

Washington University in St. Louis

September 7, 2017

Dear Students,

We are reaching out to you because you are from the South Florida/Caribbean area. All of us in the Washington University community are concerned by reports of the hurricane and the evacuations taking place. Please know that you and your families, friends, and loved ones are in our thoughts.

We know that this is an exceptionally anxious time and it may be difficult to think about your studies, but please know that Washington University is a community of support. Counseling is available on the Danforth campus in the Habif Health & Wellness Center; you may call 314.935.6695 and they will arrange for you to speak with someone. If you need any other help, please call the Office of the Vice Chancellor for Student Affairs at 314.935.4526.

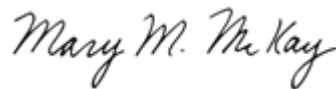

Sincerely,

Aaron Bobick
Dean School of Engineering & Applied Science
