Wellness has attached a letter to provide your intern or research provider if your start date is delayed due to entry testing.

---

**Fully Vaccinated Participants**

If you are fully vaccinated or will be fully vaccinated, at least two weeks prior to your summer check-in date, please provide a copy of your vaccine card via e-mail by May 21, 2021 to habifnursing@wustl.edu if your check-in date is prior to June 2, 2021.

For participants checking in after June 2, 2021, please provide a copy of your vaccine card via e-mail at least ONE WEEK prior to your check-in date to habifnursing@wustl.edu.

• Subject line MUST say: **SUMMER PROGRAMS COVID VACCINE DOCUMENTATION**.

• Include your full legal name and WUSTL ID number (if applicable).

• This is required to be exempt from entry testing.

Habif Health & Wellness will offer entry and diagnostic testing on the Danforth Campus to those exhibiting symptoms and who have been exposed, Monday - Friday 8:00 a.m. – 4:00 p.m.

---

**Non-Wash U Participants**

Non-WashU summer participants will also be required to register for a WUSTL Key for entry and optional testing. You will receive a separate email prior to your check-in date with instructions to create your WUSTL Key.
COVID-19 Health & Safety for Summer Residents

Members of our community must follow the requirements for being on campus fully and consistently, as reflected in the WashU Community Pledge and Policy Acknowledgment for Summer Residents and Community Pledge that they complete after registering for summer housing. In the event that any individual fails to adhere to the training and pledge, they are not permitted onto campus or in residential housing and disciplinary action may be taken.

PROTECTING OUR COMMUNITY’S HEALTH

SUMMER RESIDENTS TO SELF-QUARANTINE BEFORE COMING TO CAMPUS
Summer residents that are not fully vaccinated against Covid-19 are asked to significantly limit their interactions with others in the 14 days prior to departing for St. Louis for the start of the summer semester. This includes staying at home as much as possible, washing your hands frequently, wearing a mask if you must be in contact with anyone outside your home, and keeping at least six feet of distance between yourself and others outside of your family. Please monitor for symptoms of COVID-19 and if they develop, seek medical advice before coming to St. Louis. Students should call Habif Health and Wellness Center at 314-935-6666 or the COVID Call Center at 314-362-5056. Do not come to campus if you have symptoms of COVID-19.

COVID-19 TESTING
All summer residents who are not fully vaccinated against covid-19 at least two weeks prior to their summer check-in, will be required to receive entry testing on June 1st. You will be required to quarantine in your summer housing assignment until your test results are returned. For those checking in after June 1st, Habif Health & Wellness will offer entry and
diagnostic testing on the Danforth Campus to those exhibiting symptoms and who have been exposed Monday-Friday 8am-4pm. Please check with Summer Programs for related costs.

CONTACT TRACING
During the summer semester, Washington University Occupational Health and Habif Health and Wellness Center will continue to work with the St. Louis City and County Departments of Health to help conduct contact tracing and notification within the university community for COVID-positive individuals and their close contacts, if affiliated with the university. Please check with Summer Programs for related costs. See more details about contact tracing.

QUARANTINE & ISOLATION
The university will provide isolation housing for summer residents who test positive for COVID-19 during the summer semester, unless they are able to isolate in an off-campus location, as approved by Habif medical staff. We will provide quarantine housing for summer residents who have been directed to quarantine due to exposure. We will conduct follow-up procedures for all summer residents to ensure that they are medically cleared before returning to campus following a positive test.

We will provide meals and other essential services – including cleaning – to meet needs of students who are quarantined or isolated on-campus. Meal deliveries will include drinks and snacks as well as utensils/condiments. Please check with Summer Programs for related costs. Dining Services can be contacted at diningservices@wustl.edu.

The amount of time students must remain in quarantine or isolation will be determined by current CDC guidelines. Learn more about quarantine and isolation.

PUBLIC HEALTH REQUIREMENTS
In order to protect the safety, health and well-being of our university community, we will continue to require all students, summer residents, faculty, staff, and approved visitors to take the following actions.

WEAR A MASK AT ALL TIMES
Anyone physically present on campus must wear a mask that fully covers their mouth and nose at all times, unless they are alone in an individual closed office space or are outside and able to
keep at least six feet between themselves and other people they do not live with. Please see the CDC website for information about allowable masks, including how to wear them properly. This includes washing your hands before putting on your mask putting it over your nose and mouth and securing it under your chin, and making sure it fits snugly against the side of your face while allowing you to breathe easily.

Masks may be removed while eating or drinking in spaces on campus where eating and drinking are usually allowed, as long as there are at least six feet of physical distance or a physical barrier to create separation between other people who do not live together. Eating outdoors is strongly encouraged whenever possible. See mask requirements for the Danforth Campus.

PRACTICE PHYSICAL DISTANCING
Maintain at least six feet of separation from other people at all times in all indoor and outdoor campus environments. Exceptions will be made for students sharing suites and apartments, and other individuals who share a household. There also may be a small number of exceptions to accommodate close work in certain lab and studio settings. In these environments, masks will be required and all other public health requirements will be followed as closely as possible.

The most effective way to slow the spread of COVID-19 is to ALWAYS wear a mask.

SCREEN FOR SYMPTOMS
Self-screenings are a critical part of our public health strategy and it is extremely important that everyone is paying close attention to any possible symptoms of COVID-19. All summer residents, students, faculty, and staff must complete a daily self-screening to monitor for symptoms of COVID-19 before coming to campus. Individuals living in residential housing must complete a daily self-screening before leaving their residence hall room. Anyone showing symptoms or otherwise failing the daily screen will be required to stay home and contact university health services (Habif Health and Wellness Center for students and Occupational Health for employees) for further instructions.

RESIDENTIAL VISITORS
To help ensure the safety of our residential communities, Summer Programs properties are only accessible to the students who live there and the staff who work there. Guests, including those who live in other residential spaces on campus, are not permitted for the foreseeable future.
Families of current students will be allowed for drop-off or pick-up only. This policy and others will be evaluated as needed throughout the course of the coming year.

**PRACTICE PERSONAL HYGIENE**

All members of the university community must take extra care to wash their hands with soap and water for at least 20 seconds, especially after being in a public place, or after blowing their nose, coughing or sneezing. Alcohol-based disinfectant or hand sanitizer can be used if soap and water are not available. Everyone must also follow specified procedures for cleaning and disinfecting rooms, offices and common areas.

**COMPLIANCE**

Any individual who consistently fails or willfully refuses to meet these requirements may be prohibited from being on campus and may face further disciplinary action. All students and summer residents who are living on campus in residential housing, or participating in on-campus classes or activities will be required to pledge to adhere to these principles and indicate they understand the consequences – which could range from loss of privileges to be present on campus or removal from on-campus housing up to suspension or expulsion from the university – if they do not follow the requirements.
