

Foundation ANNE MAURER-CECCHINI

THE 2016 AWARD

This year, we received 17 inscriptions to the Anne Maurer-Cecchini 2016 Award, all covering interesting researches in a great variety of domains. After a difficult choice, we are proud to attribute the 20'000 CHF prize to an outstanding epidemiologic study on lymphatic filariasis in Sri Lanka :

Dr Ramakrishna U. Rao, Gary J. Weil et al, de la Washington University School of Medicine, St Louis; Missouri, USA :
A Comprehensive Assessment of Lymphatic Filariasis in Sri Lanka Six Years after Cessation of Mass Drug Administration. ([see publication](#))

The award was delivered during the closing session of the Geneva Health Forum April 21, 2016. See the [video](#) the authors sent for projection during the ceremony.

The prize money will be used for future studies in Sri Lanka.
