

CRE² Resident and Trainee Affiliates

What a world this will be when human possibilities are freed, when we discover each other...
-W. E. B. Du Bois

The Center for the Study of Race, Ethnicity & Equity (CRE²) at Washington University in St. Louis works to bring into conversation scholars on all campuses whose research examines race and/or ethnicity. Our goal is to support and promote the creation of field defining research, innovative learning, and strategic engagement that will transform scholarship, policy, and clinical interventions. We are especially interested in engaging with and supporting emerging academic and clinical intervention voices.

Resident and Trainee Affiliates include all full-time trainees at the Washington University School of Medicine who are interested in research and/or clinical practice relating to race/ethnicity, including health disparities, engaging populations, and/or designing health care innovations. Affiliates should be interested in interacting with a community of scholars and clinicians across disciplines engaging in research, learning, and community practices that seek to expand the understanding of race/ethnicity locally, nationally, and globally.

Benefits of Being a Resident and Trainee Affiliate

- Visibility to colleagues, funders, and other potential collaborators
- Connection to an interdisciplinary group of faculty, graduate students, and other postdoctoral and trainee scholars working on race and/or ethnicity
- Exposure to race/ethnicity experts from around the world
- Resources to support and promote research, funding, and publication
- Opportunities for community, policy, and media engagement
- Eligibility for grant funding
- Eligibility to apply for unique funding opportunities
- Support in the design and implementation of Resident and Trainee Affiliate activities related to race/ethnicity in research, learning, and community
- Collaborate with other Affiliates in mentoring an undergraduate, graduate, or medical student engaged in research on race and/or ethnicity
- Priority for any wait-listed events or forums
- Assistance with dissemination of the Affiliates' race/ethnicity work through CRE²'s multiple communication portals including Working Paper Series, email, newsletter, website, social media, or methods customized to the Affiliates' needs
- Receipt of comprehensive announcements about race and/or ethnicity related events and opportunities
