Mallinckrodt Institute of Radiology
2019 Research Symposium

Tuesday, March 26 • Noon to 5 pm
Connor Auditorium • Farrell Learning and Teaching Center

Keynote Lecture • 12:15 PM
Data Science in Imaging
Janet F. Eary, MD
Associate Director, Cancer Imaging Program
National Institutes of Health/NCI/DCTD

Supporting Lectures • 1:15 PM

Daniel Marcus, PhD
Electronic Radiology Laboratory
Imaging Informatics for AI in Radiology

Brent Mombourquette
Whiterabbit.ai
Deep Learning and Screening Mammography

Mark Anastasio, PhD
University of Illinois Urbana-Champaign
Deep Learning-Enabled Theoretical Image Science for Task-Based Image Quality Assessment

Akash P. Kansagra, MD
Interventional Neuroradiology
Digital Tools and Trials: Computing the Path to Improved Radiology Practice and Clinical Care

Poster Session • 3:30 PM
Posters will be presented from all divisions of Mallinckrodt Institute of Radiology and will illustrate a full range of imaging research.

Registration is required. RSVP to karcherm@wustl.edu

Partially sponsored by the MIR TOPTIER T32 Training Program, NIH NIBIB T32 EB021955
