

Apr 27, 2015

Siteman Cancer Center Clinical Trial Core Users:

Effective July 1, 2015 the Clinical Trial Core will implement new fees for coordinator and regulatory services. The charge amounts below reflect the current costs for providing services.

The fees will apply to all current and future budgets being negotiated. Budgets that have been previously negotiated will not change.

Type of Study	New Hourly Rates	
	CRA	Regulatory
Non-Pharma Owned/Initiated	\$51.00	\$51.00
Pharma Owned/Initiated	\$68.00	\$68.00

**\*\*\*Rates are not inclusive of overhead.** Appropriate overhead rates will need to be applied depending on funding source.

We will review all fees on an annual basis and make adjustments as necessary. Please plan an increase of 3% in your future research study budgets to allow for inflationary cost increases in future years.

Thank you for your continued support.

Nick Fisher,  
Director Operations, Siteman Cancer Center
